Instructions for Researching Policies

There are 2 “search engines” or “search tools” included on this CD. The first one is the “Find” or “Search” feature provided by Adobe. To use it, follow the instructions below:

Open the manual. You will be looking at the Title Page. Following a graphic, the next page will be the Table of Contents for the 1000 Series. Scroll through the Table of Contents to find the

policy you wish to view. At this point, you may scroll through the pages of that series until you locate the policy you wish to view or you can find the policy or topic by using the embedded Adobe search engine, known as "Search" or "Find."

If you are looking for a policy and you want to see if there is any reference to remodeling a facility, all you have to do is click on the "Edit" tab on the tool bar, then click on "Search" or "Find." A dialog box will open and you can type in the word "remodeling" in the window. Then click on the "Search" button and Policy 7110 will open with the word "remodeling" highlighted. You will then be able to scroll through all of the policies in which the subject "remodeling" appears.

The second "search tool" is provided is a topical search tool that will help you search for a policy based on the topic you are seeking rather than a particular word. Again, click on the "Edit" tab on the tool bar, then click on "Find." In the dialog box, type in a word that represents a topic you are looking for, such as, "meeting." When using this search tool, you must add an exclamation mark (! i.e., meeting!) immediately after the topic word – meeting! This will take you to all policies that deal primarily with meetings.

If you wish to research a topic that may be found in several series, using these search tools will help you accomplish this task quickly and efficiently.

The only Official Policy Manual for the Millville School District is on file with the Superintendent of Schools. Only policies in the Official Policy Manual should be considered accurate and up-to-date.

Please refer to the Official Policy Manual to assure accuracy.

The Superintendent of Schools is responsible for maintaining the Official Policy Manual.

The Board of Education believes that school district public relations is not solely an information program, but encompasses all aspects of the schools' relationship with the total community.

The Board of Education believes a school-community communications program should:

- A. Promote public interest and participation in the operation of the school system;
- B. Gather information about public attitudes toward the school system and its programs and report them to the Superintendent of Schools and the Board;
- C. Provide an honest, continuous, comprehensive flow of information about the policies, procedures, programs, problems and progress of the school system to the community and the staff;
- D. Develop the most effective means of communication with the school system's public and use available media as appropriate;
- E. Develop programs in the schools that will integrate home, school, and community in meeting the needs of district pupils;
- F. Develop and maintain the confidence of the community in the school Board and school staff;
- G. Develop a climate that attracts good teachers and encourages staff to strive for excellence in the educational program;
- H. Anticipate and forestall problems that are brought about by lack of understanding; and,
- I. Evaluate past procedures in order to make improvements in future communications.

The Superintendent of Schools shall be responsible for developing programs, techniques and channels for implementing this policy.

Relations with Parents/Guardians

The Board believes that the education of children is a joint responsibility, one it shares with the parents/guardians of the school community. To insure that the best interests of the child are served in the process, a strong program of communication between home and school must be maintained.

The Board feels that it is the parents/guardians who have the ultimate responsibility for their children's in-school behavior, including the behavior of pupils who have reached the legal age of maturity, but are still for practical purposes, under parental authority. During school hours, the Board, through its designated administrator, acts *in loco parentis* or in place of the parents/guardians.

The Board directs that the following activities be implemented to encourage parent-school cooperation:

Community Relations

Concepts & Roles in Community Relations: Goals & Objectives

Policy 1000

Page 2 of 3

- A. Parent-teacher conferences to permit two-way communication between homes and school;
- B. Open house activities in the district schools to provide parents/guardians the opportunity to see the school facilities, meet the faculty and sample the program on a first hand basis.
The school will hold an open house at least once annually;
- C. Meetings of staff members and groups of parent/guardians of those students having special abilities, disabilities, needs or problems;
- D. Any meetings required by the State Department of Education to add additional community for input.

For the benefit of children, the Board believes that parents/guardians have a responsibility to encourage their child's career in school by:

- A. Supporting the school in requiring that the children observe all school rules and regulations and by accepting their own responsibilities for children's willful in-school behavior;
- B. Sending children to school with proper attention to their health, personal cleanliness and dress;
- C. Maintaining an active interest in the student's daily work and making it possible for the student to complete assigned homework by providing a quiet place and suitable conditions for study;
- D. Reading all communications from the school, and signing and returning them promptly when required to do so;
- E. Cooperating with the school in attending conferences set up for the exchange of information on the child's progress in school.

Relations with Other Educational Institutions

It is the policy of the Board of Education that strong lines of communication be maintained by the district with other districts and institutions that provide programs, training, or services not available to children residing in this district.

In order to maintain cordial and constructive relationships with other education institutions:

In the case of the regional school district school the Superintendent of Schools shall:

- Cooperate with the professional staff in articulation studies to ensure that pupils of this district are properly prepared to enter the school of the receiving district;
- Inform pupils in their final year in this district of program options in the receiving district and counsel them regarding their program choices;
- Provide an orientation program to pupils in their final year in this district to familiarize them with the facilities, procedures and rules of the receiving district;
- Develop procedures to follow the progress of the pupils of this district during their careers in the receiving school(s).

Official school publications shall reflect the judgment of the faculty sponsors and student editors. This entails the obligations to be governed by the standards of responsible journalism such as avoidance of libel, obscenity, defamation, false statements or material advocating violation of laws and racial or religious prejudice. The Superintendent of Schools is responsible for the development of a standard operating procedure in regard to all school publications.

Code of Ethics for School Publications

Administration

1. The Superintendent of Schools is ultimately responsible for all activities taking place within the school, and thus has final authority over all school publications.
2. As a matter of administrative necessity, the Superintendent of Schools delegates his authority to the faculty advisor(s) of the publication. It thus becomes the advisor's responsibility to ensure that the publications under his or her control adhere to the letter and spirit of this code. When in doubt about the propriety of any specific article or issue, he or she is to consult the Superintendent of Schools for final decision.
3. The advisor may, in turn, grant to his or her student editors, the authority to ensure adherence to this code, although the responsibility still must rest with the advisor.
4. It is incumbent upon student editors to understand in full the provisions of this code. They can assume the editorship only when they have subscribed completely to the principles and provisions of this code in word and practice. Failure of the editors to follow the principles and provisions of this code will constitute grounds for dismissal for the publication staff.

Specific Provisions Governing All School Publications

1. The faculty advisor(s) of publications shall review the code of ethics with all students.
2. The stories and articles shall not contain any language that is profane, obscene, offensive or suggestive.
3. The stories and articles shall not deal with any subject that by its nature would offend the taste and sensibilities of the community.
4. No individual student or faculty member may ever be singled out for censure, criticism or ridicule in a school publication.
5. No group of individuals may similarly be identified in print for such censure, criticism or ridicule in a school publication, although positive suggestions may be made in editorial columns or letters for the improvement of such organizations.
6. No religious, racial or national group shall be held up to ridicule by statement or innuendo in the school publications.
7. As a matter of courtesy and as a guarantee of accuracy, all news stories concerning a faculty member should be cleared with that faculty member; and all stories dealing with a school organization should be cleared with the sponsor of that organization.
8. No article may covertly or overtly advocate the overthrow of our democratic system of government.

Specific Provisions Regarding Special Kinds of Writing

1. Editorials are always unsigned and as a matter of newspaper tradition, reflect the opinions of the entire editorial staff, not one individual. They may make constructive suggestions for improvement, although they should do so in a positive fashion and must not hold up to ridicule, censure, or criticism any group or individual. The school newspaper should not indulge in political controversy, or support any one political party.
2. Columns of opinion (sports opinion, editorial opinion, literacy opinion, etc.) represent the thinking of one individual; as such, they must always be signed with the proper name of the student-author. He or she is held personally responsible for such opinions and must conform in all particulars with the provisions of this code.
3. Reviews of student performances (in sports, shows, etc.) present special issues and require special provisions. Sure reviews are opinions, not news, and as such belong in signed opinion columns. Negative comments can have a deleterious effect on team or group achievement. In view of these considerations, no individual may ever be singled out for condemnation or criticism of such reviews.
4. Letters to the editor – student letters to the editor may be published only after the student editor has checked their authenticity and only when they are signed by the senders' name, and conform in full to the provisions of this code.

Date Adopted: April 21, 2008

Date Revised:

Page 1 of 2

It is the intent of this policy to clarify student rights and responsibilities in regard to the publication and distribution of literature other than official school publications.

The Board of Education recognizes that each student has the right of free speech and free press under the First Amendment of the United States Constitution.

The Board, in an attempt to guarantee and protect the aforementioned rights of students, as well as assuring the continual orderly process of the educational program, establishes the following guidelines for the publication and distribution of newspapers, magazines, petitions, leaflets and other written materials which are not official school publications. However, such publications which are nonschool items are not encouraged and are subject to the guidelines below.

Acceptable Materials

Materials not proscribed as “unacceptable” per this policy, unless the Superintendent of Schools is convinced that the item would materially disrupt class work or involve substantial disorder or the invasion of rights of others.

Unacceptable Materials

- “So-called ‘hate’ literature which scurrilously attacks ethnic, religious and racial groups, other irresponsible publications aimed at creating hostility and violence, hardcore pornography and similar materials are not suitable for distribution in the schools.” [From a decision of the Commissioner of Education in Goodman vs. Board of Education, June 18, 1969, p.3]
- Materials that denigrate specific individuals in or out of the school; materials designed for commercial purposes to advertise a product or service for sale or rent and materials that are designed to solicit funds, are prohibited unless approved by the Superintendent of Schools.
- “Literature which in any manner and in any part thereof promotes, favors or opposes the candidacy of any candidate for election at any annual school elections, or the adoption of any bond issue, proposal, or any questions submitted at any general municipal or school election...”

[Decision of the New Jersey Commissioner of Education in Goodman vs. Board of Education, June 18, 1969, p.3]

Special Note

Students who edit, publish, post or distribute printed, handwritten or duplicated material among fellow students within the school are responsible for the content of such publications. Libel, obscenity, profanity, personal attacks and encouragement of the violation of laws are prohibited, as is conduct that interrupts school activities or infringes on the rights of others.

Identification

Acceptable materials (newspapers, magazines, petitions, leaflets), which have been defined, judged and approved as such, may be distributed on the schools' sidewalks in front of main entrances to the building. In case of bad weather, two pupils only will be permitted in front of the main lobby. Specific approval to distribute material inside must be obtained from the Superintendent of Schools on each occasion. Distribution may be by pupils enrolled in the school in front of which material is being distributed.

Times for Distribution

Distribution of approved literature must be restricted to the following time periods unless a more definite time is designated by the Superintendent of Schools.

- A. Fifteen minutes prior to the beginning of the school day (first class).

The Board of Education welcomes inquiries about and constructive criticism of the district's programs, equipment, operations and personnel.

Complaints, questions, and suggestions concerning school personnel or the operation of the schools should follow the established "chain of command" – teacher, supervisor, Superintendent of Schools, Board of Education.

The Superintendent of Schools shall develop procedures to investigate and solve problems promptly, and to provide accurate factual information in answer to inquiries. Such procedures shall conform to state law and applicable negotiated agreements.

Parents and pupils will be informed of the proper avenues to follow in the school.

When a Board member is confronted with an issue, he/she will withhold comment, commitment and/or opinion and refer the person with the complaint to inquiry to the appropriate authority.

Only in those cases where satisfactory adjustment cannot be made by the Superintendent of Schools and the staff shall communications and complaints be referred to the Board of Education for resolution.

All signed complaints shall be acknowledged promptly. No anonymous letters will be considered by the Board.

In carrying out the policy for the handling of complaints, the following procedures will be used:

- A. Neither the Board as a whole, nor any individual Board Member, will entertain or consider communications or complaints from school employees, parents, students, or other citizens, but shall refer such communications to the Superintendent of Schools;
- B. Complaints and inquiries should be written, in as brief a form as possible and sent to the Superintendent of Schools;
- C. The Superintendent of Schools will make every effort to resolve the problem with the person(s) immediately involved;
- D. When satisfaction has not been received at this level, the Board will accept complaint or inquiries submitted in writing;
- E. Persons requesting a hearing of the Board shall present their complaint or grievance in written form to the Board Secretary/Business Manager in sufficient detail to permit a full understanding of the matter. After hearing the evidence submitted by the Superintendent of Schools, the Board will, if it deems advisable, grant a hearing to the parties interested;

The Board of Education believes that cooperation between the school district and other organizations concerned with youth, career development and mental health will enhance the opportunities of the district's pupils. Such cooperation will also enable the district to serve its pupils better through appropriate referrals as in drug/alcohol programs, special needs, etc. The Superintendent of Schools is encouraged to explore areas of mutual concern with the administrative officers of such organizations and to recommend desirable courses of action.

The Board directs the Superintendent of Schools to seek and maintain working relationships with local colleges and universities in such areas as student teaching, in-service staff development, school-college liaison and advanced placement.

Relations With Non-Public Schools

The Board of Education will cooperate with parochial and private schools in matters of mutual benefit not expressly prohibited by law. The Superintendent of Schools is encouraged to explore areas of mutual benefit with the administrative officer of such schools and to recommend desirable courses of action.

Donations To Private Organizations

The authority for a Board of Education to expend public funds is derived from the constitutional mandate to "provide for the maintenance and support of a thorough and efficient system of free public schools." The donation of moneys to any private organization, regardless of the merits of that organization's purpose, is not within the authority of the Board and is, therefore, prohibited.

The Board of Education recognizes that the contributions of persons and organizations outside the schools may from time to time take the form of materials, activities and awards that tend to serve the interests of the contributor as well as benefit the school district generally and pupils individually.

It is the policy of the Board of Education that pupils, staff members and district facilities not be used for advertising or promoting the interests of any non-school agency or organization, public or private, without the approval of the Superintendent of Schools. Any such approval granted for whatever cause or group shall not be construed as an endorsement of said cause or group by this Board of Education.

The following considerations shall apply to matters of advertising and promotion:

1. Any requests from commercial business enterprises, civic institutions, religious or other special interest groups which involve such activities as patriotic functions, contests, exhibits, sales of products to and/or by pupils, sending promotional materials home with pupils, graduation prizes, fund raising and free teaching materials, must be carefully reviewed to insure that on balance such activities promote pupil interests without advancing the special "interests of any particular group.
2. All materials or activities proposed by outside sources for pupils or staff use or participation shall be reviewed by the Superintendent of Schools on the basis of their educational value in the total school program, their benefit to pupils and their good taste. No such approval shall have the primary purpose of advancing the name, product or special interest of the proposing group.
3. No materials may be used or circulated in the school of this district which are deemed to be primarily advertising materials with the following exceptions:
 - Imprinted materials solicited by teachers as being suitable for a project or purpose of their class with the approval of the administration.
 - Flyers of direct educational and cultural interest and of an essentially non-commercial nature.
 - Films bearing only the name of the sponsoring firm.
4. District publications shall contain no advertising, but advertising is permitted in school newspapers and yearbooks, which are published by pupil organizations with the permission of the Superintendent of Schools.
5. No staff member or pupil representing an outside organization may distribute or post literature on that organization's behalf on district property either before or after school hours without the permission of the Superintendent of Schools and/or school Principals.

Administrative Team

Policy 2110

Date Adopted: March 15, 1976

Date Revised: April 21, 2008

Page 1 of 2

The Board of Education supports the “Administrative Team” concept in the administration of the Millville Public Schools. Under this concept, it is considered that the Board of Education, as the policy making body and the administrators defined to the Superintendent of Schools, Assistant Superintendent, and Directors, as the administrative team, constitute a single team in charge of the organization and administration of the Millville Public Schools. Specifically, then, it is the belief of the Board of Education that the Board and the administration serve on the “same team.” Accordingly, the concept of “binding arbitration” will not be necessitated as both sides of the management teamwork cooperatively to ultimately solve any problem that may arise.

In implementing this philosophy, the Board adopts as policy the following considerations:

1. The Board and the administration constitute a “management team for the Millville Public Schools.
2. The members of the Administrative Team seek the advice and counsel of each other.
3. It shall be the purpose of the Administrative Team to seek cooperative solutions to all problems incident to the operation of the Millville Public Schools.
4. It shall be the purpose of the Board of Education to provide the necessary support for the administrators in several areas:
 - a) Board support for administrative action taken by the administrators in the pursuance of their duties.
 - b) Board provision for in-service experience designed to provide a continuing upgrade of the administrative staff. The policy should include courses, seminars, institutes, and conventions appropriate for the several administrative members.
 - c) Reimbursement for expenses incurred by the administrators in the pursuance of their assigned duties.
 - d) “Fringe benefits,” “Rights,” and “Privileges” comparable to all those provided for all other professional employees in the Millville Public School System.
 - e) Other appropriate benefits as may appropriately arise in the future.
 - f) The continuance of present “Benefits,” “Rights,” and “Privileges” as are currently established will be continued by the Millville Board of Education while the Millville administrators will continue carrying through all their obligations as currently exist.
 - g) A salary structure comparable to the prevailing salaries being paid to administrators in the South Jersey area, with annual review.
 - h) Twelve month employment for all present members of the administrative group.
5. It shall further be the option of either segment of the Administrative Team (Board or Administrators) to request and be granted the right to negotiate a complete contract if so desire at any future time.

Among the criteria used in annual evaluation of members of the administrative team, Board of Education policy includes personal professional growth; keeping the public and the Board informed about modern educational practices and trends; maintaining and enhancing the districts standing in all its major internal and external relationships.

The Board recognizes that a valuable source of the information necessary to accomplish these objectives is attendance and participation by district staff at state, regional and national educational conferences, conventions, workshops and seminars.

Therefore, the Superintendent of Schools shall develop forms and regulations to permit each administrative team member to attend such events at district expense subject to the following conditions:

1. Superintendent of Schools approval of the relevancy and value of the event;
2. Duration of total absence not to exceed six consecutive school days;
3. Mileage allowance as approved by the Board of Education;
4. Coach accommodation when traveling by train or plane;
5. Mid-fare accommodation at hotels and motels; when pairs of team members are of the same sex, shared accommodations;
6. Participation must be approved by the Board.
7. Ensure that the New Jersey Department of Education travel requirements are met.

These conditions shall apply to travel accommodations and reimbursement procedures for all district-paid attendance at such events.

The Board encourages staff and community participation in decision making. The superintendent shall recommend and the Board shall establish such committees as are necessary to make recommendations for the proper functioning of the district. The superintendent shall consult staff in the development of in-school groups as councils, cabinets and committees for the ready intercommunication of ideas regarding the operation of the school. The superintendent shall weigh with care the counsel given by members of the staff, and shall inform the Board of all such counsel in presenting reports of administrative action and in presenting recommendations for Board action.

School Leadership Council

The Millville Board of Education believes that educational improvement is most effective and long lasting when developed and implemented by those members of the educational community with the greatest sense of ownership and responsibility for this process. The Board further believes that the quality of its effectiveness as the legislated governing Board of the district will be enhanced through increasing the involvement of a broad base of members of the educational community.

The Board supports the concept that those most affected by educational decisions ought to play a significant role in the decision-making process. Development of School Leadership Councils (SLCs) offers a rare opportunity for stakeholders in the educational process to work together in a formal capacity to provide comprehensive school improvement. The Board encourages the development of SLCs that will include representation of staff, administration, Board members, parents, other community members and, when appropriate, students.

The ultimate success of our schools will be determined by the ability of each school to deliver services that align with the needs of their unique student- parent constituency. To this end, the Millville Board of Education supports the development of SLCs. The Superintendent of Schools is charged to ensure development of SLCs in all district schools, as well as ensuring development of necessary district and school-level operational guidelines.

Schools shall be held accountable for the quality and effectiveness of their school climate, curriculum and instruction. This accountability will be accompanied by involvement in making key school-level instructional and operational decisions that directly impact on the programs of schools. The superintendent of schools will communicate annually with the Board regarding the status and progress of compliance with the intent of this policy.

The Board of Education recognizes its responsibility for development and maintenance of successful SLCs. The Board will make every effort to provide the resources necessary to meet operational and staff development needs.

Budget Planning, Preparation & Adoption

Policy 3100/3110

Date Adopted: December 16, 2002

Date Revised: June 2, 2008

Page 1 of 3

The budget is the financial reflection of the educational plan for the district. The budget shall be designed to carry out that plan in a thorough and efficient manner and to maintain the facilities and honor the obligations of the district. The budget shall be in accord with statutory and regulatory mandates of the federal government, the state legislature, the State Board of Education, County Superintendent and the Board of Education.

Since the budget is the legal basis for the establishment of the school tax rate, the annual school budget process is an important means of communication within the school organization and with the residents of the district.

In reviewing budget proposals, the Board will consider priorities to be accomplished during the subsequent year, based on the needs identified through the district's planning process. The budget shall be prepared on forms prescribed by the Commissioner of Education and should be considered critically by each Board Member during its preparation.

In order to ensure adequate time for the preparation and review of the proposed budget, the Board directs the Superintendent of Schools to develop a schedule of events associated with the development, presentation and adoption of the budget by the Board. This calendar of events shall conform to all dates set out in statute and shall be reviewed and adopted by the Board annually.

It shall be the policy of this Board to inform the citizens of the community about the proposed annual school budget and provide citizens with the opportunity to discuss such budget with the Board at a public meeting of the Board. The Board shall hold at least one public meeting on the proposed budget prior to final action and in accordance with the law. Notices of the public hearing shall be made in accordance with the New Jersey Open Public Meetings Act. Legally required public hearing on the proposed budget shall be held after the County Superintendent of Schools has approved the budget. The community shall be notified of and encouraged to attend all Board Meetings at which preliminary budget discussions will be held.

If, as a result of the public hearing, it should be determined that changes in the budget are necessary the changes shall be made before the budget is adopted. The budget should evolve primarily from the schools' current needs, but should also consider the data collected in long-range budget planning. The budget shall provide sufficient resources for curriculum and instruction that are designed and shall be delivered in such a way that all students will have the opportunity to achieve the knowledge and skills defined by the core curriculum content standards, as well as locally defined standards.

Page 1 of 1

The Board of Education can meet only a limited number of educational needs and desires with the finite resources available to it. The laws of the State of New Jersey require that the school system be operated so that expenditures do not exceed revenues. The Superintendent of Schools and Board Secretary/Business Administrator are directed to formulate the annual budget, taking into consideration the following criteria:

- A. At all times, district resources, shall be used to produce the most positive effect on the students' opportunities to gain a sound basic education;
- B. The budget shall be in accord with statutory and regulatory mandates promulgated by the federal government, the state legislature, the State Board of Education, County Superintendent of Schools and the Board of Education;
- C. The budget shall be consistent with contracts between the Board and its employee groups.

In reviewing the proposed budget, the Board will consider priorities to be accomplished during the subsequent year, based upon the needs identified through the district's planning process. Funds and resources shall be provided for their accomplishment in amounts determined by the constraints of the budget.

Each year, when it is believed that the school district is eligible for federal and/or state assistance under the provisions of public laws, application for said assistance may be submitted so long as acceptance of the funds does not include conditions contrary to the policies of the Board of Education. The Superintendent of Schools shall inform the Board about specific assurances that may be required in addition to those addressed in this policy, and will provide the required language for Board adoption.

When the law requires the development and implementation of administrative procedures for submitting state and federal financial reports, with specified time schedules, the Superintendent of Schools and the Business Administrator/Board Secretary shall ensure that the staff has properly completed the reports and that in each instance the reports have been submitted within the specified time.

In particular, the Superintendent of Schools is responsible for assuring that the District is in compliance with Education Department General Administrative Regulations (EDGAR) and all persons responsible for following those administrative regulations shall be held accountable.

Drawdown of Federal Grant Funds

The New Jersey Department of Education (NJDOE) has implemented a reimbursement request system of payment. The procedures as outlined in the NJDOE Policies and Procedures for Reimbursement of Federal and Other Grant Expenditures shall be followed by this district in submitting reimbursement requests.

Reimbursement requests by the Board Secretary/Business Administrator/designee shall be made for individual titles and awards shall be made using the NJDOE's Electronic Web-Enabled Grant System (EWEG) system.

Reimbursement requests shall be made for individual titles and awards and only one reimbursement request per month may be submitted for an individual title or award. Reimbursement requests may only be for expenditures that have already occurred or will occur by the last calendar day of the month in which the request is made.

The submission of a reimbursement request shall constitute a certification by the Board Secretary/Business Administrator that the district has previously made the appropriate expenditures and/or will make the expenditures by the last calendar day of the month in which the request is made and that the expenditures are allowable and appropriate to the cost objective(s) of the subgrant. Reimbursement requests must be in accordance with the approved grant applications.

The authority to spend money for district operations rests with the Board of Education, although authority to purchase goods or engage services not covered by the Board-approved contracts may be delegated within limits established by law and the Board.

The budget as approved by the voters constitutes the district spending plan for the year. The New Jersey Administrative Code (NJAC) forbids the district to operate at a deficit. When expenditure will overspend a line item within either current expense, capital outlay or debt service, available funds may be transferred from another line item within the same category. This must be done by Board resolution before the expenditure is made and requires approval by a 2/3 affirmative vote of the authorized membership of the Board of Education.

The Board of Education shall not knowingly enter into a contract with any company that does not subscribe to and implement an affirmative action policy.

If the district anticipates an over-expenditure of one of three major accounts - current expense, capital outlay, or debt service - the procedures required by NJAC shall be initiated.

The Board of Education wishes to maintain good working relations with vendors who supply materials and services to the school system. Constructive efforts by the administration to seek the advice and counsel of vendors about how to improve such relationships are encouraged.

In the schools, vendors shall be seen by appointment only. Vendors who call upon a school shall be governed by Policy #1250 – Visits to the School. Teachers or supervisors of instruction who have invited vendors to call should notify the school office in advance so that proper courtesies may be extended.

Proof of registration shall be in the form of a copy of the “State of New Jersey Business Registration Certificate.” The Business Administrator shall keep a copy of the registration certificate on file.

Affirmative Action

All vendors shall supply assurances that they do not practice discrimination as described in the administrative code. All vendors shall be informed that harassment of any kind of district pupils or employees by their representatives is prohibited.

Results from the EPLS search shall be made part of the purchase order/contract documentation. Should a prospective vendor be found to be debarred or suspended by the Federal government, the Board Secretary/Business Administrator's office will notify the Superintendent of Schools of this finding and will place a hold on the supplier's registration within the district school financial system.

The Board of Education recognizes that as a part of its responsibility for the financial operation of the school district, all reimbursable expenses incurred by district employees and Board Members may be subject to audit and scrutiny.

All travel by district employees and Board Members shall be educationally necessary and fiscally prudent and all travel and expense reimbursements shall be:

1. Directly related to and within the scope of the employee's and/or Board Member's current responsibilities;
2. For travel that promotes the delivery of instruction or furthers the efficient operation of the school district; and
3. In compliance with NJ State travel reimbursement guidelines as established by the Department of Treasury in NJOMB circular letter 06-02, except that those guidelines that conflict with the provisions of Title 18A of the New Jersey Statutes shall not be applicable.

Reports Following Travel

Following any authorized and reimbursable travel, all employees are required to submit a report to their immediate supervisors detailing the primary purpose for the travel and the key issues that were addressed at the event and their relevance to improving instruction or the operation of the school district within 10 working days of returning from the event. Board Members shall submit similar reports to the Board President and the Board Secretary/Business Administrator by the next regular Board Meeting.

Approved Types of Travel

1. Staff Training and Seminars – include all regularly scheduled, formal residential or non-residential training functions, conducted at a hotel, motel, convention center, residential facility, or at any educational institution or facility.
2. Conventions and Conferences – are distinct from formal staff training and seminars, although some training may take place at such events. These are general programs, sponsored by professional associations on a regular basis, which address subjects of particular interest to an agency or are convened to conduct association business. The primary purpose of employee and/or Board Member attendance at conferences and conventions is the development of new skills and knowledge in a particular field related to the educational program of the school district.
3. Regular District Business – includes all regular official business travel, including attendance at meetings, conferences and any other gatherings that are not covered by the definitions included above.

Travel Methods

When used in these regulations, the term "transportation" is meant to include all necessary official travel on railroads, airlines, buses, taxicabs, rental cars and other usual means of transportation. The provisions of this section apply to all travel, whether for regular district business or attendance at conventions, conferences, staff training and/or seminars.

Air Travel

Air travel is authorized when it is determined that air transportation is advantageous to the conduct of district business. The most economical air travel must be used, including the use of discounted and special rates. Charges for classes of service other than economy (i.e., Business or First Class) are to be considered privileged and ineligible except when travel in such classes is less expensive than economy, avoids circuitous routings or excessive flight duration and/or would result in overall transportation cost savings.

Rail Travel

When it has been determined to be advantageous to the conduct of district business, the most economical scheduling of rail travel is to be utilized.

Ground Travel

Necessary taxicab charges are permitted. However, travel to and from airports and downtown areas should be confined to regularly scheduled shuttle service, whenever such service is less costly than taxicab service. If shuttle service between the airport and downtown destinations is not available, taxicabs may be used.

The district shall not bare the costs for car rentals, limousine services, and/or chauffeuring costs to or during the event, as well as costs for employee attendance for coordinating other attendees' accommodations at the event.

Transportation by Personal Vehicle (Mileage Basis)

Mileage is reimbursable according to the current contract rate, plus tolls and parking.

New contracts that specify a mileage reimbursement and that have an effective date of July 1, 2008 or later, must specify that the reimbursement rate shall be that stipulated in the OMB Travel Circular. All district travel reimbursement shall also be in accordance with the rate stipulated in the OMB Travel Circular. Tolls and parking fees are also reimbursable.

Reimbursement for travel to points outside of the state, by automobile shall be permitted when such arrangements prove to be more efficient and economical than other means of transportation. In determining the relative costs, all associated costs (i.e., tolls, taxicabs, airport or station transfer, etc.) should be considered.

Page 3 of 5

Routing of Travel

All travel must be by the most direct, economical and usually traveled route. Travel by other routes is allowed when official necessity is satisfactorily established in advance of such travel.

In any case where a person travels by indirect route for personal convenience, the extra expense must be borne by the individual.

Reimbursement for expenses must be based only on charges that do not exceed what would have been incurred by using the most direct, economical and usually traveled route.

Lodging, Accommodations, Meals and Miscellaneous Expenses

When travel is deemed necessary, district employees and Board Members may be reimbursed for allowable and reasonable expenses for lodging, accommodations, meals and miscellaneous expenses incurred. Annually, the Board of Education will establish reasonable and fiscally responsible rates for lodging, accommodations and meals. Unless approved in advance by the Board or the Superintendent of Schools, no expenses in excess of these rates will be eligible for reimbursement.

One-day trips that do not involve overnight lodging are not eligible for a subsistence payment or reimbursement as authorized in Department of the Treasury guidelines, except as otherwise superseded by the following:

1. Per diem payment or reimbursement for lodging and meals will be actual reasonable costs, not to exceed the federal per diem rates as established in the federal register for the current year;
2. Lodging expenses may exceed the federal per diem rates if the hotel is the site of the convention, conference, seminar or meeting and the going rate of the hotel is in excess of the federal per diem rates. If the hotel at the site of the convention, conference, seminar, or meeting and the going rate of the hotel is no longer available, lodging may be paid for similar accommodations at a rate not to exceed the hotel rate for the event;
3. Detailed receipts are required for all hotel and meal expenses;
4. Payment or reimbursement is approved for the full cost of an official convention meal that the employee and/or Board Member attends when the meal is scheduled as an integral part of the convention or conference proceedings, If a meal is included in the registration fee, the allowance for the meal is not eligible for reimbursement.

Documentation for Reimbursement of Expenses

In all cases, district employees and Board Members shall complete a voucher for any and all expenses being submitted for reimbursement, along with original, dated receipts for these expenses.

The Board directs the Business Administrator/Board Secretary to review all expenses submitted for reimbursement by district employees and Board Members to ensure that they are reasonable and fully documented according to the provisions of this policy.

Filing of Documentation

The Board of Education requires that detailed documentation demonstrating compliance with this policy, including travel approvals, reports and receipts for all school district funded expenditures, as appropriate, shall be maintained on file with the Board Secretary/Business Administrator.

Reimbursement

Reimbursement will only be made upon demonstrated compliance with this policy provisions and approval requirements. The Board of Education will not ratify or approve payments or reimbursements for travel after completion of the travel event.

No employee of the Board of Education or Board Member shall receive an amount for travel and travel-related expenses in advance of the travel pursuant to NJSA 18A:19-1 et seq.

Conflict of Interest

A Board Member shall recuse himself/herself from voting on travel if the Board Member, a member of his/her immediate family, or a business organization in which he/she has an interest, has a direct or indirect financial involvement that may reasonably be expected to impair his/her objectivity or independence of judgment.

No Board Members shall act in his/her official capacity in any matter in which he/she or a member of his/her immediate family has a personal involvement that is or creates some benefit to the school official or member of his immediate family or undertake any employment or service, whether compensated or not, that may reasonably be expected to prejudice his/her independent judgment in the execution of his/her official duties.

Annual Review

As a part of the annual budget making process, the Board Secretary/Business Administrator shall determine and the Board will approve a maximum expenditure amount allotted for travel and expense reimbursement for district employees and Board Members. In establishing this maximum expenditure amount, the Board Secretary/Business Administrator will take in to consideration that costs vary depending on the location of the off-site event. Following the adoption of the maximum annual expenditure for the district, should it become appropriate, the Board may alter the established maximum expenditure due to unforeseen costs.

The Board of Education may, at its discretion, approve at any time prior to an event, travel for multiple months as long as the Board approval, as detailed in the minutes of an official meeting of the Board, itemizes the approval by event, total cost, and number of employees and/or Board Members attending the event. General or blanket pre-approval for travel is not authorized. Approval shall be itemized by event, event total cost, and number of employees and/or Board Members attending the event.

Any person who approves any travel in violation of this policy shall be required to reimburse the district in an amount equal to three (3) times the cost associated with attending the event

Tobacco Use & Possession

No student, faculty/staff member or school visitor is permitted to use any tobacco product:

- In any building, facility, or vehicle owned, leased, rented or chartered by the district;
- On any school grounds and property—including athletic fields and parking lots—owned, leased, rented, utilized (e.g., adjacent parking lots) or chartered by the Board of Education;
- At any school-sponsored or school-related event on-campus or off-campus (e.g., field trips, proms, sporting events off campus, etc).

In addition, school district employees, school volunteers, contractors or other persons performing services on behalf of the school district (e.g., bus drivers) also are prohibited from using tobacco products at any time while on duty in accordance with their contracts or in the presence of students, either on or off school grounds.

Further, no student is permitted to possess a tobacco product while in any school building, while on school grounds or property or at any school-sponsored or school-related event, or at any other time that students are under the authority of school personnel.

Definition of Tobacco Products & Tobacco Use

For the purposes of this policy, “tobacco product” is defined to include but not limited to cigarettes, cigars, blunts, bidis, pipes, chewing tobacco and all other forms of smokeless tobacco, rolling papers and any other items containing or reasonably resembling tobacco or tobacco products (excluding quit products). “Tobacco use” includes smoking, chewing, dipping, or any other use of tobacco products.

Prohibition of Smoking by Pupils

- A. Pupils are not permitted to smoke at any time in school buildings, or anywhere within school boundaries, or on school buses, or when on a school-sponsored trip or activity off school premises.
- B. Pupils are not permitted to possess tobacco products or smoking paraphernalia while on school property.
- C. Pupils who are found exhaling smoke or possessing tobacco products or smoking paraphernalia shall be subject to school discipline codes approved by the Board of Education.

Compliance for Students

In recognition that tobacco use is a public health issue and that tobacco is a gateway drug and highly addictive, the Board of Education recognizes that intervention rather than punishment is the most effective way to address violations of this policy. Students who violate the school district's tobacco-use policy will be referred to the student assistance counselor (SAC), guidance counselor, a school nurse, or other health or counseling services for all offenses for health information, counseling, and referral. Administration will consult with appropriate health organizations in order to provide student violators with access to an Alternative-to-Suspension (ATS) program. The ATS program will provide up-to-date information on the many consequences of tobacco use, offer techniques that students can use to stop tobacco use at school, and provide referrals to local youth tobacco cessation programs.

Parents/guardians will be notified of all violations and actions taken by the school. Schools may also use community service as part of the consequences. Ordinarily, and consistent with a wellness strategy, suspension will only be used after a student has three or more prior violations or refused to participate in other outlined measures.

Prohibition of Smoking for Persons Other Than Pupils

- A. No person is permitted to smoke at any time in any building, on any school property or any school vehicle owned by the Board of Education.
- B. Sanctions for violations

Business & Non-Instructional Operations Smoking

Series 3000
Policy 3515

Page 3 of 5

- First offense: Issuance of a verbal warning, documented in writing, if address of the offender is known. For employees the warning will include a suggestion to participate in a smoking cessation program.
- Second offense: Issuance of a written warning if the offender's address is known. For employees this written warning will be placed in the personnel file.
- Third or more offenses: Written complaint to the local Board of Health and/or municipal court/prosecutor. If the offender is an employee of the complainant, the documentation will be placed in the personnel file.

Compliance for Faculty, Staff, and Visitors

As with students, intervention rather than punishment is the most effective way to address adult violations of this policy. Faculty or staff who violate the school district's tobacco-use policy will be referred to the Employee Assistance Program (EAP) or a tobacco cessation program. Employees who repeatedly violate the policy or do not comply with intervention or cessation referrals may be subject to consequences in accordance with district policy and their contract. Visitors using tobacco products will be informed about the policy and asked to refrain while on school property. Visitors who continue to violate the policy will then be asked to leave the premises. Law enforcement officers may be contacted to escort the person off the premises or cite the person for trespassing if the person refuses to leave the school property.

Employees who fail to comply with NJSA. 26:3D-15 and this policy are subject to standard employee discipline procedures, in addition to the sanctions noted in B(1-3) above.

The Superintendent of Schools and/or designee, is authorized to report violations, in accordance with the law to the County Board of Health and/or local municipal court/prosecutor.

Signs and Reminders

- A. Signs will be posted in a manner and location that adequately notify students, faculty/staff and visitors about the Comprehensive Tobacco-Free School Policy.
- B. At the beginning of activities that involve large numbers of visitors (e.g. athletic events, concerts, awards, ceremonies) an announcement will be made which state that smoking is prohibited in this building or on these grounds.

Opportunities for Cessation

The administration will consult with the county health department and other appropriate health organizations (e.g., American Lung Association, American Cancer Society, etc.) to provide students and employees with information and access to support systems, programs and services (e.g., NJDHSS Quitline 1 866 NJSTOPS (657-8677) and njquitline.org) to encourage them to abstain from the use of tobacco products.

Prevention Education

The administration will consult with appropriate health organizations to identify and provide programs or opportunities for students to gain a greater understanding of the health hazards of tobacco use and the impact of tobacco use as it relates to providing a safe, orderly, clean and inviting school environment.

Procedures for Implementation

The administration will develop a plan for communicating the policy that may include information in student and employee handbooks, announcements at school-sponsored or school-related events, and appropriate signage in buildings and around campus. A process that identifies intervention and referrals for students, faculty/staff, and visitors who violate the policy will be created and communicated to all students, faculty/staff and parents.

Prevention Education for Students

The Board of Education will enforce the laws of New Jersey requiring a program of drug, alcohol, steroid, and tobacco education. The Superintendent of Schools shall prepare and submit to the Board of Education for its approval a comprehensive curriculum for such instruction in grades seven through 12 offering a minimum of 10 clock hours per school year of alcohol and other drug education in accordance with department of education chemical health guidelines, pursuant to NJSA 18A:40A-1 et seq. Drug, alcohol, steroid, and tobacco education shall be integrated with the health curriculum

Faculty Education & Inservice Training

All district personnel shall be alert to signs of tobacco use by pupils and shall respond to those signs in accordance with procedures established by the Superintendent of Schools of schools. The Board of Education will provide inservice training to assist teaching staff members in identifying the pupil who uses tobacco and in helping pupils with tobacco-related problems in a program of rehabilitation. The Superintendent of Schools will ensure that all district employees receive annual inservice training to make them aware of their responsibilities in accordance with Board of Education policies and NJAC 6A:16-3.1.

Transportation

The Millville Board of Education recognizes that an effective pupil transportation program with concise policies and guidelines is mandatory for the operation of transportation services within the district for both public and non-public school students. Students who are provided transportation services by the district are expected to obey all the rules established for the safety and welfare of all students.

General Statements

It is the intention of this policy to transport safely, economically and in reasonable comfort, the children living in this community, taking into consideration the relation of the locations of the pupils' homes and the school under the following conditions:

- A. The distance to be traveled to and from school;
- B. The hazards involved over the route to be traveled;
- C. The state of the child's health;
- D. Provisions for transportation to meet the requirements of the instructional program.

The Board of Education shall transport eligible pupils to and from school and school-related activities in accordance with law and this policy. Transportation shall be provided only to eligible public and non-public school pupils, authorized school staff members, and adults serving as approved chaperones.

The Board will not be responsible for the transportation of non-resident pupils to or from school, except for transportation required for homeless children for whom this district is determined to be the district of residence.

The Board will also transport resident children who attend a non-public school in the State of New Jersey within thirty miles from their residence, but not a lesser distance from their residence than that required for the transportation of pupils enrolled in the schools of this district.

The Board will consider the provision of transportation to those pupils not otherwise provided transportation by this policy when the Board determines walking conditions to be hazardous.

The Board of Education believes that children need access to healthful foods and opportunities to be physically active in order to grow, learn, and thrive, and that good health fosters student attendance and education.

Obesity rates have doubled in children and tripled in adolescents over the last two decades, and physical inactivity and excessive calorie intake are the predominant causes of obesity. Heart disease, cancer, stroke, and diabetes are responsible for two-thirds of deaths in the United States, and major risk factors for those diseases, including unhealthy eating habits, physical inactivity, and obesity, often are established in childhood. Further, the items most commonly sold from school vending machines, school stores, and snack bars include low-nutrition foods and beverages, such as soda, sports drinks, imitation fruit juices, chips, candy, cookies, and snack cakes.

To promote healthful behavior in the school, the Board of Education is committed to encouraging its students to consume fresh fruits, vegetables, lowfat milk and whole grains. The Board of Education is also committed to encouraging students to select and consume all components of the school meal.

In order to promote and protect children's health, well-being, and ability to learn, the Board of Education is committed to providing school environments that support healthy eating and physical activity and will ensure that:

- A. All students will have opportunities, support, and encouragement to be physically active on a regular basis.
- B. Foods and beverages sold or served at school will meet the nutrition recommendations of the *U.S. Dietary Guidelines for Americans*, and the USDA nutrition standards for National School Lunch, School Breakfast and/or After School Snack Programs. The district will regulate the types of food and beverage items offered outside the federal meal requirements, such as ala carte sales, vending machines, school stores, and fund raisers.
- C. All students will be provided with adequate time for student meal service and consumption in a clean, safe, and pleasant dining environment. Lunch and recess or physical education schedules will be coordinated with the meal service.
- D. To the maximum extent practicable, all schools in our district will participate in available federal school meal programs (including the School Breakfast Program, National School Lunch Program including- After-School Snack Programs, Summer Food Service Program, and Child and Adult Care Food Program).
- E. Schools will provide nutrition education and physical education to foster lifelong habits of healthy eating and physical activity, and will establish linkages between health education and school meal programs, and with related community services.

It is the intent of the Board of Education to adhere to the provisions of the current copyright laws and Congressional guidelines.

The Board recognizes that unlawful copying and use of copyrighted materials contributes to higher costs for materials, lessens the incentives for development of quality educational materials and fosters an attitude of disrespect for law which is in conflict with the educational goals of this school system.

The Board of Education directs that district employees adhere to all provisions of Title 17 of the United States Code, entitled "Copyrights", and other relative federal legislative and guidelines related to the duplication, retention, and use of copyrighted materials.

The Board further directs that:

- A. Unlawful copies of copyrighted materials may not be produced on district owned equipment.
- B. Unlawful copies of copyrighted materials may not be used with district owned equipment, within district owned facilities, or at district-sponsored functions.
- C. The legal and/or insurance protection of the district will not be extended to employees who unlawfully copy and use copyrighted materials.

Employees who make copies of copyrighted materials in their jobs are expected to be familiar with published provisions regarding fair use and public display, and are further expected to be able to provide to their supervisor, upon request, the justification under The Copyright Act of 1976, as amended, is codified at 17 U.S.C. Sec.101 et seq. Section 107 or 110 of United States Code 17 for copies that have been made or used.

Employees who use copyrighted materials that do not fall within fair use or public display guidelines will be able to substantiate that the materials meet one of the following tests:

- A. The materials have been purchased from an authorized vendor by the individual employee or the Board of Education and a record of the purchase exists.
- B. The materials are copies covered by licensing agreement between the copyright owner and the Board of Education or the individual employee.
- C. Materials are being reviewed or demonstrated by the user to reach a decision about possible future purchase of licensing and a valid agreement exists that allows for such use.

Although there continues to be controversy regarding interpretation of the copyright laws, this policy represents a sincere effort to operate legally.

Integrated Pest Management

Policy 3575

Date Adopted: June 2, 2008

Date Revised:

Page 1 of 3

The New Jersey School Integrated Pest Management Act of 2002 requires schools to implement a school integrated pest management policy. As per this policy, the Board of Education directs the Superintendent of Schools to implement Integrated Pest Management (IPM) procedures to control pests and minimize exposure of children, faculty, and staff to pesticides. In addition, the Board of Education shall adopt and maintain an IPM plan developed by the Superintendent of Schools/designee as part of this policy.

Definition

For the purposes of this policy, Integrated Pest Management shall be defined as a sustainable approach to managing pests by using all appropriate technology and management practices in a way that minimizes health, environmental, and economic risks. IPM includes, but is not limited to, monitoring pest populations, consumer education, and when needed, cultivation practices, sanitation, solid waste management, structural maintenance, physical, mechanical, biological and chemical controls.

Integrated Pest Management Procedures

Implementation of IPM procedures will determine when to control pests and whether to use mechanical, physical, cultural, biological or chemical methods. Applying IPM principles prevents unacceptable levels of pest damage by the most economical means and with the least possible hazard to people, property, and the environment.

In preparing the IPM, the Superintendent of Schools will consider the full range of management options, including no action at all. Non-pesticide pest management methods are to be used whenever possible. The choice of using a pesticide shall be based on a review of all other available options and a determination that these options are not effective or not reasonable. When it is determined that a pesticide must be used, low impact pesticides and methods are preferred and shall be considered for use first.

Development of IPM Plans

The school IPM plan is a blueprint of how the school system will manage pests through IPM methods. The IPM plan states the district's goals regarding the management of pests and the use of pesticides. It reflects the school's site-specific needs. The IPM plan shall provide a description of how each component of the school IPM policy will be implemented at the school. The Superintendent of Schools, in collaboration with the building Principal, shall be responsible for the development of the IPM plan for the school.

IPM Coordinator

The Superintendent of Schools shall designate an integrated pest management coordinator, who is responsible for the implementation of the school integrated pest management policy. The Board of Education shall approve the selection of the named IPM Coordinator upon recommendation of the Superintendent of Schools.

Page 2 of 3

Education /Training

All school personnel will be educated about potential pest problems and IPM methods used to achieve the pest management objectives.

The IPM Coordinator, other school staff and pesticide applicators involved with implementation of the school IPM policy will be trained in appropriate components of IPM as it pertains to the school environment.

Students, parents/guardians will be provided information on this policy and instructed on how they can contribute to the success of the IPM program.

Record keeping

Records of pesticide use shall be maintained on site to meet the requirements of the state regulatory agency and the Board of Education.

Records shall also include, but are not limited to, pest surveillance data sheets and other non-pesticide pest management methods and practices utilized.

Notification/Posting

The Superintendent of Schools, under the direction of the Board of Education, is responsible for timely notification to students' parents or guardians and the school staff of pesticide treatments pursuant to the School IPM Act.

Re-entry

Re-entry to a pesticide treated area shall conform to the requirements of the School IPM Act.

Pesticide applicators

The IPM coordinator shall ensure that applicators follow state regulations, including licensing requirements and label precautions, and must comply with all components of the School IPM Policy.

Evaluation

Annually, the Superintendent of Schools will report to the Board of Education on the effectiveness of the IPM plan and make recommendations for improvement as needed.

The Board of Education directs the Superintendent of Schools to develop regulations/procedures for the implementation of this policy.

Code of Ethics

Preamble

The educators, both teachers and administrators, employed by the Board of Education believe in the worth and dignity of man. Each educator recognizes the supreme importance of the pursuit of truth, devotion to excellence, and the nurture of democratic citizenship. All educators regard as essential to these goals the protection of the freedom to both learn, and to teach; and the guarantee of equal educational opportunity for all. The educator accepts personal responsibility to practice the profession according to the highest ethical standards.

All educators recognize the magnitude of the responsibility they have accepted in choosing a career in education, and engage themselves, individually and collectively with other educators to judge their colleagues, and to be judged by them in accordance with the provisions of this code.

Principle 1—Commitment to the Student and Parents/Guardians

All educators measure their success by the progress of all students toward realization of their potential as worthy and effective citizens. The educator, therefore, works to stimulate the spirit of inquiry, the acquisition of knowledge and understanding, and the thoughtful formulation of worthy goals. Educators recognize the concerns of parents/guardians and attempt to demonstrate these concerns in the best interest of children.

In fulfilling their obligation to the students and parents/guardians, educators:

1. Shall not deliberately suppress or distort subject matter for which they bear personal responsibility;
2. Shall respect the confidence of each pupil; information given in confidence should be passed only to authorized persons or agencies that are attempting to aid the pupil unless disclosure is required by law;
3. Shall respect the basic responsibility of parents/guardians for their children, seek to establish friendly and cooperative relationships with the home, and shall be discreet with information received from parents/guardians;
4. Shall not use classroom privileges and prestige to promote personal gain, selfish interests, partisan politics, or sectarian religious views;
5. Shall strive to help pupils develop sound moral, ethical, emotional, social and intellectual foundations;
6. Shall strengthen the democratic activities of the school and show all pupils that American citizenship involves responsibilities as well as privileges;
7. Shall demonstrate their primary responsibility is to the pupil;
8. Shall make reasonable effort to protect the student from conditions harmful to learning or to health and safety;
9. Shall conduct professional business in such a way that they do not expose the student to unnecessary embarrassment or disparagement;

10. Shall not on the grounds of race, color, creed, or national origin exclude students from participation in, or deny them benefits under any program, nor grant any discriminatory consideration of advantage;
11. Shall not tutor for remuneration students assigned to their classes.

Principle II --Commitment to the Public

Educators hold a position wherein the public trust is embodied. As a trustee of democratic ideals and of the American heritage, the educator strives to strengthen appreciation for education and its potential service in the making of a strong country.

In fulfilling their obligation to the public, educators:

1. Shall not misrepresent an institution or organization with which they are affiliated, and shall take adequate precautions to distinguish between personal views and institutional/organization policy;
2. Shall not knowingly distort or misrepresent the facts concerning educational matters in direct and indirect public expressions;
3. Shall strive to maintain a positive public image in the educational program of the school;
4. Shall perform the duties of citizenship and participate in community activities;
5. Shall not interfere with a colleague's exercise of political and citizenship rights and responsibilities;
6. Shall not use institutional privileges for private gain or to promote political candidates or partisan political activities;
7. Shall accept no gratuities, gifts or favors, nor offer any favor, service, or thing of value to obtain special advantage.

Principle III –Commitment to the Profession

In fulfilling their obligations to the profession, educators:

- Shall accord just and equitable treatment to all members of the profession in the exercise of their professional rights and responsibilities;
- Shall not use coercive means or promise special treatment in order to influence professional decisions of colleagues;
- Shall withhold, protect and safeguard information acquired about colleagues in the course of employment, unless disclosure serves legitimate professional purposes;
- Shall not misrepresent any professional qualification;
- Shall not knowingly distort evaluations of colleagues;
- Shall endorse the principle that the profession must accept responsibility for the conduct of its members and understands that as educators own individual conduct will be regarded as representative of the profession;
- Shall maintain an attitude and personal appearance that strengthens public respect for the teaching profession and for the school;
- Shall properly and efficiently use and protect all school properties, equipment and materials;
- Shall be loyal to the nation, the state and the school system;

- Shall adhere to the conditions of a contract until the contract has been terminated by mutual consent, or has otherwise been legally modified;
- Shall exercise their right to participate in the democratic processes, which help determine school policy. Once policy is determined, all educators are then obligated to support it;
- Shall conduct school affairs through defined channels of the school system;
- Shall be considerate and loyal in their relationships with fellow educators and take pride in their achievements;
- Shall regard public criticism of fellow educators as unprofessional;
- Shall report to the appropriate school authority any matters which involve the best interests of the school;
- Shall seek continued professional growth.

Principle IV—Commitment to Professional Employment Practices

The educator regards the employment agreement as a pledge to be executed both in spirit and in fact in a manner consistent with the highest ideals of professional service. All educators believe that sound professional relationships with governing Boards are built upon personal integrity, dignity and mutual respect.

In fulfilling their professional obligations to education, all educators:

1. Shall apply for, accept, offer or assign a position or responsibility on the basis of professional preparation and legal qualifications;
2. Shall apply for a specific position only when it is known to be vacant, and shall refrain from underbidding or commenting adversely about other candidates;
3. Shall not knowingly withhold information regarding a position from an applicant or misinterpret an assignment or conditions of employment;
4. Shall not prompt notice to the employing agency of any change in availability of service, and the employment agent shall give prompt notice of change in availability;
5. Shall adhere to the terms of a contract or appointment, unless these terms have been legally terminated, falsely represented, or substantially altered by unilateral action of the employing agency;
6. Shall conduct professional business through legitimate channels;
7. Shall not delegate tasks of a certified professional unqualified personnel;
8. Shall use all work time for the purpose for which it is intended.

Principle V—Commitment to Confidentiality

It is the desire of all educators and the Board to rectify any misunderstanding between the teachers, the Board of Education, and the school district by direct discussions informally among the affected parties. It is only when such informal discussions fail to resolve the differences, shall either party employ more formal procedures. Before more formal procedures are employed, at least 15 days written notice should be given to the other party.

Principle VI—Commitment to High Standards

It is the intent of this policy to prescribe our commitment to high ethical standards, but it is not feasible to describe every possible infraction, which violates those standards. Our commitment to high ethical standards means, therefore, that since each educator must be a mature, responsible decision-maker, the propriety or impropriety of any action depends not only on the goodness of the ends sought, but also upon the efficacy of the means used to achieve those ends. In short, each educator must apply the criterion, “what would a reasonable person do?” in each decision-making situation.

Induction Program for Provisional Teachers

Policy 4111.2

Date Adopted: June 2, 2008

Date Revised:

Page 1 of 1

The Board of Education recognizes that all newly prepared teachers are required to serve their first year of employment under provisional certification and in a district induction program designed to train and guide new teachers and to identify those teachers who qualify for standard certification.

The Board will approve a plan for the induction of new teaching staff members and submit the plan to the New Jersey Department of Education as required by law.

Professional Support Team

The Board shall, in accordance with New Jersey State Board of Education rules, provide provisional teachers with the training and supervision of a professional support team composed of the Superintendent of Schools/designee, and experienced mentor teacher, a college faculty member or comparable staff member, a curriculum supervisor or comparable staff member, and such additional members as the Superintendent of Schools may recommend and the Board approve.

Members of the professional support team shall be approved by the Board and recommended by a committee composed of representatives of the constituent staff organizations. Support team members shall be appropriately certified, experienced, and cooperative staff members recognized for their discretion and helpfulness. Support team members shall be appropriately trained for participation in the induction program.

Mentor teachers shall, whenever possible, be in the same instructional area as the provisional teacher.

Evaluation of Provisional Teachers

Provisional teachers shall be formally evaluated at least three times, at ten week intervals during the first year of employment, by two or three members of the support team other than the mentor teacher. The support team may conduct additional evaluations.

Role of Mentor Teachers

Mentor teachers shall not participate in any way in decisions that may have a bearing on the employment or certification of provisional teachers. They shall not assess or evaluate the performance of provisional teachers unless they are appropriately certified administrators. Interactions between provisional teachers and experienced mentor teachers are formative in nature and considered a matter of professional privilege. Mentor teachers shall not be compelled to offer testimony on the performance of provisional teachers.

Compensation for Support Team Members

Members of the professional support team shall be compensated in accordance with the fee schedule approved by the New Jersey State Board of Education.

Health Examinations

When a candidate has been given a conditional offer of employment, he/she shall be required to submit to a medical evaluation and a physical examination. This physical examination may include testing for controlled dangerous substances as they are defined in the criminal code. Elements of the examination of newly employed staff shall include but not be limited to those physical exam elements listed in administrative code.

Employees may be required to undergo an annual physical examination.

The results of all required employee medical examinations shall be made known to the Superintendent of Schools on a confidential basis, discussed with the employee, and made a part of his/her confidential medical record. Records and reports of examinations shall be filed with the district medical inspector as confidential information but shall be available to and reported to appropriate health agencies as required by law.

In the event an employee of the Board has been determined to have a mental abnormality or communicable disease or exhibits symptoms of substance abuse and, if in the opinion of the district medical inspector such condition makes the employee unfit for continued employment, the Board may remove the employee from further service as provided by law or grant leave as provided by law during the period of unfitness. An employee determined to be unfit must provide the Board with satisfactory proof of recovery before reinstatement will be allowed.

In order to protect the pupils and staff in the district schools, all regulations of the State Department of Education, the State Department of Health and the Local Board of Health shall be scrupulously observed, particularly those dealing with contagious/infectious diseases. Staff members who have been identified as having a communicable disease shall not be permitted continued employment unless they qualify under the above agencies' rules pertaining to periods of incubation, communicability, quarantine and reporting.

When required examinations are performed by a physician designated by the Board, the Board shall bear the expense. Should an employee prefer to see his/her own physician, with Board approval, the employee shall bear the expense.

In the event that the prospective employee in question had, as a condition of employment in another NJ school district during the same school year, undergone an identical physical examination and can provide the Superintendent of Schools a copy of a certificate to verify this, then, in that case, the Superintendent of Schools, at his/her discretion, may excuse the prospective from obtaining a new physical examination.

Each school employee shall submit an updated health history with an assurance statement presented within a time frame established by the Board of Education.

An employee who refuses to submit an updated health history with an assurance statement shall undergo a physical examination pursuant to applicable state laws and regulations.

Confidentiality of employee medical records including computerized records shall be assured. The school district shall regulate access, compilation and maintenance of employee health records in compliance with federal and state statutes governing the collection, maintenance, disclosure and security of employee medical records. It shall be the responsibility of the Superintendent of Schools to establish procedures to ensure the security of employee health records maintained in this school district.

The section of the medical record which contains the health history, e.g. medications or current health status to assure ready access in a medical emergency, may be shared with the Superintendent of Schools/designee and school nurse with the consent of the employee.

When an employee is requested to submit to any physical examination, he/she shall be provided with:

- A. A written statement of reasons for the request;
- B. An opportunity for a Board hearing, if so requested (said hearing shall be in private and confidential unless the employee requests otherwise);
- C. Adequate prior notice of the date of the hearing;
- D. Copies of statements or affidavits relied on by the Board prior to the hearing;
- E. An opportunity to be represented at the hearing by counsel or other persons of the employee's choice;
- F. An opportunity to present witnesses on his/her behalf.

Reports of these examinations shall include a statement by the examining physician as to any physical or mental condition noted likely to prevent the person examined from performing all duties and responsibilities of the position sought or occupied, or creating a risk to the health or welfare of pupils or other employees, or a statement that no such condition exists.

All records and report of such examinations shall be filed with the district medical inspector as confidential information but shall be available to and reported to appropriate health agencies as required by law.

Pursuant to N.J.S.A. 18A:6-7.1 et. seq. and N.J.S.A. 18A:39-19.1, all employees of a public school district under the supervision of the State Department of Education who hire or contract for the services of any employees having regular pupil contact must submit a criminal background check. This mandate shall apply to all employees hired or contracted by the school district after October 8, 1986.

In order to provide for the proper security of the children of this district by prohibiting employment of unfit persons in the schools, the Board of Education directs the Superintendent of Schools to establish procedures necessary for the implementation of the school employee criminal history review consistent with statute and code.

Orderly administration of the school district and compliance with state and federal law require the compilation of information about all employees of the district. The Board of Education recognizes that there is a distinction between those personnel records which are clearly a matter of public concern, and those which must be considered privileged until such time as they are opened to the public by the NJ Commission of Education or the courts.

The Superintendent of Schools may consult with the Board Attorney regarding which personnel records are mandated to be kept by law, and those to be kept for administrative purposes. The Superintendent of Schools and the Board Attorney shall be responsible for limiting administrative records to those that are consistent with New Jersey and federal law.

In accordance with federal law, the Superintendent of Schools shall establish procedures to release information upon request regarding the professional qualifications and degrees of teachers and the qualifications of paraprofessionals to parents/guardians for any teacher or paraprofessional who is employed by a school receiving Title 1 funds and who provides instruction to their children.

The Superintendent of Schools shall establish the necessary regulations for maintaining both public and confidential employee records.

- A. The public file shall consist of an alphabetic index of all those presently employed by the district in whatever capacity. The information in this file shall be limited to name, title, position, salary, payroll record, length of service, and, if applicable, date of separation and rehire. The Superintendent of Schools shall devise procedures for making this file available to the public in accordance with the Open Public Records Act.
- B. The confidential file shall consist of an individual personnel folder for each current employee. The information in this file shall include all records mandated by state and federal law; evaluation of performance; record of attendance; original application filed by the employee; transcript of certification; original salary and increments; date of tenure; notations of commendation and disciplinary actions consistent with law. This file is available for examination:
 1. At any time, by the Superintendent of Schools or the supervisory personnel he/she designates;
 2. During regular business hours, by the employee or his personally authorized representative, in accordance with regulations;
 3. During regular business hours, or at any meeting of the Board or any committee thereof, by any member of the Board in connection with any assigned Board responsibility or duty.

Definitions

For the purpose of this policy “nepotism” shall be defined as the showing of favoritism to an employee or candidate for employment based on the existence of a relationship as a relative or immediate family member of a Board Member or Superintendent of Schools.

For the purpose of this policy, “relative” shall be defined as an individual’s spouse, civil union partner, domestic partner or the parent, child, brother, sister, aunt, uncle, niece, nephew, grandparent, grandchild, son-in-law, daughter-in-law, stepchild, stepbrother, stepsister, half-brother or half-sister of the individual or of the individual’s spouse, civil union partner or domestic partner, whether the relative is related to the individual or the individual’s spouse, civil union partner or domestic partner by blood, marriage or adoption.

“Immediate family” shall be defined as Board Member or school administrator, their spouse, civil union partner, domestic partner, child, parent or sibling residing in the same household, whether related by blood, marriage or adoption.

Employment/Promotion of Relative

The Board of Education, in order to avoid both the reality and the appearance of conflict of interest in employment, will not appoint a relative of a Board Member or of the Superintendent of Schools to any employment position in this district. The Superintendent of Schools shall not recommend to the Board any relative of a Board Member or of the Superintendent of Schools, unless the person is subject to the exception below. Nor shall any person be considered for employment in any position in which he/she would come under the direct or indirect supervision of any relative.

Furthermore, no school district administrator shall supervise or exercise authority on personnel actions regarding a relative of the administrator. Where it is not feasible to eliminate such direct or indirect supervisory relationships, appropriate screens and/or alternate supervision/reporting mechanisms shall be put in place.

Exceptions

Persons who are employees of the Board of the date that this policy becomes effective or the date a relative becomes a Board Member or Superintendent of Schools shall not be prohibited from continuing to be employed in the district. This includes employees who must be renewed annually by the Board. The Superintendent of Schools may recommend those employees for reemployment, transfer, promotion or removal.

A relative of a Board Member or the Superintendent of Schools may be employed by the district provided that the district has obtained the approval from the Executive County Superintendent of Schools. Such approval shall be granted only upon demonstration by the district that it conducted an and thorough search for candidates and that the proposed candidate is the only qualified and available person for the position.

Board Member/Superintendent of Schools Participation in Negotiations

When a Board Member or school administrator's relative is a member of the bargaining unit or receives the benefit of the contract, that Board Member or school administrator shall not discuss the proposed collective bargaining agreement with that unit or participate in any way in negotiations. This includes, but is not limited to being a member of the negotiating team. Nor shall that Board Member or school administrator be present with the Board in closed session when negotiation strategies are being discussed. However, a school administrator may provide technical information that is necessary to the collective bargaining process when no one else can provide that information.

When a member of a Board Member's or school administrator's immediate family is a member of the same state-wide union with which the Board is negotiating, that Board Member or school administrator shall not participate in any way in negotiations. This includes, but is not limited to being a member of the negotiating team, prior to the Board's attaining a tentative memorandum of agreement with the bargaining unit, including salary guides and/or the total package of money to be offered.

Once such tentative memorandum of agreement is established, including salary guides and/or the total package of money is to be offered, the Board Member or school administrator may fully participate in the process, including Board Member voting, absent other conflicts. Prior to that time, the Board Member or school administrator shall not be present with the Board in closed session when negotiation strategies are being discussed. However, a school administrator may provide technical information that is necessary to the collective bargaining process when no one else in the district can provide that information.

A school official who has such relationship with any employee of the district as of the effective date of this policy shall declare such relationship immediately.

Per diem substitutes and student employees are excluded from this nepotism policy.

Date Adopted: October 18, 1993

Date Revised: April 13, 2003, June 2, 2008

Page 1 of 2

The Superintendent of Schools shall make certified staff assignments in the manner best calculated, in his/her judgment, to enhance the educational program.

Teaching, supervisory and administrative personnel are subject to assignment and transfer after recommendation of the Superintendent of Schools and approved by the Board of Education. Procedures for such transfers shall comply with provisions of current negotiated agreements and state and federal law.

In accordance with the law of New Jersey, the Board of Education directs the Superintendent of Schools to assign teachers, administrators and auxiliary personnel to the school in such a way that equivalence of personnel is ensured within the school.

The Superintendent of Schools may use his/her discretion to make temporary assignments of existing employees to cover long-term absences of other staff members. It is the policy of the Board that these temporary assignments will be in the best interest of the school district and its pupils.

It is the policy of the Board that twelve-month employees are expected to work a full school day on such days as school is in session less than full time due to a scheduled non-emergency activity (workshop, in-service, staff meeting, etc.). The Superintendent of Schools may dismiss twelve-month employees after less than a full school day's work in any situation where he/she deems their continued attendance to be of little or no value to the educational program being considered at that time.

Part-time teachers shall be scheduled by the Superintendent of Schools and in the case of emergency school closings, part-time teachers may be scheduled to work on alternate days than those on which they would have been scheduled in order to effect no loss of instructional time due to school closing.

Any staff member appointed to an extra duty position is expected to serve unless excused for extenuating circumstances. A refusal to serve or resignation from extra duty service without permission may constitute an act of insubordination and subject the employee to disciplinary procedures.

Supervision

The Superintendent of Schools shall develop procedures for the supervision of the teaching administrative staff in performance of their duties that shall not be limited to the observations required for evaluation. Such supervision may include, but need not be limited to, review of lesson plans and teacher-made examinations; regularly scheduled curriculum conferences; and brief, informal classroom observations.

The Board acknowledges that the purpose of supervision is to improve teacher performance in the classroom so that all students have an opportunity to achieve the Core Curriculum Content Standards.

Each teacher employed in this district as of the effective date specified in code shall be responsible for fulfilling requirements for continuing education and for making annual progress toward the goal of 100 clock hours of state-approved professional development every five years. Each teacher's professional improvement plan (PIP) shall incorporate appropriate steps toward this goal and shall be designed to assist teachers in obtaining and maintaining the knowledge and skills essential to student achievement of the state's Core Curriculum Content Standards. The professional improvement plan shall describe specific activities designed to provide guidance for that teacher in improving his/her performance. Such activities may include, but are not limited to, seminars, course work, day-long workshops, and classes on certain instructional approaches. Although supervisors shall develop professional improvement plans in collaboration with teachers, the Superintendent of Schools shall maintain final authority in determining their appropriate content.

Supervisory assistance and support in achieving the 100 clock hours of state-approved continuing education shall be offered in the context of the district's evaluation process, negotiated agreements, other policies, student safety and well-being, continuity of instruction, and budgetary constraints.

The Superintendent of Schools shall develop procedures for supervision of the teaching and administrative staff in performance of their duties that shall not be limited to the observations required for evaluation. Such supervision may include, but need not be limited to, review of lesson plans and teacher-made examinations; regularly scheduled curriculum conferences; and brief, informal classroom observations. The supervisor shall note the teacher's satisfactory fulfillment or non-fulfillment of continuing education requirements identified in the professional improvement plan.

This policy shall be distributed to each teaching staff member at the beginning of his/her employment.

Evaluation

The Board of Education believes that the effective evaluation of teaching staff is essential to the achievement of the educational goals of this district, including student achievement of the Core Curriculum Content Standards. The purpose of this evaluation shall be to promote professional excellence and improve the skills of teaching staff members; improve pupil learning and growth; and provide a basis for the review of staff performance.

The Board encourages a positive working environment in which the professional growth that results from staff participation in the evaluation process is considered of major importance. Therefore, the administration shall develop evaluation instruments flexible enough to identify the needs, strengths, and improvement objectives of each staff member.

The Superintendent of Schools shall develop, in consultation with teaching staff members, job descriptions for each teaching staff member position and evaluation criteria for said positions based directly upon the job description. The job description shall be concise, stating major responsibilities as briefly as possible. All job descriptions shall be presented to the Board for approval.

All teaching staff members shall be evaluated against criteria that evolve logically from the instructional priorities and program objectives of each staff member as specified in the job description for his/her position.

Criteria must include but need not be limited to consideration of pupil progress; instructional skills; subject knowledge; professional conduct and growth; human relations skills; classroom management skills. These criteria shall also apply to requirements for continuing education and shall be incorporated into each teacher's professional development plan. The individual professional improvement plans shall be aligned to professional development standards for teachers.

Tenured teaching staff members shall be observed and evaluated at least once each year by properly certified persons. Nontenured teaching staff members shall be observed and evaluated at least three times each year by properly certified district staff.

The evaluation procedures shall provide continuous, constructive, cooperative interaction and communication between the teaching staff member and his/her supervisor/evaluator, thus ensuring a valid basis for performance review. All procedures for the evaluation of teaching staff members shall be in compliance with law and regulation.

All evaluative procedures shall include review of each teacher's progress toward achievement of the state-required goal of 100 clock hours of professional development every five years. Evaluative procedures shall recognize that the purpose of this goal is to assist teaching staff in obtaining and maintaining the knowledge and skills essential to student achievement of the NJ Core Curriculum Content Standards. In any instance where an individual teacher fails to make annual progress toward meeting the 100-hour requirement, or where a professional fails to satisfy the requirement fully within the five-year period, the district administration shall take appropriate remedial action, applying sound and accepted principles of progressive supervision as well as by using existing laws and rules to the fullest extent.

The district administration shall recognize each teacher's fulfillment of the continuing education requirement. For evaluative purposes, a teacher has fulfilled his/her professional improvement plan when his/her students have demonstrated satisfactory progress toward achievement of the curriculum standards, as well as the educational goals of this district.

At the end of the first five-year cycle, the district administration shall annually report all instances of noncompliance and actions taken to address them to the State Department of Education. The Board of Education shall cooperate with the County Professional Development Board and the County Superintendent of Schools in evaluating its program and progress toward goals.

The Superintendent of Schools shall provide each teaching staff member with a copy of this policy statement, his/her job description, and his/her evaluation criteria annually by October 1st, and shall distribute any amendments to those documents within 10 working days of their becoming effective. Evaluations shall be completed before April 30th in compliance with law.

The Superintendent of Schools shall report at least annually on the effectiveness of the evaluation system and shall recommend means to improve it whenever desirable.

The Superintendent of Schools shall, in the implementation of this policy, develop procedures in consultation with teaching staff members for:

- A. The collection and reporting of data that are appropriate to the job description and minimally include the observation of classroom instruction;
- B. Observation conferences between the teaching staff member and the supervisor; the preparation of a written evaluation for each of the three observations of nontenured staff members; and an evaluation for each observation of a tenured staff member;
- C. The preparation of individual professional improvement plans that include specific guidance to the teacher on activities that would contribute to his/her obtaining and maintaining the knowledge and skills essential to student achievement of the state's core curriculum standards;

- D. The preparation by the supervisor of an annual written performance report which shall include the annual evaluation of the teacher, an individual professional improvement plan developed by the staff member and the supervisor, and a summary of the results of the formal and informal assessment of his/her pupils along with a statement of how these indicators relate to the effectiveness of the overall program and the performance of the staff member;
- E. The conduct of the annual summary conference;
- F. The signing of the annual written performance report by the properly certified supervisor/evaluator and the staff member.

All such procedures shall conform to law.

This policy and related procedures shall be reviewed at least yearly, and any necessary revisions made before re-adoption by the Board.

Personnel Reduction / Abolishing a Position

Policy 4117.4

Date Adopted: October 18, 1993

Date Revised: March 17, 2003, June 2, 2008

Page 1 of 1

The Board of Education has the right under the state law to abolish unilaterally any existing position in whole or in part and to reduce the number of employees in any category for reasons of economy, reduction in the number of pupils, change in the administrative or supervisory organization, change in the educational program or other good cause.

Should it become necessary to reduce the number of employees in the district, the laws and regulations of the state shall be the controlling guides. If, in the case of such reduction, candidates for termination are non-tenured personnel only, the primary basis for selection for termination or reduction shall be the needs of the district's educational program and the individual's contribution toward achievement of that program based on properly completed observations and evaluations.

If, in the case of such reduction, candidates for termination or reduction in grade are tenured in this district, the state regulations regarding seniority shall be the primary basis for decision. In the event that there should be equal applicable seniority among staff members, the decision for reduction or termination shall be based on the needs of the district's educational program and the individual's contribution toward achievement of that program based on properly completed observations and evaluations.

In no case shall any choice be based on arbitrary, capricious or discriminatory reasons.

The Superintendent of Schools shall prepare guidelines for restructuring positions and for determining objectively which employees are to be dismissed as a result, and shall present his/her recommendations to the Board for action.

The Board shall determine annually whether or not a new contract will be offered to a non-tenured teaching staff member after hearing the recommendation of the Superintendent of Schools.

Should the Board choose not to offer a new contract, written notice of non-renewal of employment will be sent by the Superintendent of Schools. This notice will be given by the date specified by law.

A written request from a non-tenured teaching staff member for a written statement of reasons for non-reemployment will be honored by the Board of Education according to New Jersey law and code. An informal appearance before the Board may be requested in writing within 10 calendar days and shall be scheduled within 30 days from receipt of the Board's statement of reasons in accordance with the law.

Disciplinary Action

Policy 4117.5

Date Adopted: June 2, 2008

Date Revised:

Page 1 of 1

It shall be the policy of the Board of Education to apply the statutes of the state, the policies of this Board and the regulations of the administration with equal consideration to each staff member.

The Superintendent of Schools shall prepare disciplinary rules for situations most often encountered which provide for progressive penalties including where appropriate verbal warnings, written warnings, non-renewal of non-tenured employees, withholding of an increment from tenured employees, dismissal of non-tenured employees and referral of charges against tenured employees. Such rules shall ensure nondiscriminatory application, differentiate between a second offense of the initial type and a second offense unlike that for which the employee was initially reprimanded, and be in accordance with established due process procedures.

Disciplinary rules approved by the Board and shall include the provision that the Board reserves the right to deduct pay for required service not performed, including time lost through tardiness in accordance with its policies.

Withholding and Increment

Advancements on the salary guide are not automatically granted and must be earned by satisfactory performance. Advancement requires favorable evaluations of the employee's performance of assigned duties, a satisfactory attendance record and adherence to the rules of the district and high standards of professional conduct.

The Board may determine, by recorded roll call majority vote of the full membership and at any time prior to the commencement of the school year or contract year in which the employee's salary will vest, to withhold any or all of the increments indicated by the salary guide or by Board policy.

Within ten (10) days of its formal action to withhold an increment, the Board shall give written notice to the affected employee of both the action and the reason or reasons for which it was taken.

An increment withheld may be restored only by action of the Board.

The Board of Education recognizes that as telecommunications and other new technologies shift the manner in which information is accessed, communicated and transferred that those changes will alter the nature of teaching and learning. Access to telecommunications will allow Instructional staff members to explore databases, libraries, Internet sites, bulletin boards and the like while exchanging information with individuals throughout the world. The Board supports access by Instructional staff members to information sources but reserves the right to limit in-school use to materials appropriate to educational purposes. Then Board directs the Superintendent of Schools to provide training of Instructional staff members in skills appropriate to analyzing and evaluating such resources as to appropriateness for educational purposes.

The Board also recognizes that telecommunications will allow Instructional staff member access to information sources that have not been pre-screened using Board-approved standards. Page 1 of 1

Each school will develop a School Leadership Committee (SLC) according to guidelines set forth by the State of New Jersey Department of Education.

SLC membership shall include the building Principal, teachers, school-level support staff, parents and community members. The SLC may include students. No one group identified above may constitute 50 or more of the SLC membership. Board of Education members shall not serve on the SLC. A school district employee shall not serve as either a parent or community member on an SLC of that district. The makeup of the SLC should also be consistent with the guidelines set out in the Whole School Reform (WSR) model selected and state mandate.

This policy will assure that all those eligible to be members of the team (teachers, parents and support staff) will be made aware of the team development and given an opportunity to express interest in being a candidate for the team. Each building planning team development procedure will be forwarded to the Millville School and Community Task Force. Building plans will be submitted to the Superintendent and the Board of Education for approval.

Definition of the roles, training, meetings, workgroups and all other matters pertaining to the SLCs shall use criteria as set forth in the *Guide for Implementing Urban Education Reform in Abbott Districts*.

The Board of Education encourages the participation of teaching staff members in research projects that are soundly designed and professionally conducted.

Teaching staff members may seek funding from local, state and federal sources, public and private for locally conducted research projects. In the event of an emergency brought about by a job action, including a strike, by any employee group, it shall be the policy of the Board of Education to make every effort to keep schools open and to carry out its obligation under New Jersey state law; Title 18A, to educate the children of the community.

Since there is no authorization in law for job actions, and since actions are constitutionally prohibited, including strikes, by public employees, it shall be the policy of the Board, in the event of any job action, including a strike or any other act that withholds employee services from the Board, to take appropriate legal action to deal with such a matter.

The Board of Education recognizes that the discharge of its responsibility to provide a thorough and efficient system of education for each child in the district may require special help for some pupils beyond the regular classroom program. Tutorial instruction shall be interpreted to mean individualized instruction additional to, and in support of, regular classroom instruction.

The Board of Education seeks to provide the highest quality benefits while maintaining a sound fiscal policy. The intention of the workers' compensation law is to provide the best possible medical care and rehabilitation services available to employees injured while in the course of employment. - A. In the case of an emergency situation, medical attention should be sought from the nearest or most practical facility available.
- B. In non-emergency situations, the school doctor or nurse must evaluate the injury first. He/she will refer the patient to other approved panel physician specialists if necessary.
- C. Lost work time may be authorized only by the district's doctor or the referred specialist.
- D. Failure to go to the school doctor, nurse or assigned insurance carrier doctor will result in the insurance company's denial of payment of all disability and medical benefits an employee may be entitled to.

The Board of Education believes that the regular presence of assigned personnel is vital to the success of the district's educational program. Consistent absenteeism or tardiness is unacceptable and subject to disciplinary action.

The Superintendent of Schools shall develop and the Board shall adopt a plan to encourage all staff to strive for excellent attendance and punctuality records. These procedures should include a requirement that the staff member personally report all illness and request all leave at the earliest possible time. Procedures shall be in accordance with New Jersey statutes and district negotiated agreement.

A doctor's certificate is required for all illnesses and injuries for those employees who are absent more than three days. A doctor's certificate may be requested in cases of questionable use of sick leave benefits, even if an employee has been absent for one day.

If it has been determined that an employee has utilized sick leave benefits without just cause, he/she shall be subject to disciplinary action.

Provisions shall be made for public acknowledgment of exceptional staff attendance records.

Policy 4151.1

Date Adopted: June 2, 2008

Date Revised:

Page 1 of 1

It is the policy of the Board of Education to provide sick leave and personal leave to school district personnel. The purpose of such sick leave is to provide income protection to school personnel in the event of illness. The purpose of personal leave is to allow, for absence from work, with pay, to take care of personal matters that must be done during the school day.

School personnel are expected to use sick leave and personal leave for the purpose that these benefits are provided.

Excessive absence from work or illness or other reasons may constitute good cause for withholding a salary increment or for dismissal proceedings under New Jersey statutes.

The Superintendent of Schools and administrative staff shall develop appropriate guidelines and plans for the implementation of this policy. Such guidelines and plans shall include, but not be limited to, the following:

- A. Plans to communicate to school district personnel the intent of sick leave and personal leave and the importance of regular attendance.
- B. A system of record keeping to account for sick leave and personal days to include monthly and annual reports.
- C. A system for monitoring absence for sick leave and personal leave to prevent abuses.
- D. When appropriate to the circumstances, requesting school district staff to submit information concerning the cause of absence after three consecutive days of absence.
- E. When appropriate to the circumstances following an illness, to request a statement from a physician that the employee may return to work.

The Board will consider requests for extension of sick leave benefits on a case-by-case basis.

Prolonged Absence Beyond Sick Leave

When the absence of any employee from his or her post or duty because of personal disability due to illness or injury, or because he or she has been excluded from school by the school district's medical authorities because of a contagious disease or of being quarantined of such disease in his/her immediate household, exceeds the annual sick leave together with all accumulated sick leave of that individual employee, request may be made of the Board of Education to pay any such person's salary for such length of time as may be determined by the Board of Education.

The following procedures shall apply:

- A. All requests for such prolonged, extended sick leave shall be made in writing and signed by the employee seeking such leave and such request shall have appended thereto a report from the employee's physician detailing the medical condition of the employee.
- B. The written request shall be submitted to the Board Secretary with a copy to the Superintendent of Schools, at least ten days before the next regularly scheduled Board meeting for inclusion on the agenda of the Board.
- C. The Board shall consider each request on an individual basis and may consider the following factors:
 - 1) The length of employment of the employee within the district.
 - 2) Proposed length of extended sick leave.
 - 3) The nature of the illness/injury.
 - 4) Whether the employee had previously requested such leave.

The pay for each approved day of sick leave shall be calculated at $1/200^{\text{th}}$ of the actual salary for a ten month employee and $1/240^{\text{th}}$ of a twelve month employee's salary less the pay of a substitute if a substitute is employee or the estimated cost of a substitute if none is employed.
- E. If paid leave is not granted, but leave is taken by the employee nevertheless, the employee's salary shall be reduced by $1/200^{\text{th}}$ if a ten month employee and $1/240^{\text{th}}$ if a twelve month employee.

Prolonged Absence Not Constituting Sick Leave

When the absence of any employee from his or her post exceeds the annual personal leave, request may be made of the Board of Education to pay any such person's salary for such length of time as may be determined by the Board of Education.

Family Leave

Policy 4152.3

Date Adopted: June 2, 2008

Date Revised:

Page 1 of 5

In accordance with the New Jersey Family Leave Act (FLA) and the Federal Family and Medical Leave Act (FMLA), the Board of Education will grant staff members up to twelve weeks leave of absence in any twenty-four month period upon advance notice to the district so that the staff member may provide care made necessary by the birth of a child of the staff member, the placement of a child with the staff member in connection with adoption of such child by the staff member, and the serious health condition of a spouse, parent, or child.

A staff member shall not be discriminated against for having exercised his/her rights under the FLA or the FMLA, nor shall the staff member be discouraged from the use of family leave.

Definitions

For the purposes of this policy the following definitions shall apply:

- A. "Child" means a biological, adopted or foster child, stepchild, legal ward, child of a parent who is under eighteen years of age or a child eighteen years of age or older but is incapable of self-care because of a mental or physical condition.
- B. "Parent" means a biological, adoptive or foster parent, stepparent, parent-in-law, legal guardian having a "parent-child relationship" with a child as defined by law, or any person who has sole or joint legal or physical custody, care, guardianship or visitation with a child.
- C. "Serious health condition" is an illness, injury, impairment, or physical or mental condition that requires inpatient care in a hospital, hospice, or residential medical facility or continuing medical treatment or continuing supervision by a health care provider.
- D. "Week" is the number of days an employee normally works each calendar week.
- E. "Family leave" is taken pursuant to the New Jersey Family Leave Act (FLA) and the Federal Family and Medical Leave Act (FMLA).
- F. "Staff member" is an employee eligible for family leave in accordance with the New Jersey Family Leave Act (FLA) and the Federal Family and Medical Leave Act (FMLA).
- G. "Reduced leave" means leave scheduled for fewer than the staff member's usual number of hours worked per workweek, but not fewer than the staff member's usual number of hours worked per workday.

Eligibility

A staff member shall become eligible for family under FLA after he/she has been employed at least twelve months in this district for not less than 1,000 base hours, excluding overtime, during the immediate preceding twelve month period. A staff member shall become eligible for family leave under FMLA after he /she has been employed in this district for not less than 1,250 hours, excluding overtime, during the immediate preceding twelve-month period. The calculation of the twelve-month period to determine eligibility shall commence with the commencement of the family leave. Leave taken for the birth or adoption of a healthy child may commence at any time within a year after the date of the birth or placement for adoption.

Instructional Personnel Family Leave

Page 2 of 5

Family leave shall run concurrently under the FLA and the FLMA. When family leave is requested under the FMLA for the individual staff member's personal illness or injury, all accumulated sick and personal days must be utilized first. Thereafter, said days will be deducted from the maximum twelve-week entitlement under the FMLA.

During any period of the leave, the staff member is prohibited from performing any services on a full-time basis for any person for whom the staff member did not provide services immediately prior to the commencement of the leave. A staff member on family leave may commence part-time employment that shall not exceed half the regularly scheduled hours normally worked for the district. The staff member may continue the part-time employment that commenced prior to the family leave at the same number of hours that the staff member was regularly scheduled prior to such leave.

Types of Leave

A staff member may take family leave in consecutive weeks, as intermittent leave, or as reduced leave. A staff member who requests intermittent or reduced leave shall make a reasonable effort to schedule such leave so as not to unduly disrupt the instructional/educational program.

In the case of a family member who has a serious health condition, leave may be taken intermittently when medically necessary if the total time within which the leave is taken does not exceed a twelve-month period for each serious health condition episode, the staff member will provide the district with prior notice of the leave in a manner that is reasonable and practicable, and the staff member makes a reasonable effort to schedule the leave so as not to unduly disrupt the operations of the instructional/educational program. In the case of the birth or adoption of a healthy child, the leave may be taken intermittently only if agreed to by the staff member and the Superintendent of Schools/designee.

A staff member is entitled, at the option of the staff member, to take leave on a reduced leave schedule except the staff member is not entitled to a reduced leave schedule for a period exceeding twenty-four consecutive weeks. The staff member is not entitled to take the leave or a reduced leave without an agreement between the staff member and the Superintendent of Schools/designee if leave is taken upon the birth or adoption of a healthy child. The staff member shall make a reasonable effort to schedule reduced leave so as not to unduly disrupt the operations of the instructional/educational program. The staff member shall provide the district prior notice of the care, medical treatment or continuing supervision by a health care provider necessary due to a serious health condition of a family member in a manner that is reasonable and practicable. Leave taken on a reduced leave schedule shall not result in a reduction of the total amount of leave to which a staff member is entitled.

The fact that a holiday or vacation period may occur within the week taken by a staff member as family leave has no effect and the week is counted as a week of family leave.

Any time remaining after a staff member has exhausted his/her entitlement to intermittent leave in any twelve-month period may be taken as consecutive leave or reduced leave, and any leave time remaining after a staff member has exhausted his/her entitlement to reduced leave in any twelve-month period may be taken as consecutive leave or intermittent leave.

Notice

A staff member eligible for family leave must give at least a thirty day advance written notice to the Superintendent of Schools/designee of the need to take family leave, except where the need to take family leave is not foreseeable. When the need is not foreseeable, the staff member must provide notice as soon as practicable which shall be at least verbal notice to the Superintendent of Schools/designee within one or two working days of the staff member learning of the need to take family leave. Whenever emergent circumstances make written notice impracticable, the staff member may give verbal notice to the Superintendent of Schools/designee, but any verbal notice must be followed by written notice delivered within three working days.

Notice for leave to be taken for the birth or placement of the child for adoption shall be given at least thirty days prior to the commencement of the leave except that if the date of the birth or adoption requires leave to begin in less than thirty days, the staff member shall provide such notice that is reasonable and practicable.

Notice for leave to be taken for the serious health condition of a family member shall be given at least fifteen days prior to the commencement of the leave except that if the date of the treatment or supervision requires leave to begin in less than fifteen days, the staff member shall provide such notice that is reasonable and practicable.

When the Superintendent of Schools/designee is not made aware that a staff member was absent for family leave reasons and the staff member wants to request the leave be counted as family leave, the staff member must provide written notice within two working days of returning to work to have the time considered family leave in accordance with the FLA and FMLA.

Benefits

Family leave shall be unpaid leave as per the FLA and the FMLA.

In accordance with law, the Board of Education will maintain coverage under any group health insurance policy, group subscriber contract, or health care plan at the level and under the conditions coverage would have been provided if the staff member had continued in employment continuously from the date the staff member commenced leave until the date the staff member returned to work or the date on which the staff member's coverage would have expired had the staff member not been on leave, whichever is sooner. A staff member who receives benefits while on family leave must return to the district for a minimum of one year or, at the discretion of the Board of Education, until the end of the fiscal

Page 4 of 5

year, whichever is deemed to be in the best interest of the district. Staff members who do not comply with this provision shall be required to reimburse the district for the full cost of all medical, prescription and dental benefits provided during the family leave.

A staff member returning from family leave shall be entitled to the position he/she held when leave commenced or to an equivalent position of like seniority, status, employment benefits, pay and other conditions of employment. If the district experiences a reduction in force or layoff and the staff member would have lost his/her position had the staff member not been on family leave as a result of the reduction in force or pursuant to the good faith bargaining agreement, the staff member shall not be entitled to reinstatement to the former or an equivalent position in accordance with applicable statutes, codes and laws. The staff member's tenure and seniority rights, if any, and other benefits shall be preserved, but the staff member shall accrue no additional time toward tenure or seniority for the period of the leave except as may be provided by law.

The return of a staff member prior to the expiration of the requested family may be permitted by the Board if the return does not unduly disrupt the instructional program or require the Board to incur the cost of continuing the employment of a substitute under contract or does not unduly disrupt the educational program for pupils.

Family leave granted to a nontenured staff member cannot extend the employee's employment beyond the expiration of his/her employment contract.

The district may deny family leave to the staff member if the staff member is a salaried employee who is among the highest paid five percent of the school district staff or one of the seven highest paid employees of the district, whichever is greater. This denial is necessary to prevent substantial and grievous economic injury to the school district's operations. The Board of Education shall notify the staff member of the intent to deny the leave at the time determination is made that the denial is necessary. If the leave has already commenced at the time of the district's notification of denial, the staff member shall return to work within ten working days of the date of notification.

Verification of Leave

The Board of Education shall require the certification of a duly licensed health care provider verifying the purpose of requested family leave. Certification of a serious health condition of a family member of the staff member shall be sufficient if it states the date on which the condition commenced, the probable duration of the condition, and the medical facts within the provider's knowledge regarding the condition. Certification for the birth or placement of a child need only state the date of birth or date of placement, whichever is appropriate.

In the event the Superintendent of Schools doubts the validity of the certification for the serious health condition of a family member of the staff member, the district may require, at the district's

expense, the staff member to obtain an opinion regarding the serious health condition for a second health care provider designated or approved, but not employed on a regular basis, by the Board of Education. If the second opinion differs for the certification, the Board of Education may require at the district's expense, that the staff member obtain an opinion of a third health care provider designated or approved jointly by both the staff member and the Board of Education. The opinion of the third health care provider shall be final and binding on the Board of Education and the staff member.

In order that a staff member's entitlement to family leave can be properly determined, the Superintendent of Schools shall ensure that keeping of accurate attendance records that distinguish family leave from other kinds of leave.

The Board of Education guarantees to all persons equal access to all categories of employment, retention and advancement in this district, regardless of race, creed, color, national origin, ancestry, age, sex, affectional or sexual orientation, marital status, familial status, liability for service in the Armed Forces of the United States, atypical hereditary cellular or blood trait or any individual or non-applicable disability.

An affirmative action/equity program shall be a part of every aspect of employment not limited to but including upgrading; demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation including fringe benefits; employment selection or selection for training and apprenticeships; promotion; or tenure.

The Board-designated affirmative action officer shall identify and recommend correction of any existing inequities, and any that occur in the future.

Harassment and Favoritism

The Board of Education is an affirmative action employer and holds all its employees responsible for maintaining a working environment that is free from all discriminatory practices. Harassment or favoritism on any basis included in the Board's statement of equal access to employment, retention and advancement is prohibited.

Administrators and supervisors shall be familiarized with the actions that constitute harassment and favoritism. This material shall be included in the legally mandated affirmative action in-service training for all employees, and shall be clear and specific (see policy 2224). When harassment has been determined to have taken place, disciplinary action will follow. All such determination shall be reported to the Board.

Sexual Harassment

The Board of Education shall maintain a working environment that is free from sexual harassment.

- A. Sexual harassment shall consist of unwelcomed sexual advances, requests for sexual favors, and other inappropriate verbal or physical conduct of a sexual nature when made by any member of the school staff to a student when made by any member of the school staff to another staff member or when made by any student to another student or when made by a student to a staff member, when:

 2. Submission to or rejection of such conduct by an individual is used as the basis of academic or employment decisions affecting that individual, or when

- B. Sexual harassment, as set forth in Section A, may include, but is not limited to the following:
1. verbal harassment or abuse
 2. pressure for sexual activity
 3. repeated remarks to a person with sexual demeaning implications
 4. unwelcomed touching suggesting or demanding sexual involvement accompanied by implied or explicit threats concerning one's grades, job, etc.

Administrators and supervisors will make it clear to all staff that sexual harassment is prohibited. No supervisory employee shall threaten or insinuate, either directly or indirectly, that an employee's refusal to submit to sexual advances will adversely affect the employee's continued employment, evaluation, compensation, assignment or advancement. No supervisory employee shall promise or suggest, either directly or indirectly, that an employee's submission to sexual advances will result in any improvement in any term or condition of employment of an employee. Sexually harassing conduct committed by non-supervisory personnel is also prohibited.

Staff may file a formal grievance related to sexual harassment. The Board will receive all complaints and carry out a prompt and thorough investigation and will protect the rights of both the person making the complaint and the alleged harasser.

Students may also file formal grievances related to sexual harassment (refer to Parent Handbook – grievance policy).

A substantiated charge against a staff member in the school district shall subject such staff member to disciplinary action, such as a letter of reprimand, withholding of an increment or possible discharge.

A substantiated charge against a student in the school district shall subject that student to student disciplinary action, including suspension or expulsion, consistent with the student disciplinary code.

Health Examinations

When a candidate has been given a conditional offer of employment, he/she shall be required to submit to a medical evaluation and a physical examination. This physical examination may include testing for controlled dangerous substances as they are defined in the criminal code. Elements of the examination of newly employed staff shall include but not be limited to those physical exam elements listed in administrative code.

Employees may be required to undergo an annual physical examination.

The results of all required employee medical examinations shall be made known to the Superintendent of Schools on a confidential basis, discussed with the employee, and made a part of his/her confidential medical record. Records and reports of examinations shall be filed with the district medical inspector as confidential information but shall be available to and reported to appropriate health agencies as required by law.

In the event an employee of the Board has been determined to have a mental abnormality or communicable disease or exhibits symptoms of substance abuse and, if in the opinion of the district medical inspector such condition makes the employee unfit for continued employment, the Board may remove the employee from further service as provided by law or grant leave as provided by law during the period of unfitness. An employee determined to be unfit must provide the Board with satisfactory proof of recovery before reinstatement will be allowed.

In order to protect the pupils and staff in the district schools, all regulations of the State Department of Education, the State Department of Health and the Local Board of Health shall be scrupulously observed, particularly those dealing with contagious/infectious diseases. Staff members who have been identified as having a communicable disease shall not be permitted continued employment unless they qualify under the above agencies' rules pertaining to periods of incubation, communicability, quarantine and reporting.

When required examinations are performed by a physician designated by the Board, the Board shall bear the expense. Should an employee prefer to see his/her own physician, with Board approval, the employee shall bear the expense.

In the event that the prospective employee in question had, as a condition of employment in another NJ school district during the same school year, undergone an identical physical examination and can provide the Superintendent of Schools a copy of a certificate to verify this, then, in that case, the Superintendent of Schools, at his/her discretion, may excuse the prospective from obtaining a new physical examination.

It shall be the responsibility of the Superintendent of Schools to establish procedures to ensure the security of employee health records maintained in this school district.

The section of the medical record which contains the health history, e.g. medications or current health status to assure ready access in a medical emergency, may be shared with the Superintendent of Schools/designee and school nurse with the consent of the employee.

When an employee is requested to submit to any physical examination, he/she shall be provided with:

Orderly administration of the school district and compliance with state and federal law require the compilation of information about all employees of the district. The Superintendent of Schools and the Board Attorney shall be responsible for limiting administrative records to those that are consistent with New Jersey and federal law.

In accordance with federal law, the Superintendent of Schools shall establish procedures to release information upon request regarding the professional qualifications and degrees of teachers and the qualifications of paraprofessionals to parents/guardians for any teacher or paraprofessional who is employed by a school receiving Title 1 funds and who provides instruction to their children.

The Superintendent of Schools shall establish the necessary regulations for maintaining both public and confidential employee records.

Definitions

For the purpose of this policy “nepotism” shall be defined as the showing of favoritism to an employee or candidate for employment based on the existence of a relationship as a relative or immediate family member of a Board Member or Superintendent of Schools.

For the purpose of this policy, “relative” shall be defined as an individual’s spouse, civil union partner, domestic partner or the parent, child, brother, sister, aunt, uncle, niece, nephew, grandparent, grandchild, son-in-law, daughter-in-law, stepchild, stepbrother, stepsister, half-brother or half-sister of the individual or of the individual’s spouse, civil union partner or domestic partner, whether the relative is related to the individual or the individual’s spouse, civil union partner or domestic partner by blood, marriage or adoption.

“Immediate family” shall be defined as Board Member or school administrator, their spouse, civil union partner, domestic partner, child, parent or sibling residing in the same household, whether related by blood, marriage or adoption.

Employment/Promotion of Relative

The Board of Education, in order to avoid both the reality and the appearance of conflict of interest in employment, will not appoint a relative of a Board Member or of the Superintendent of Schools to any employment position in this district. The Superintendent of Schools shall not recommend to the Board any relative of a Board Member or of the Superintendent of Schools, unless the person is subject to the exception below. Nor shall any person be considered for employment in any position in which he/she would come under the direct or indirect supervision of any relative.

Furthermore, no school district administrator shall supervise or exercise authority on personnel actions regarding a relative of the administrator. Where it is not feasible to eliminate such direct or indirect supervisory relationships, appropriate screens and/or alternate supervision/reporting mechanisms shall be put in place.

Exceptions

Persons who are employees of the Board of the date that this policy becomes effective or the date a relative becomes a Board Member or Superintendent of Schools shall not be prohibited from continuing to be employed in the district. This includes employees who must be renewed annually by the Board. The Superintendent of Schools may recommend those employees for reemployment, transfer, promotion or removal.

A relative of a Board Member or the Superintendent of Schools may be employed by the district provided that the district has obtained the approval from the Executive County Superintendent of Schools. Such approval shall be granted only upon demonstration by the district that it conducted an thorough search for candidates and that the proposed candidate is the only qualified and available person for the position.

Board Member/Superintendent of Schools Participation in Negotiations

When a Board Member or school administrator's relative is a member of the bargaining unit or receives the benefit of the contract, that Board Member or school administrator shall not discuss the proposed collective bargaining agreement with that unit or participate in any way in negotiations. This includes, but is not limited to being a member of the negotiating team. Nor shall that Board Member or school administrator be present with the Board in closed session when negotiation strategies are being discussed. However, a school administrator may provide technical information that is necessary to the collective bargaining process when no one else can provide that information.

When a member of a Board Member's or school administrator's immediate family is a member of the same state-wide union with which the Board is negotiating, that Board Member or school administrator shall not participate in any way in negotiations. This includes, but is not limited to being a member of the negotiating team, prior to the Board's attaining a tentative memorandum of agreement with the bargaining unit, including salary guides and/or the total package of money to be offered.

Once such tentative memorandum of agreement is established, including salary guides and/or the total package of money is to be offered, the Board Member or school administrator may fully participate in the process, including Board Member voting, absent other conflicts. Prior to that time, the Board Member or school administrator shall not be present with the Board in closed session when negotiation strategies are being discussed. However, a school administrator may provide technical information that is necessary to the collective bargaining process when no one else in the district can provide that information.

A school official who has such relationship with any employee of the district as of the effective date of this policy shall declare such relationship immediately.

Per diem substitutes and student employees are excluded from this nepotism policy.

Assignment / Transfer

Date Adopted: June 2, 2008

Date Revised:

Page 1 of 2

The Superintendent of Schools shall make certified staff assignments in the manner best calculated, in his/her judgment, to enhance the educational program.

Support personnel are subject to assignment and transfer after recommendation of the Superintendent of Schools and approved by the Board of Education. Procedures for such transfers shall comply with provisions of current negotiated agreements and state and federal law.

In accordance with the law of New Jersey, the Board of Education directs the Superintendent of Schools to assign personnel to the school in such a way that equivalence of personnel is ensured within the school.

The Superintendent of Schools may use his/her discretion to make temporary assignments of existing employees to cover long-term absences of other staff members. It is the policy of the Board that these temporary assignments will be in the best interest of the school district and its pupils.

It is the policy of the Board that twelve-month employees are expected to work a full school day on such days as school is in session less than full time due to a scheduled non-emergency activity (workshop, in-service, staff meeting, etc.). The Superintendent of Schools may dismiss twelve-month employees after less than a full school day's work in any situation where he/she deems their continued attendance to be of little or no value to the educational program being considered at that time.

Part-time employees shall be scheduled by the Superintendent of Schools and in the case of emergency school closings, part-time employees may be scheduled to work on alternate days than those on which they would have been scheduled in order to effect no loss of instructional time due to school closing.

Any staff member appointed to an extra duty position is expected to serve unless excused for extenuating circumstances. A refusal to serve or resignation from extra duty service without permission may constitute an act of insubordination and subject the employee to disciplinary procedures.

The Board of Education has the right under state law to abolish unilaterally any existing position in whole or in part and to reduce the number of employees in any category for reasons of economy, reduction in the number of pupils, change in the administrative or supervisory organization, change in the educational program or other good cause.

Should it become necessary to reduce the number of employees in the district, the laws and regulations of the state shall be the controlling guides. If, in the case of such reduction, candidates for termination are non-tenured personnel only, the primary basis for selection for termination or reduction shall be the needs of the district's educational program and the individual's contribution toward achievement of that program based on properly completed observations and evaluations.

If, in the case of such reduction, candidates for termination or reduction in grade are tenured in this district, the state regulations regarding seniority shall be the primary basis for decision. In the event that there should be equal applicable seniority among staff members, the decision for reduction or termination shall be based on the needs of the district's educational program and the individual's contribution toward achievement of that program based on properly completed observations and evaluations.

In no case shall any choice be based on arbitrary, capricious or discriminatory reasons. The Superintendent of Schools shall prepare guidelines for restructuring positions and for determining objectively which employees are to be dismissed as a result, and shall present his recommendations to the Board for action.

Disciplinary Action

Policy 4217.5

Date Adopted: June 2, 2008

Date Revised:

Page 1 of 1

It shall be the policy of the Board of Education to apply the statutes of the state, the policies of this Board and the regulations of the administration with equal consideration to each staff member.

The Superintendent of Schools shall prepare disciplinary rules for situations most often encountered which provide for progressive penalties including-where appropriate-verbal warnings, written warnings, non-renewal of non-tenured employees, withholding of an increment from tenured employees, dismissal of non-tenured employees and referral of charges against tenured employees. Such rules shall ensure nondiscriminatory application, differentiate between a second offense of the initial type and a second offense unlike that for which the employee was initially reprimanded, and be in accordance with established due process procedures.

Disciplinary rules approved by the Board and shall include the provision that the Board reserves the right to deduct pay for required service not performed, including time lost through tardiness in accordance with its policies.

Withholding and Increment

Advancements on the salary guide are not automatically granted and must be earned by satisfactory performance. Advancement requires favorable evaluations of the employee's performance of assigned duties, a satisfactory attendance record and adherence to the rules of the district and high standards of professional conduct.

The Board may determine, by recorded roll call majority vote of the full membership and at any time prior to the commencement of the school year or contract year in which the employee's salary will vest, to withhold any or all of the increments indicated by the salary guide or by Board policy.

Within ten (10) days of its formal action to withhold an increment, the Board shall give written notice to the affected employee of both the action and the reason or reasons for which it was taken.

An increment withheld may be restored only by action of the Board.

Date Revised:

Page 1 of 3

The Board of Education is committed to the establishment of a drug and alcohol misuse prevention program among school bus drivers that meets all applicable requirements of the Omnibus Transportation Employee Testing Act of 1991. The purpose of the testing program shall be to help prevent accidents and injuries resulting from the misuse of alcohol and controlled substances by employees performing safety-sensitive functions.

Transportation contracts approved by the Board of Education shall contain assurance that the contractor will establish a drug and alcohol testing program that meets the requirements of federal regulations and this policy and will actively enforce the regulations of this policy as well as federal requirements.

- A. The use of any controlled substance on or off duty, unless a written prescription from a licensed doctor or osteopath is provided along with a written statement from the doctor or osteopath that the substance does not adversely affect the employee's ability to safely operate a motor vehicle or perform other safety-sensitive functions;
- B. The use of any controlled substance on or off duty, unless a written prescription from a licensed doctor or osteopath is provided along with a written statement from the doctor or osteopath that the substance does not adversely affect the employee's ability to safely operate a motor vehicle or perform other safety-sensitive functions;
- C. The misuse of alcohol that could affect performance on the job including use on the job, use during the four hours before performing a safety-sensitive function, having prohibited concentrations of alcohol in their systems while performing a safety-sensitive function and use during eight hours following an accident.

"Controlled substance" in this policy refers to those covered by the Omnibus Act, including, but not limited to, marijuana, cocaine, opiates, amphetamines and phencyclidine (PCP).

All covered applicants and employees shall be subjected to pre-employment or pre-duty, reasonable suspicion, random, post-accident, return-to-duty and follow-up alcohol and drug testing pursuant to procedures set out in the federal regulations. These procedures use an evidential breath testing device for alcohol testing. For controlled substances testing, urine specimen collection and testing by a laboratory certified by the U.S. Department of Health and Human Services shall be required.

Random alcohol testing shall be limited to the time period surrounding the performance of safety-related functions that includes just before or just after the employee performs the safety-related function. Controlled substances testing may be performed at anytime while the employee is at work.

An employee covered by the federal regulations may not refuse to take a required test. Consequences for an employee's refusal shall be the same as for a positive result of the test.

If the testing confirms prohibited alcohol concentration levels or the presence of a controlled substance, the employee shall be removed immediately from safety-related functions in accordance with the federal regulations. Before an employee is reinstated, if at all, the employee shall undergo an evaluation by a substance abuse professional, comply with any required rehabilitation and undergo a return-to-duty test with verified test results.

The Board of Education retains the authority consistent with federal law to discipline or discharge any employee who is an alcoholic or chemically dependent and whose current use of alcohol or drugs affects the employee's qualifications for and performance of the job.

The Board of Education believes that the regular presence of assigned personnel is vital to the success of the district's educational program. Consistent absenteeism or tardiness is unacceptable and subject to disciplinary action.

The Superintendent of Schools shall develop and the Board shall adopt a plan to encourage all staff to strive for excellent attendance and punctuality records. It is the policy of the Board of Education to provide sick leave and personal leave to school district personnel. The purpose of such sick leave is to provide income protection to school personnel in the event of illness. The purpose of personal leave is to allow, for absence from work, with pay, to take care of personal matters that must be done during the school day.

The Superintendent of Schools and administrative staff shall develop appropriate guidelines and plans for the implementation of this policy. Such guidelines and plans shall include, but not be limited to, the following:

- A. Plans to communicate to school district personnel the intent of sick leave and personal leave and the importance of regular attendance.
- B. A system of record keeping to account for sick leave and personal days to include monthly and annual reports.
- C. A system for monitoring absence for sick leave and personal leave to prevent abuses.
- D. When appropriate to the circumstances, requesting school district staff to submit information concerning the cause of absence after three consecutive days of absence.
- E. When appropriate to the circumstances following an illness, to request a statement from a physician that the employee may return to work.

The Board will consider requests for extension of sick leave benefits on a case-by-case basis.

Page 1 of 5

In accordance with the New Jersey Family Leave Act (FLA) and the Federal Family and Medical Leave Act (FMLA), the Board of Education will grant staff members up to twelve weeks leave of absence in any twenty-four month period upon advance notice to the district so that the staff member may provide care made necessary by the birth of a child of the staff member, the placement of a child with the staff member in connection with adoption of such child by the staff member, and the serious health condition of a spouse, parent, or child.

A staff member shall not be discriminated against for having exercised his/her rights under the FLA or the FMLA, nor shall the staff member be discouraged from the use of family leave.

Definitions

For the purposes of this policy the following definitions shall apply:

- A. "Child" means a biological, adopted or foster child, stepchild, legal ward, child of a parent who is under eighteen years of age or a child eighteen years of age or older but is incapable of self-care because of a mental or physical condition.
- B. "Parent" means a biological, adoptive or foster parent, stepparent, parent-in-law, legal guardian having a "parent-child relationship" with a child as defined by law, or any person who has sole or joint legal or physical custody, care, guardianship or visitation with a child.
- C. "Serious health condition" is an illness, injury, impairment, or physical or mental condition that requires inpatient care in a hospital, hospice, or residential medical facility or continuing medical treatment or continuing supervision by a health care provider.
- D. "Week" is the number of days an employee normally works each calendar week.
- E. "Family leave" is taken pursuant to the New Jersey Family Leave Act (FLA) and the Federal Family and Medical Leave Act (FMLA).
- F. "Staff member" is an employee eligible for family leave in accordance with the New Jersey Family Leave Act (FLA) and the Federal Family and Medical Leave Act (FMLA).
- G. "Reduced leave" means leave scheduled for fewer than the staff member's usual number of hours worked per workweek, but not fewer than the staff member's usual number of hours worked per workday.

Eligibility

A staff member shall become eligible for family under FLA after he/she has been employed at least twelve months in this district for not less than 1,000 base hours, excluding overtime, during the immediate preceding twelve month period. A staff member shall become eligible for family leave under FMLA after he /she has been employed in this district for not less than 1,250 hours, excluding overtime, during the immediate preceding twelve-month period. The calculation of the twelve-month period to determine eligibility shall commence with the commencement of the family leave. Leave taken for the birth or adoption of a healthy child may commence at any time within a year after the date of the birth or placement for adoption.

Family leave shall run concurrently under the FLA and the FLMA. When family leave is requested under the FMLA for the individual staff member's personal illness or injury, all accumulated sick and personal days must be utilized first. Thereafter, said days will be deducted from the maximum twelve-week entitlement under the FMLA.

During any period of the leave, the staff member is prohibited from performing any services on a full-time basis for any person for whom the staff member did not provide services immediately prior to the commencement of the leave. A staff member on family leave may commence part-time employment that shall not exceed half the regularly scheduled hours normally worked for the district. The staff member may continue the part-time employment that commenced prior to the family leave at the same number of hours that the staff member was regularly scheduled prior to such leave.

Types of Leave

A staff member may take family leave in consecutive weeks, as intermittent leave, or as reduced leave. A staff member who requests intermittent or reduced leave shall make a reasonable effort to schedule such leave so as not to unduly disrupt the instructional/educational program.

In the case of a family member who has a serious health condition, leave may be taken intermittently when medically necessary if the total time within which the leave is taken does not exceed a twelve-month period for each serious health condition episode, the staff member will provide the district with prior notice of the leave in a manner that is reasonable and practicable, and the staff member makes a reasonable effort to schedule the leave so as not to unduly disrupt the operations of the instructional/educational program. In the case of the birth or adoption of a healthy child, the leave may be taken intermittently only if agreed to by the staff member and the Superintendent of Schools/designee.

A staff member is entitled, at the option of the staff member, to take leave on a reduced leave schedule except the staff member is not entitled to a reduced leave schedule for a period exceeding twenty-four consecutive weeks. The staff member is not entitled to take the leave or a reduced leave without an agreement between the staff member and the Superintendent of Schools/designee if leave is taken upon the birth or adoption of a healthy child. The staff member shall make a reasonable effort to schedule reduced leave so as not to unduly disrupt the operations of the instructional/educational program. The staff member shall provide the district prior notice of the care, medical treatment or continuing supervision by a health care provider necessary due to a serious health condition of a family member in a manner that is reasonable and practicable. Leave taken on a reduced leave schedule shall not result in a reduction of the total amount of leave to which a staff member is entitled.

The fact that a holiday or vacation period may occur within the week taken by a staff member as family leave has no effect and the week is counted as a week of family leave.

Any time remaining after a staff member has exhausted his/her entitlement to intermittent leave in any twelve-month period may be taken as consecutive leave or reduced leave, and any leave time remaining after a staff member has exhausted his/her entitlement to reduced leave in any twelve-month period may be taken as consecutive leave or intermittent leave.

Notice

A staff member eligible for family leave must give at least a thirty day advance written notice to the Superintendent of Schools/designee of the need to take family leave, except where the need to take family leave is not foreseeable. When the need is not foreseeable, the staff member must provide notice as soon as practicable which shall be at least verbal notice to the Superintendent of Schools/designee within one or two working days of the staff member learning of the need to take family leave. Whenever emergent circumstances make written notice impracticable, the staff member may give verbal notice to the Superintendent of Schools/designee, but any verbal notice must be followed by written notice delivered within three working days.

Notice for leave to be taken for the birth or placement of the child for adoption shall be given at least thirty days prior to the commencement of the leave except that if the date of the birth or adoption requires leave to begin in less than thirty days, the staff member shall provide such notice that is reasonable and practicable.

Notice for leave to be taken for the serious health condition of a family member shall be given at least fifteen days prior to the commencement of the leave except that if the date of the treatment or supervision requires leave to begin in less than fifteen days, the staff member shall provide such notice that is reasonable and practicable.

When the Superintendent of Schools/designee is not made aware that a staff member was absent for family leave reasons and the staff member wants to request the leave be counted as family leave, the staff member must provide written notice within two working days of returning to work to have the time considered family leave in accordance with the FLA and FMLA.

Benefits

Family leave shall be unpaid leave as per the FLA and the FMLA.

In accordance with law, the Board of Education will maintain coverage under any group health insurance policy, group subscriber contract, or health care plan at the level and under the conditions coverage would have been provided if the staff member had continued in employment continuously from the date the staff member commenced leave until the date the staff member returned to work or the date on which the staff member's coverage would have expired had the staff member not been on leave, whichever is sooner. A staff member who receives benefits while on family leave must return to the district for a minimum of one year or, at the discretion of the

Board of Education, until the end of the fiscal year, whichever is deemed to be in the best interest of the district. Staff members who do not comply with this provision shall be required to reimburse the district for the full cost of all medical, prescription and dental benefits provided during the family leave.

A staff member returning from family leave shall be entitled to the position he/she held when leave commenced or to an equivalent position of like seniority, status, employment benefits, pay and other conditions of employment. If the district experiences a reduction in force or layoff and the staff member would have lost his/her position had the staff member not been on family leave as a result of the reduction in force or pursuant to the good faith bargaining agreement, the staff member shall not be entitled to reinstatement to the former or an equivalent position in accordance with applicable statutes, codes and laws. The staff member's tenure and seniority rights, if any, and other benefits shall be preserved, but the staff member shall accrue no additional time toward tenure or seniority for the period of the leave except as may be provided by law.

The return of a staff member prior to the expiration of the requested family may be permitted by the Board of the return does not unduly disrupt the instructional program or require the Board to incur the cost of continuing the employment of a substitute under contract or does not unduly disrupt the educational program for pupils.

Family leave granted to a nontenured staff member cannot extend the employee's employment beyond the expiration of his/her employment contract.

The district may deny family leave to the staff member if the staff member is a salaried employee who is among the highest paid five percent of the school district staff or one of the seven highest paid employees of the district, whichever is greater. This denial is necessary to prevent substantial and grievous economic injury to the school district's operations. The Board of Education shall notify the staff member of the intent to deny the leave at the time determination is made that the denial is necessary. If the leave has already commenced at the time of the district's notification of denial, the staff member shall return to work within ten working days of the date of notification.

Verification of Leave

The Board of Education shall require the certification of a duly licensed health care provider verifying the purpose of requested family leave. Certification of a serious health condition of a family member of the staff member shall be sufficient if it states the date on which the condition commenced, the probable duration of the condition, and the medical facts within the provider's knowledge regarding the condition. Certification for the birth or placement of a child need only state the date of birth or date of placement, whichever is appropriate.

In the event the Superintendent of Schools doubts the validity of the certification for the serious health condition of a family member of the staff member, the district may require, at the district's

expense, the staff member to obtain an opinion regarding the serious health condition for a second health care provider designated or approved, but not employed on a regular basis, by the Board of Education. If the second opinion differs for the certification, the Board of Education may require at the district's expense, that the staff member obtain an opinion of a third health care provider designated or approved jointly by both the staff member and the Board of Education. The opinion of the third health care provider shall be final and binding on the Board of Education and the staff member.

In order that a staff member's entitlement to family leave can be properly determined, the Superintendent of Schools shall ensure that keeping of accurate attendance records that distinguish family leave from other kinds of leave.

Role of Parents / Guardians

Policy 5020

Date Adopted: June 30, 1998

Date Revised: April 21, 2008

The Board believes that the education of children is a joint responsibility, one it shares with the parents/guardians and the school community. To ensure that the best interests of the child are served in this process, a strong program of communication between home and school must be maintained and parental involvement in district concerns encouraged.

The Board recognizes the vital role of the parents/guardians in the welfare and education of their children and the pivotal part they play in shaping character and values. Because parents/guardians are familiar with the needs, problems, gifts and abilities of their children, staff should seek to involve parents/guardians as much as possible in the planning of the individual program. Parents/guardians must, by law, be included in the development of certain educational programs for their children.

Parents/guardians are requested to keep the school apprised of changes in factors in the home situation that may affect pupil conduct or performance. Parents/guardians are specifically requested to inform the school of any changes in legal custody of the child.

Parents/guardians are responsible for their child's punctuality, attendance, cleanliness and propriety of dress.

The Superintendent of Schools shall develop procedures and regulations to implement this policy. These regulations shall include use of the parent/guardian's native language when necessary.

Compulsory attendance at school is a long-standing state policy and has been upheld by the court of New Jersey and the U.S. Supreme Court as a matter of public concern and legislative regulation.

The Board of Education has an obligation to require that the pupils of this district be present in school in order that they may be taught. This policy is for the benefit of the pupils, their parents, and the community at large. The Board concurs with the Commissioner of Education who wrote:

“...pupil participation in all regularly scheduled classroom learning activities in each area of study is essential in order for each pupil to receive the maximum benefits of a thorough educational program. Frequent absences of pupils from regular classroom learning experiences disrupt the continuity of the instructional process. The benefit of regular classroom instruction is lost and cannot be entirely regained, even by extra after-school instruction. Consequently, many pupils who miss school frequently experience great difficulty in achieving the maximum benefits of schooling. Indeed, many pupils in these circumstances are able to achieve only mediocre success in their academic programs. The school cannot teach pupils who are not present. The entire process of education requires a regular continuity of instruction, classroom participation, learning experiences, and study in order to reach the goal of maximum educational benefits for each individual child. The regular contact of the pupils with one another in the classroom and their participation in well-planned instructional activity under the tutelage of a competent teacher are vital to this purpose. This is a well-established principle of education which underlies and gives purpose to the requirement of compulsory schooling in this and every other state in the nation.” (Wheatley et al V. Board of Education of the City of Burlington, Burlington County, September 23, 1974.)

The Board of Education requires that the pupils enrolled in the district attend school regularly in accordance with the laws of this state. The educational program offered by this district is predicated upon the presence of the pupil and requires continuity of instruction and classroom participation. The regular contact of pupils with one another in the classroom and their participation in a well-planned instructional activity under the tutelage of a competent teacher are vital to this purpose.

Attendance shall be required of all students enrolled in the school during the days and hours that the school is in session unless it is shown to the satisfaction of the Board that the mental condition

the mental condition of the student is such that he/she cannot benefit from the instruction or that the bodily condition of the student is such as to prevent attendance at school. All absences occasioned by the observance of the student's religion on a day approved by the Commissioner as a religious holiday shall be excused and no student so excused shall be deprived of an award or eligibility to compete for an award or the opportunity to make up a test given on the religious holiday.

In accordance with statute, the Board shall require from the parent/guardian of each child who has been absent from school or from class for any reason a written statement of the cause for such absence. The Board reserves the right to verify such statements and to investigate the cause of each absence of more than three days duration. The Board may report to appropriate authorities infractions of the law regarding the attendance of students below the age of 16.

The Board further maintains that the learner has a major responsibility to learn, and as such, the pupil is accountable for the faithful school attendance.

The Board cannot condone, accuse, or encourage any absence by pupils. Therefore, the Superintendent of Schools may prepare regulations to assist with the implementation of this policy.

In order for the Board of Education to fulfill its responsibility for providing a thorough and efficient education for each pupil, the complete cooperation of parents/guardians and pupils is required to maintain a high level of school attendance.

The frequent absence of pupils from classroom learning experiences disrupts the continuity of the instructional process and limits the ability of pupils to complete the prescribed curriculum requirements successfully.

A pupil must be in attendance for 170 or more school days in order to be considered to have successfully completed the instructional program requirements of the grade/course to which he/she is assigned.

A waiver of these attendance requirements may be granted for good cause by the school Principal upon recommendation of a review committee, appointed by him/her, and consisting of representative staff, including pupil service personnel and classroom teachers.

In recommending the granting of a waiver of this attendance requirement, the review committee shall consider the nature and causes of all absences rather than only those in excess of the 10 days. Documentation of the nature and causes of these absences shall be the responsibility of the pupil and parent/guardian.

Parents/guardians are responsible for notifying the school early in the day when a child will be absent and for informing the school of the reason for the absence. The Superintendent of Schools shall develop procedures for the attendance of pupils which:

- A. Ensure a school session which is in conformity with requirements of the rules of the New Jersey State Board of Education;
- B. Identify potentially missing and/or abused pupils;
- C. Govern the keeping of attendance records in accordance with rules of the New Jersey State Board of Education (NJAC 6A:16-1.1 et seq) including pupils serving in- or out-of-school suspensions, or excluded for health and cleanliness reasons;

Lateness

The Board expects students to arrive at school and in classrooms on time. Students who arrive late to school or in their assigned classroom(s) shall be subject to disciplinary action in accordance with the district's Code of Student Conduct.

Truancy

The Board will report to appropriate authorities infractions of the law regarding the attendance of pupils below the age of 16. Repeated infractions by enrolled pupils over the age of 16 may result in the suspension or expulsion of the pupil.

It shall be the policy of the Board to consider the effectiveness and appropriateness to his/her needs of the educational program that is offered each pupil who is habitually and repeatedly absent from his/her assigned program and to consult with the child study team for its recommendations.

Unexcused Absences

For the purposes of this policy and pursuant to NJAC 6A:32-8.3, the definition of a school day is that a school day shall be such that a school day shall consist of not less than four hours of actual instruction.

For the purposes of this policy an unexcused absence shall be defined as absence of a student from school, a class or classroom or his/her assigned program for a school day without proper notification by the student's parent/guardian or for reasons other than those listed in this policy under Excused Absences, below.

Excused Absences

The Board considers the following as cause for excused absence:

- A. Disabling illness
- B. Recovery from accident
- C. Required court attendance
- D. Family illness (serious illness of a family member, residing in the household of the student or the quarantine of the family member, family or student in accordance with the directives of health officials);
- E. Death in the family (death of a family member of the student, including but not limited to parent/guardian, sibling, grandparent, aunt, uncle, etc.);
- F. Religious observance--In accordance with statute, no pupil absent for religious observance of a day recognized by the commissioner of education or this Board of Education shall be charged with an unexcused absence, deprived of an award or eligibility/opportunity to compete for an award, or of the right to take an alternate to a test or examination missed through such absence.
- G. Such good cause as may be acceptable to the Principal.

Attendance need not always be within the school facilities. A pupil will be considered to be in attendance if he/she is present at any place where school is in session by authority of the Board. The Board shall consider each pupil assigned to a program of independent study, with parent/guardian permission, to be in regular attendance for that program, provided that he/she is under the guidance of a staff member so assigned, reports daily or weekly, as prescribed, to such staff member the place in which he/she is conducting his/her study, and regularly demonstrates progress toward the objectives of his/her course of study.

District personnel shall be assigned the task of conducting an investigation to determine the cause(s) of each unexcused absence. This investigation shall include contacting the parents/guardians of the student.

Appropriate district personnel shall develop an action plan to address patterns of habitual unexcused absences of students in order to have said students maintain regular attendance. This action plan shall be developed in consultation with the student's parents/guardians. In addition, the assigned staff member(s) shall evaluate the appropriateness of the action plan pursuant to NJAC 6A:16-7.8(a)41(3) and revise the action plan, as needed to identify patterns of unexcused absences and establish outcomes based on the student's needs and specify the interventions for achieving the outcomes supporting the student's return to school and regular attendance that may include any or all of the following:

Regular Release of Pupils Before the End of the Normal School Day

Such situations are justifiable only if the release does not jeopardize the pupil's educational program and the reasons for such release can be shown to have positive benefits for the pupil.

Late Arrival and Early Dismissal

The Board recognizes that from time to time compelling circumstances will require that a pupil be late to school or dismissed before the end of the school day.

Marking Missing Child's School Record

Whenever the Superintendent of Schools receives notice from the Missing Persons Unit that a child has been reported missing, he/she shall mark the child's records in such a way that whenever a copy of or information regarding the record is requested, district personnel will be aware that the record is that of a missing child. If a copy of a marked school record is requested, the Superintendent of Schools shall supply the record to the requestor without alerting him/her to the fact that the record has been marked, according to provisions in code and statute on accessing pupil records (see Policy 5125 Pupil Records). While the Board believes that positive approaches to acceptable behavior are usually more effective, it is sometimes necessary to penalize pupils for violations of school regulations to ensure the good order of the school and to teach pupils the consequences of disruptive behavior.

Pupils who indulge in disruptive behavior may be suspended or expelled. Disruptive behavior includes, but is not limited to:

- A. Continued and willful disobedience;
- B. Open defiance of the authority of any teacher or person having authority over a pupil;
- C. Actions that constitute a continuing danger to the physical well-being of other pupils;
- D. Physical assault upon another pupil, a teacher, or any school employee with or without a firearm or other weapon;
- E. Taking, or attempting to take, personal property or money from another pupil whether by force or fear;
- F. Willfully causing, or attempting to cause, substantial damage to school property;
- G. Taking part in any unauthorized occupancy of a district facility and refusing to leave promptly when directed to do so by a person in authority;
- H. Inciting others to take part in an unauthorized occupancy;
- I. Inciting other pupils to truancy;
- J. Truancy and class cutting; leaving school property without permission;
- K. Poor attendance and lateness;
- L. Use or possession of unsafe or illegal articles;
- M. Use of any tobacco product on school property;
- N. Use, possession or sale of a controlled dangerous substance, drug paraphernalia, anabolic steroids or alcohol;
- O. Use of profanity or abusive language;
- P. Turning in a false alarm;
- Q. Tampering with or damaging property of other pupils or staff members;
- R. Selling or buying lottery tickets or any other gambling paraphernalia on school property.

Any pupil who commits an “assault” (as defined by N.J.S.A. 2C:12-1) with or without a weapon upon a Board Member, teacher, administrator or other employee of the Board of Education shall be suspended from school immediately according to procedural due process, and suspension or expulsion proceedings shall begin no later than 30 calendar days from the date of the pupil's suspension.

Any pupil who is convicted or adjudicated delinquent for possession of a firearm or a crime while armed with a firearm or found knowingly in possession of a firearm on any school property or on a school bus or at a school-sponsored function shall be immediately removed from the school's regular education program for a period of not less than one calendar year. The Superintendent of Schools may modify this suspension on a case-by-case basis. Each pupil so removed shall be placed in an alternative educational program or on home instruction and shall be entitled to a hearing before the Board. The hearing shall take place no later than 30 days following the day the pupil is removed from the regular education program and shall be closed to the public.

The Principal shall be responsible for the removal of such students and shall immediately report them to the Superintendent of Schools. The Principal shall also notify the appropriate law enforcement agency of a possible violation of the New Jersey Code of Criminal Justice.

The Superintendent of Schools shall determine at the end of the year whether the student is prepared to return to the regular education program, in accordance with procedures established by the Commissioner of Education.

In-school Suspension

The Board directs the administration to arrange facilities for in-school suspension whenever possible. Pupils will be required to occupy themselves with school-related work during such suspensions. No socializing shall be permitted. Pupils shall be counted as present in school but absent (excused) from individual classes.

General

Pupils on home suspension shall be counted absent (excused) unless the duration of the suspension requires home instruction.

Except when special considerations warrant (at the discretion of the administration), every pupil will be given a written warning in the form of a disciplinary notice that subsequent violation of school regulations may result in his/her exclusion or suspension.

Pupils under suspension are prohibited from participating in or attending any school-regulated activity during the period of their suspension. They may not enter the school buildings or grounds of this district without the permission of the Superintendent of Schools. Any pupil under suspension who enters the school buildings or grounds without the permission of the Superintendent of Schools may have the period of his/her suspension extended. The right to continue the suspension or to expel is reserved to the Board of Education, acting upon the recommendation of the administration.

Serious violations of school regulations which create a dangerous or unsafe condition for other pupils shall cause a pupil to be suspended upon the first offense.

Making Up Missed Work

Pupils who are under suspension will be required to make up all assignments missed during the period of their suspension and will be given adequate opportunity to make up this work.

Upon their readmission, failure to complete the makeup assignments will result in a meeting with the parents/guardians. The Superintendent of Schools will notify parents/guardians by telephone and send a letter regarding the telephone conversation immediately.

- A. Informing the pupil of the charges against him/her;
- B. Giving the pupil a chance to reply to them.

These regulations shall also include safeguards for the dismissal of pupils suspended from school, procedures for calling an immediate conference with parents/guardians, limitations on the length of suspensions, and specifics for the reinstatement of pupils.

Every effort shall be made to adjust each suspension promptly so that the pupil can be returned to school with a minimum loss of school time and school work.

When the Superintendent of Schools imposes a suspension, he/she must report it to the Board. No suspension for reasons other than assault upon a teacher, administrator, Board Member or other Board employee may continue beyond the second regular meeting of the Board following the suspension without Board action. No suspension for assault upon a teacher, administrator, Board Member or other Board employee may be continued beyond 30 days without Board action. A suspended pupil may be reinstated by the Superintendent of Schools before Board action.

Each pupil shall be afforded an informal hearing before the suspension or, if circumstances prohibit, as soon as possible after the suspension except that, when extraordinary circumstances involving the health and safety of the pupil or others in the school require immediate exclusion, the hearing may be delayed to such time as circumstances permit. Pupils suspended for a period of time longer than a short-term suspension shall be afforded a formal hearing before the Board which shall take place not later than the second regular meeting of the Board following the suspension. If the offense involves a weapon or assault with or without the weapon (as described above), the hearing shall take place not later than 30 days after the suspension occurs.

The Board shall make a decision within five days of the close of the hearing. Any appeal of the Board's decision shall be made to the Commissioner of Education within 90 days of the Board's decision.

The Board requires that such hearings shall be closed to the public, but should all parties thereto agree, the hearing may be publicly held. Each suspended pupil who has requested a

formal hearing shall be restored to the regular educational program pending the outcome of the hearing, except when, in the opinion of the Superintendent of Schools, the presence of the pupil in school poses such a danger to himself/herself or others as to warrant continued absence.

Each such pupil suspended from the schools of this district shall receive individual instruction commencing not later than five working days after the suspension occurs, except that the Board may, on the recommendation of the Superintendent of Schools, assign the pupil to an alternate educational program to meet his/her particular needs (see policy #6172).

Procedures

The administration shall establish, and the Board shall approve, specific procedures for dealing with suspension cases. Regulations ensuring due process to all pupils before a suspension is imposed shall be developed with the advice of the Board attorney.

Expulsion

The Board will consider expulsion only if:

- A. The Superintendent of Schools with his/her staff have exhausted all means of bringing about a correction of repeated misconduct; or
- B. The nature of a single act presents such a clear possibility of danger to others that immediate definitive action is indicated.

The parents/guardians of the pupil shall be interviewed, if possible, and advised of the reasons why expulsion is being considered, of the rights of the pupil to a full hearing which will afford him/her procedural due process, and the right of parents/guardians to appeal to the Superintendent of Schools.

The child shall remain out of school until either:

- A. An appeal made to the Superintendent of Schools is decided in the child's favor; or
- B. The appeal (if made) has been denied and the Board has met to hear the Superintendent of Schools' recommendation.

If the Board determines that the charges, if true, may warrant expulsion, the Board will set a date for the hearing. The Board attorney will arrange for the giving of legal notice to all parties concerned for the preparation and presentation of evidence in support of the charges at the hearing.

The pupil must receive:

- A. Notification of the charges against him/her;
- B. The names of the adverse witnesses;
- C. Copies of the statements and affidavits of those adverse witnesses;
- D. The opportunity to be heard in his/her own defense;

- E. The opportunity to present witnesses and evidence in his/her own defense;
- F. The opportunity to cross-examine adverse witnesses; and
- G. The opportunity to be represented by counsel.

Juvenile authorities and law enforcement agencies shall be notified or consulted if necessary.

If a pupil younger than 18 years of age is expelled, the Board shall continue to supply an educational program for him/her.

Implementation

The Superintendent of Schools shall develop detailed written procedures to implement this policy. He/she shall ensure uniform and consistent application of the policy and shall report to the Board as required on its effectiveness.

Procedural Safeguards for Pupils with Disabilities

Procedural safeguards as they apply to suspensions and expulsions for pupils with disabilities will be followed in accordance with state special education regulations 6A:14-2.8 and federal special education code 20 U.S.C. Section 1415.

When an alternative educational program is provided for a pupil identified as disruptive but not disabled, the Superintendent of Schools shall inform the Board.

Student Storage Areas

Policy 5114.6

Date Adopted: April 21, 2008

Date Revised:

Page 1 of 1

The Board of Education recognizes that the 4th Amendment Right to Privacy applies to students and that they are therefore entitled to be free from unreasonable searches and seizures by school officials. The Board furthermore recognizes that the Legislature has specifically charged school officials with the duty of maintaining order, safety and discipline.

School officials shall have reasonable suspicions to believe that a student possesses evidence of illegal activity or of an activity that would interfere with school discipline and order before a reasonable search shall be conducted.

Desks and other storage areas assigned to students are school property and these shall be subject to regular and periodic inspection by the administration in order to insure proper health and safety standards. Areas may be inspected at any other time when reasonable grounds of such an inspection exist.

Whenever reasonable grounds to conduct a specific area search exists, the administration shall consider the source of the information, the reliability of the source, the actions of the student, the age and history of the student, the seriousness of the problem to the school, the need for immediacy as compared to parental knowledge or notification and the relationship of the search to the alleged wrong doing.

After due consideration of these items, the administration shall decide if a search is warranted. If so there shall be present at all times following whenever possible;

- The administrator

- The student

- The parent or legal guardian

- A witness in place of the parent if the parent/guardian is not available

- School security if available

If criminal activity is involved or suspected, law enforcement officers shall be contacted for their assistance. The Superintendent of Schools shall protect the student's individual rights at all times.

The administration also reserves the right to conduct random searches of student storage areas.

The administration shall be responsible for the custody, control and disposition of any object seized (unless superseded by a law enforcement officer) and shall be responsible for the prompt recording in writing of all reasons for the search, persons present, items found and seized and disposition of them.

Plagiarism / Academic Dishonesty

Policy 5114.7

Date Adopted: April 21, 2008

Date Revised:

Page 1 of 1

Pupils are expected to be honest in all of their academic work. This means that they will not engage in any of the following acts:

1. Cheating on examinations, including but not limited to the unauthorized use of books or notes, the use of crib sheets, copying from other students' papers, exchanging information with other students orally, in writing, or by signals, electronics, obtaining copies of the examination illegally and other similar activities.
2. Plagiarism is not permitted in term papers, themes, essays, reports, images, take-home examinations, and other academic work. Plagiarism is defined as stealing or use without acknowledgement of the ideas, words, formulas, textual materials, online services, computer programs, etc. of another person, or in any way presenting the work of another person as one's own.
3. Falsification, including forging signatures, altering answers after they have been graded, the insertion of answers after the fact, the erasure of grader's markings, and other acts that allow for falsely taking credit.

A pupil found guilty of academic dishonesty may be subjected to a full range of penalties including, but not limited to remand and loss of credit for all of the work that is plagiarized.

Cell phones are prohibited in standardized testing situations.

A teacher who believes that a pupil has been academically dishonest in his/her class should resolve the matter in the following manner:

1. Reprimand the student orally and/or in writing. The teacher is authorized to withhold credit in the work tainted by the academic dishonesty.
2. If warranted, the teacher shall file a written complaint against the student with the Superintendent of Schools, requesting a more stringent form of discipline. The complaint must describe in detail the academic dishonesty that is alleged to have taken place, and must request that the matter be reviewed by the Superintendent of Schools.
3. The Superintendent of Schools will determine if additional discipline of the pupils is appropriate and will determine the nature of the discipline on a case-by-case basis.
4. If the pupil is not in agreement with the disciplinary action of the teacher, he/she may appeal the action to the Superintendent of Schools. If the pupil is dissatisfied with the Superintendent of Schools' disposition of the case, he/she may grieve the action in accordance with Policy 5145.6 – Pupil Grievance Procedure.

The Board of Education will admit children of school age who reside in this district and will admit other children in accordance with Title 18A, New Jersey Administrative Code, and this policy. The Board reserves the right to establish procedures to verify the residency or anticipated residency of any pupil and the validity of any affidavit of guardianship.

Any person who knowingly violates these statutes may be found guilty of a disorderly person's offense and subject to prosecution by legal authorities.

Nonresident students are defined as those students whose parents or legal guardians are domiciled outside the school district. Domicile means a person's true and permanent home. The school district is only obligated to educate residents and those nonresidents who fall with certain narrow categories that are listed below. Nonresident students shall not be permitted to attend public school unless they fall into one of the following categories:

Former Residents

Any student having attended our school whose parents/guardians have moved out of the school district after the first marking period has ended may be permitted to finish the school year without payment of tuition, provided that:

1. They are not special education students who require additional services outside of the school district.
2. Their enrollment will not necessitate any additional classroom personnel.
3. They have submitted a written request to the Superintendent of Schools.

Under no circumstances will the Board provide transportation to or from the district or any other educational facility.

Nonresident Students

Nonresident students may be admitted to this district upon payment of tuition or if a sending - receiving contract has been signed by another Board of Education, subject to class size, availability of program, and other unforeseen circumstances as determined by the Board. Parents of nonresident students who are attending the district school on a tuition basis will pay a monthly tuition charge in advance of attendance on or before the first day of each month.

This shall not include attendance that is justified on the basis of living full time with district residents because of temporary, personal or financial hardship in their own family. In these cases, legal affidavits must be signed, and acceptance will be at the discretion of the Superintendent of Schools.

The Superintendent of Schools shall develop procedures for the enrollment of nonresident children whose admittance will be made after proper application by the parent/guardian.

Nonresident Staff

Nonresident teachers and administrative staff of the district will be extended to professional courtesy of having their children enrolled on an annual basis as tuition-free students, provided that:

1. They are siblings of children presently enrolled in school.
2. They are not special education students who require additional services outside of the school district.
3. They are not high school students.
4. Their enrollment will not necessitate any additional classroom personnel.
5. All requests shall be submitted annually in writing by May 15th; a response will be given by July 31st.

Foreign Exchange Students

Parents who desire to sponsor students in state or federally approved foreign and/or other student high school exchange programs must first contact the Superintendent of Schools for approval from the Board of Education. Board of Education approval will be based on the financial stability of the district during a particular year; however, approval shall not exceed two (2) students per year.

The Board shall not be responsible for the transportation to or from any school of any nonresident.

Residency Requirement

The children of families, who have signed a contract to buy, build, rent and establish a permanent residence in that domicile within the school district may apply for admission to the district. It is to be understood that the anticipated date by which a Certificate of Occupancy is to be issued and permanent residency established will not be the last student day prior to October 16th in order for the pupil(s) to begin school as of September 1st.

The Board reserves the right to assess tuition at the established and approved annual rate. Tuition payments will be made on or before the 1st day of each month and in advance of attendance. If the family becomes domiciled on or before October 15th, any and all tuition payments already made will be refunded to the family. If the family has not established a legal residency in the township by that date, the Board reserves the right to deny further attendance. Families that are not in receipt of a Certificate of Occupancy may petition the Board for an extension. Written requests for an extension for extenuating circumstances must be accompanied by official documentation stating the reason(s) and the projected residency establishment date. If an extension is granted, any and all tuition payments previously collected and any future payments will be retained by the school district.

Under no circumstances will the Board provide transportation to or from the district or any other educational facility.

During this three day period the following procedure is to be implemented:

1. The student and the school counselor will meet for the purpose of discussing the reason for leaving school and the student's plans for the future.
2. The student and the school counselor will meet to discuss the student's present scholastic standing.

The Board of Education encourages the certified staff, under the direction of the Superintendent of Schools, to employ a comprehensive approach to the use of appraisal and evaluative techniques in monitoring pupil progress, including, but not limited to, recognized standardized achievement testing programs, written and oral teacher-made tests, performance observation, parent interviews, formal and informal evaluation techniques, use of cumulative pupil records, and medical examinations.

The Superintendent of Schools, in consultation with the teaching staff, shall develop a marking system to be used uniformly throughout the district. The system should be clear, easily understood by parents and pupils, and able to be applied with consistency of interpretation. The evaluation and the grading symbols shall be intended to appraise the pupil's progress toward established goals and shall be a factor in promotion/graduation decisions.

The parents must be made aware of the progress of their child, his/her own growth patterns and the child's progress in relation to recognized standards.

The Superintendent of Schools reserves the right to review and alter any grade or evaluation assigned to a pupil by the professional staff. As a matter of policy it delegates this authority to the Superintendent of Schools, who shall develop and implement an administrative regulation that establishes a process for the review of any grade or evaluation in question. The regulations shall protect the integrity of the grading and evaluation system and guarantee a fair hearing to all individuals party to a dispute concerning a grade or evaluation.

The school district shall establish and maintain a testing program to:

- A. Measure the needs and progress of individual pupils;
- B. Measure the achievement of grade levels;
- C. Allow comparison of district pupils with national or other norms;
- D. Aid in evaluation of programs.

The district's testing program shall embody at least the tests required by state law. The administration shall continually scrutinize the applicability and effectiveness of tests being used in the district.

Grading Policy

The philosophy of the Board of Education concerning academic achievement is based on the premise that children have diverse capabilities, interests and individual patterns of growth and learning.

Therefore, the Board feels it important that teachers have as much and as accurate knowledge of each student as is possible through tests and observations of student intelligence, achievement, work habits, skills, health and home environment.

The Board recognizes that many factors that cannot be clinically tested, such as attitude toward others and work habits, may influence a student's success as much as knowledge of subject areas.

In fairness to all students then, achievement shall be judged 1) in relation to a student's learning capacity, and 2) in terms of his/her degree of mastery of skills, instructional goals and objectives.

Tests, quizzes and other evaluation devices will be administered on a regular basis to generate grades to promote a process of continuous evaluation of student performance to inform the student and his/her parents of his/her progress and to provide a basis for bringing about change in the student's performance, if such a change is deemed necessary.

Mid-Term & Final Examination

Both mid-year and final examination or post tests will be used as a major evaluation of student achievement when they are conducted in such a way as to effectively evaluate the achievement of skills, goals and objectives on which activities have been based.

Basis for Grading

Skills arrays and curriculum guides containing pre, mid-year, and post tests will be distributed to each teacher. Teachers will explain to students the level of mastery required for promotion. Teachers are obligated to make clear to the students the basis upon which the grades are assigned. Marks or grades will be given on the basis of a student's success in achieving established skills, goals and objectives.

Frequency of Marking

Report cards will be issued to students quarterly. Interim reports will be sent to parents during the 4th week of all marking periods.

Report cards will be issued at conference time. To those parents who did not attend conferences, report cards will be issued at the end of each marking period.

Transcripts and Cumulative Folders

An explanation of the symbols used in grading will appear on all transcripts and cumulative folders along with information on grade point values.

Final averages will be the grade point total divided by 4 in the elementary grades. The average of .5 beyond the whole number will automatically extend the grade to the next letter grade. Three F's and a fourth grade of any value will automatically receive a final average of F.

High school marking period grades count as 80% of the final grade and the final exam counts as 20% of the final grade. If teachers give a mid-term exam, the mid-term exam counts as 10% and the final exam counts as 10% of the final grade.

Guidelines for Retention

Retention shall be considered when:

- A. Retention would have a reasonable chance of benefiting the child.
- B. The pupil is achieving one or more grade levels below expected performance in reading and/or language and/or mathematics.
- C. Retention would not cause an undue social and emotional adjustment.

Procedures to Be Followed

- A. Review and evaluation of the social, physical, and emotional characteristics by the classroom teacher, guidance counselor, basic skills teacher(s), Superintendent of Schools, and Child Study Team when appropriate.

The following aspects should be considered:

- Attendance record
 - Attention span
 - Completion of classroom assignments
 - Completion of homework
 - Relationship with peers
 - Significant changes in academics and/or behavior
 - Serious personal/family conditions or relationships
 - Health records
- B. Identification of those pupils who are one or more grade levels below expected performance in the areas of reading/language arts and mathematics.
- C. Review all academic records that would include the following:
 - 1. Language Arts folder
 - 2. Math folders
 - 3. Standardized test score
 - 4. Report card grades
 - 5. Any other appropriate records (i.e. basic skills records, Child Study Team records, etc.)
- D. Notification of parents
 - 1. Guidelines indicating expected levels of achievement for promotion are disseminated to the parents at the November conferences with the teachers.

2. If it appears that retention is possible, the parent shall be notified by the Principal and/or the classroom teacher at the completion of the second marking period.
3. Relevant records shall be reviewed with the parent during a parent/teacher conference.
4. At the end of the third quarter, if retention of the pupil still may be likely, a letter will be sent to the parent/guardian.
5. At the end of each marking period, an analysis of each possible retainee's needs will be conducted by the Principal, staff and support staff and a program of improvement may be developed, such as:
 - Additional reading instruction
 - Additional math instruction
 - Provision of reinforcement materials for the parents to assist the child
 - Referral to guidance counselor
 - Referral to Child Study Team, if necessary
 - Periodic checks with parent by teacher to determine progress being made by the child
6. The child's subsequent progress shall be reviewed by the teacher at the end of the third marking period and a conference may be held.
7. Prior to the end of the school year, the Principal shall meet with any parents who do not agree with the decision and/or need further explanations of why the child should be retained. The child's total record will be reviewed with them before making a final determination.

The Board of Education believes that the cooperation of school and home is vital to the growth and education of the whole child. It recognizes its responsibility to keep parents informed of pupil welfare and progress in school.

The Board directs the establishment of a system of reporting pupil progress which shall include written reports, pupil-teacher conferences, and parent-teacher conferences. If the parent's primary language is other than English, translation shall be provided whenever possible.

The Superintendent of Schools shall develop procedures for reporting pupil progress which:

- B. Ensure that both the pupil and parent receive ample warning of a pending grade of "failure" or one that would adversely affect the pupil's status.
- C. Enable the scheduling of parent/teacher conferences in such places and at such times as will ensure the greatest degree of participation by parents.
- D. Specify the issuance of report cards at intervals of not less than four times during the school year and issuance of deficiency notices as required during the school year.
- E. Ensure the continual review and improvement of methods of reporting pupil progress to parents and involve pupils, staff and parents in that review.

A student record may be withheld from a parent of a student under 18 or from an adult student only when the district obtains a court order or is provided with evidence that there is a court order revoking the right to access. Only that portion of the record designated by the court may be withheld.

The Board shall limit access to, disclosure of and communication regarding student records and health records to authorized organizations, agencies or persons as defined by code.

Particular attention shall be paid to the development of procedures whereby student records are made accessible to assigned secretarial and clerical staff in the performance of their duties, and to compliance with requirements for the security of computerized student records that will limit access to authorized persons. Limited access shall be granted to secretarial and clerical personnel under the direct supervision of certified school personnel to those portions of the record and to the extent necessary to record data and conduct routine clerical tasks.

The district may make a charge for copies. The Board realizes and accepts the fact that any charges assessed shall not prevent parents/guardians from exercising their rights.

School personnel are not prohibited from disclosing information in the student health record to students or adults in connection with an emergency, if such knowledge is necessary to protect the immediate health or safety of the student or other persons.

In complying with this policy all individuals shall adhere to NJSA 47:1A-10, the Open Public Records Act (OPRA) and 20 U.S.C. 1232g; 34 CFR Part 99, the Family Educational Rights and Privacy Act (FERPA).

District regulation shall be developed in accordance with code to ensure that records are not altered, damaged or lost during inspection, and that records of access granted are complete.

Retention & Destruction of Records

The Superintendent of Schools shall develop regulations in accordance with the administrative code concerning retention and destruction of student records. No additions may be made to the record after the graduation or permanent departure of a student without the prior written consent of the parent/adult student.

The Board of Education believes that pupil achievement should be recognized at all levels in a manner appropriate to the pupil's accomplishment.

It is the right of every pupil to go to and from school, and to obtain an education in the schools, without fear of molestation, physical or verbal. The Board of Education hereby states that it will take such measures as are necessary, including suspension, permanent expulsion, or prosecution in the courts, against any person, pupil or other, who so interferes with the education of others.

The Board of Education therefore makes it clear that it will support teachers and other staff members who report violations of the school regulations, or violations of their own orders, because such violations do interfere with the rights of others. The disruption of the educational program of the schools by disorder or any other purposeful activity will not be tolerated. The Board of Education will prosecute any unauthorized person who enters upon school property.

For purposes of this policy, disorder shall be any deliberate activity by an individual or a group, whether peaceful or violent, which interferes with the normal operation of the school.

The Board, having the responsibility for providing an educational program for the pupils of this district, shall have the authority to preserve order for the proper functioning of that program.

No pupil shall encourage any other pupil on or off school property to participate in any protest, march, picketing, or similar activities which cause or result in the disruption of any lawful function or activity of the school to which he/she is assigned or any other school in the School System.

Pupils shall not be disturbed in the exercise of their constitutionally guaranteed rights to assemble peaceably and to express ideas and opinions, privately or publicly, provided that such exercise does not infringe on the rights of others and does not interfere with the operation of the schools.

The Board of Education believes that an effective instructional program requires an orderly school environment and that the effectiveness of the educational program is, in part, reflected in the behavior of pupils.

The Board of Education expects pupils to conduct themselves in keeping with their level of maturity, with a proper regard for the rights and welfare of other pupils, for the educational purpose underlying all school activities, and for the care of school facilities and equipment.

The Board of Education believes that standards of pupil behavior must be set cooperatively by interaction among the pupils, parents/guardians, staff and community, producing an atmosphere which encourages pupils to grow in self-discipline. Such an atmosphere must include respect for self and others, as well as for district and community property.

The best discipline is self-imposed, and pupils must learn to assume and accept responsibility for their own behavior, and for the consequences of their misbehavior. Staff members who interact with pupils shall use preventive disciplinary action and place emphasis on the pupils' ability to grow in self-discipline.

The Superintendent of Schools shall develop general guidelines for pupil conduct on school property and shall direct development of detailed regulations suited to the age level of the pupils and the physical facilities of the individual schools.

Board policy requires each pupil of this district to adhere to the rules and regulations established by the administration and to submit to such disciplinary measures as are appropriately assigned for infraction of those rules. The Superintendent of Schools shall provide to pupils and their parents/guardians the rules of this district regarding pupil conduct and the sanctions that may be imposed for breach of those rules. Provisions shall be made for informing parents/guardians whose primary language is other than English.

Pupils who indulge in disruptive behavior will be subject to a progressive discipline code which may lead to suspension or expulsion. Disruptive behavior includes, but is not limited to:

- A. Continued and willful disobedience;
- B. Open defiance of the authority of any teacher or person having authority over a pupil;
- C. Actions that constitute a continuing danger to the physical well-being of other pupils;
- D. Physical assault upon another pupil, a teacher, or any school employee with or without a firearm or other weapon;
- E. Taking, or attempting to take, personal property or money from another pupil whether by force or fear;
- F. Willfully causing, or attempting to cause, substantial damage to school property;

Alternative Classroom Instruction (ACI)

The Board directs the administration to arrange facilities for ACI whenever possible. Pupils will be required to occupy themselves with school-related work during such suspensions. No socializing shall be permitted. Pupils shall be counted as present in school but absent (excused) from individual classes.

General

Pupils on home suspension shall be counted absent (excused) unless the duration of the suspension requires home instruction. Except when special considerations warrant (at the discretion of the administration), every pupil will be given a written warning in the form of a disciplinary notice that subsequent violation of school regulations may result in his/her exclusion or suspension.

Pupils under suspension are prohibited from participating in or attending any school-regulated activity during the period of their suspension. They may not enter the school buildings or grounds of this district without the permission of the Superintendent of Schools. Any pupil under suspension who enters the school buildings or grounds without the permission of the Superintendent of Schools may have the period of his/her suspension extended. The right to continue the suspension or to expel is reserved to the Board of Education, acting upon the recommendation of the administration.

A progress report will be provided annually (at the end of the school year for all expelled students.

Making up Missed Work

Pupils who are under suspension will be required to make up all assignments missed during the period of their suspension and will be given adequate opportunity to make up this work. Upon their readmission, failure to complete the makeup assignments will result in a meeting with the parents/guardians. The school level administrator will notify parents/guardians by telephone and send a letter regarding the telephone conversation immediately.

In developing regulations to implement this policy, the Superintendent of Schools shall provide appropriate recognition for pupils who consistently maintain high standards of self-discipline and good citizenship. The regulations shall:

- A. Require that pupils conform to reasonable standards of socially acceptable behavior; respect the person, property and rights of others, obey constituted authority and respond to those who hold that authority;
- B. Establish the degree of order necessary to the educational program in which pupils are engaged.

Pupils who display chronic behavioral or academic problems may be referred to the child study team by the Superintendent of Schools for possible identification as disruptive or disaffected.

A pupil whose presence poses a continuing danger to persons or property, or an ongoing threat of disrupting the academic process, may be suspended or expelled, following due process.

The hearing shall take place no later than 30 days following the day the pupil is removed from the regular education program and shall be closed to the public.

The Principal shall be responsible for the removal of such students and shall immediately report them to the Superintendent of Schools. The Principal shall also notify the appropriate law enforcement agency of a possible violation of the New Jersey Code of Criminal Justice.

Teaching staff members and other employees of this Board having authority over pupils shall take such lawful means as may be necessary to control the disorderly conduct of pupils in all situations and in all places where such pupils are within the jurisdiction of this Board.

Disabled

Classified pupils are subject to the same disciplinary procedures as nondisabled pupils and may be disciplined in accordance with their IEP. However, before disciplining a classified pupil, it must be determined that:

- B. The program that is being provided meets the pupil's needs.

Staff shall comply with law and the regulations of the New Jersey administrative code in dealing with discipline and/or suspension of classified pupils.

These regulations shall also include safeguards for the dismissal of pupils suspended from school, procedures for calling an immediate conference with parents/guardians, limitations on the length of suspensions, and specifics for the reinstatement of pupils.

Every effort shall be made to assign each suspension promptly so that the pupil can be returned to school with a minimum loss of school time and school work.

When the Superintendent of Schools imposes a suspension, he/she must report it to the Board. No suspension may continue beyond the second regular meeting of the Board following the suspension without Board action. No suspension for assault may be continued beyond 30 days without Board action. A suspended pupil may be reinstated by the Superintendent of Schools before Board action.

Each pupil shall be afforded an informal hearing before the suspension or, if circumstances prohibit, as soon as possible after the suspension except that, when extraordinary circumstances involving the health and safety of the pupil or others in the school require immediate exclusion, the hearing may be delayed to "such time as circumstances permit".

Pupils suspended for a period of time longer than a short-term suspension, (3-9 days), shall be afforded a formal hearing before the Board or Board committee for a disciplinary hearing which shall take place not later than twenty one (21) days after the suspension occurs.

If the offense involves a weapon or assault with or without the weapon (as described above), the hearing shall take place not later than 30 days after the suspension occurs.

The Board or Board committee shall make a decision within five days of the close of the hearing. Any appeal of the Board's decision shall be made to the Commissioner of Education within 90 days of the Board's decision.

The Board or Board committee requires that such hearings shall be closed to the public, but should all parties thereto agree, the hearing may be publicly held. Each suspended pupil who has requested a formal hearing shall be restored to the regular educational program pending the outcome of the hearing, except when, in the opinion of the Superintendent of Schools, the presence of the pupil in school poses such a danger to himself/herself or others as to warrant continued absence.

Each such pupil suspended from the schools of this district shall receive individual instruction commencing not later than two weeks after the suspension occurs, except that the Board may, on the recommendation of the Superintendent of Schools, assign the pupil to an alternate educational program to meet his/her particular needs (see policy #6172).

Expulsion

The Board will consider expulsion only if:

- A. The Superintendent of Schools with his/her staff have exhausted all means of bringing about a correction of repeated misconduct; or
- B. The nature of a single act presents such a clear possibility of danger to others that immediate definitive action is indicated.

The parents/guardians of the pupil shall be interviewed, if possible, and advised of the reasons why expulsion is being considered, of the rights of the pupil to a full hearing which will afford him/her procedural due process, and the right of parents/guardians to appeal to the Superintendent of Schools.

The child shall remain out of school until either:

- A. An appeal made to the Assistant Superintendent is decided in the child's favor; or
- B. The appeal (if made) has been denied and the Board has met to hear the Superintendent of Schools' recommendation.

If the Board determines that the charges, if true, may warrant expulsion, the Board will set a date for the hearing. The Board Attorney will arrange for the giving of legal notice to all parties concerned for the preparation and presentation of evidence in support of the charges at the hearing.

The pupil must receive:

- A. Notification of the charges against him/her;
- B. The names of the adverse witnesses;
- C. Copies of the statements and affidavits of those adverse witnesses;
- D. The opportunity to be heard in his/her own defense;
- E. The opportunity to present witnesses and evidence in his/her own defense;
- F. The opportunity to cross-examine adverse witnesses; and
- G. The opportunity to be represented by counsel.

Juvenile authorities and law enforcement agencies shall be notified or consulted if necessary. If a pupil younger than 18 years of age is expelled, the Board must continue to supply an educational program for him/her.

Implementation

The Superintendent of Schools shall develop detailed written procedures to implement this policy. He/she shall ensure uniform and consistent application of the policy and shall report to the Board as required on its effectiveness. When an alternative educational program is provided for a pupil identified as disruptive but not educationally handicapped, the Superintendent of Schools shall inform the Board.

Use of Reasonable Force/Restraint

The Board of Education believes that maintaining an orderly, safe environment conducive to learning is an expectation of all staff members of the Millville public education system. When their actions comply with state statutes governing physical restraint of students, staff members shall have the full support of the Board of Education in their efforts to maintain a safe environment.

An individual who is a teacher, administrator, school employee, or school volunteer may use and apply such amount of force as is reasonable and necessary to accomplish the following purposes:

- A. To quell a disturbance threatening physical injury to self or others and/or,
- B. For the protection of self, others or public property.

Recognizing the risks in the use of any physical intervention, staff will use physical intervention only in those situations where all other options have been exhausted and where a student (or students) is a danger to self or others. Staff will follow the guidelines and procedures of the Non-violent Crisis Intervention training program which focuses on crisis prevention and the creation of restraint-free environments through a commitment to Care, Welfare, Safety and Security. While restraint as an intervention is considered a last resort, these procedures are taught as part of a program to provide staff with skills and confidence to safely manage emergency situations.

Within a reasonable time after a teacher or other staff member uses force or physical intervention with a student, the teacher or other staff member shall report the incident to the Principal or the Principal's designee. The Principal or the Principal's designee shall notify the student's parents or guardians of the incident.

Vandalism

The Board of Education views vandalism against school property by pupils as reprehensible. The causes of such misbehavior often are complex, calling for careful study by parents, school staff and appropriate community officials.

The Board believes that pupils should respect property and take pride in the schools of this district. Whenever a pupil has been found to have done willful and malicious damage to property of the Board, the Superintendent of Schools shall notify the Board. The Board will hold the pupil or his/her parents liable for the damage caused by him/her.

The Superintendent of Schools shall develop general guidelines for pupil conduct in classrooms, hallways, on school grounds, and in school owned and sponsored vehicles, he/she shall also oversee the development of detailed rules governing and maintaining appropriate student behavior.

Accordingly, when vandalism is discovered, the administrator is directed to take such steps as are necessary to:

- A. Identify the pupils involved;
- B. Call together persons, including the parents, needed to study the causes;
- C. Decide upon disciplinary and/or legal action possibly including suspension. Should parents fail to cooperate in the discussions, the administration may charge the pupil with being delinquent by a petition stating the offense and requesting appearance in juvenile court;
- D. Take any constructive actions needed to try to guard against further such pupil misbehavior;
- E. Seek appropriate restitution.

Violence

Physical violence against another pupil or a staff member is unacceptable conduct and will result in the disciplinary sanctions included in policies on suspension and discipline/punishment. Disruptive behavior that is characterized by verbal or physical violence, even though not directed toward another person, should be reported by the classroom teacher, to the Superintendent of Schools, so that possible program adjustments may be identified.

Reporting

Any school employee observing or having direct knowledge from a participant or victim of an act of violence in the School System should complete the standard report form and submit it to the Superintendent of Schools who is responsible for preparing the official report.

It is the responsibility of the Board of Education to safeguard the health, character, citizenship, and personality development of the students in its schools. We, therefore, must maintain that the use of drugs and the unlawful possession and use of alcohol is wrong and harmful. The Board of Education recognizes that the misuse of drugs, alcohol, tobacco or steroids threatens the positive development of that student and the welfare of the entire school community. The Board of Education is committed to the prevention of drug, alcohol, tobacco and steroid abuse and the rehabilitation of identified abusers.

Students

For the purpose of this policy, "drug" includes all controlled dangerous substances set forth in NJSA 24:21-1 et seq. and all chemicals that release toxic vapors set forth in NJSA 2C:35-10.4 et seq.

- A. The Board of Education prohibits the use, possession and/or distribution of any drug, alcohol, tobacco, or steroids on school premises, and at any event away from the school provided by the Board. Compliance with a drug-free standard of conduct at all school functions is mandatory for all students. Pupils suspected of being under the influence of drugs, alcohol, tobacco, or steroids will be identified, evaluated, and reported in accordance with the law. Assessment will be provided by individuals who are certified by the New Jersey State Board of Examiners as substance awareness coordinators or by individuals who are appropriately certified by the New Jersey Board of Examiners and trained in alcohol and other drug abuse prevention. A pupil who uses, possesses, or distributes drugs, alcohol, tobacco or steroids on school premises or while attending a school-sponsored activity will be subject to discipline, that may include suspension or expulsion, and may be reported to appropriate law enforcement personnel. Pupils suspected of involvement with alcohol, drugs or steroids away from school premises will be offered appropriate treatment and remediation. Treatment services for students who are affected by alcohol or other drug use will be provided by individuals who are certified as substance awareness coordinators or who are otherwise appropriately trained in drug and alcohol prevention, intervention, and follow-up.
- B. The Board will enforce the laws of New Jersey requiring a program of drug, alcohol, tobacco and steroid education. The Superintendent of Schools shall prepare and submit to the Board for its approval a comprehensive curriculum for such instruction in grades seven through 12 offering a minimum of 10 clock hours per school year of alcohol and other drug education in accordance with Department of Education chemical health guidelines, pursuant to NJSA

18A:40A-1 et seq. Drug, alcohol, tobacco and steroid education shall be integrated with the health curriculum. Additionally, the district will offer a special class or course designed to meet the needs of pupils with alcohol or other drug use problems.

- C. All district personnel shall be alert to signs of alcohol, drug, tobacco and steroid use by pupils and shall respond to those signs in accordance with procedures established by the Superintendent of Schools. The Board of Education will provide inservice training to assist teaching staff members in identifying the pupil who uses drugs, alcohol, tobacco and/or steroids, and in helping pupils with drug, alcohol, tobacco and steroid-related problems in a program of rehabilitation. The Board directs the establishment of a program designed to provide short-term counseling and support services for pupils who are in care or returning from care for alcohol and other drug dependencies. The district shall establish a parent/guardian substance abuse program offered at times and places convenient to the parents/guardians of the district on school premises or other facilities.
- D. The Superintendent of Schools shall develop administrative regulations for:
 - A comprehensive program of drug, alcohol, tobacco and steroid education;
 - The identification and remediation of pupils involved with drugs, alcohol, tobacco and steroids;
 - The examination and treatment of pupils suspected of being under the influence of drugs, alcohol, tobacco or steroids to determine the extent of the pupil's drug or alcohol use or dependency;
 - The treatment and discipline of pupils who use, possess or distribute drugs, alcohol, tobacco and steroids in violation of law or this policy through referral to an appropriate drug/alcohol abuse program as recommended by the department of health; and
 - The readmission to school and treatment of pupils who have been convicted of drug, alcohol, tobacco and/or steroid offenses.
- E. The Board of Education shall establish an annual process to review the effectiveness of its alcohol and other drug policies and procedures. The Board of Education shall solicit community input as well as consult with local agencies recommended by the NJ State Department of Health in the review process. Alcohol and other drug policies and procedures for discipline, evaluation, and treatment of pupils shall be made available annually to all school staff, pupils, and parent/guardians. This policy shall be in each building, and notification of its availability shall appear annually in the parent's handbook.
- F. Any staff member who reports a pupil to the Principal or his/her designee in compliance with the provisions of this subsection shall not be liable in civil damages as a result of making such a report as provided for under NJSA18A:40A-1 et seq.
- G. All policies and procedures must comply with the confidentiality requirements established in federal regulation found at 42 CFR Part II. Substance abuse in the district is considered a health risk. It is the expressed position of the district that when school rules have been violated, and when a student's health is at risk, we must notify the

student's parents/guardians and attempt to involve the family in the rehabilitation plan subject to the confidentiality restrictions of 42 CFR Part II.

- H. Refusal or failure by a parent/guardian to comply with the provisions of NJSA 18A:40A-12 shall be deemed a violation of the compulsory education (NJSA 18A:38-25 and 18A:38-31) and/or child neglect (NJSA 9:6-1 et seq.) laws.

Enforcement of Drug-free School Zones

The Board of Education recognizes its responsibility to ensure continuing cooperation between school staff and law enforcement authorities in all matters relating to the use, possession, and distribution of controlled dangerous substances and drug paraphernalia on school property. The Board further recognizes its responsibility to cooperate with law enforcement authorities in planning and conducting law enforcement activities and operations on school property. The Board shall, therefore, establish a formal Memorandum of Agreement with the appropriate law enforcement authorities and set forth the following policies and procedures after consultation with the county prosecutor and approval by the county Superintendent of Schools of schools. The Memorandum of Agreement shall be consistent with the Uniform State Memorandum of Agreement Between Education and Law Enforcement Officials (1999 Revisions).

Law Enforcement Liaison

In order to ensure that such cooperation continues, the Board directs the Superintendent of Schools to designate a school district liaison(s) to law enforcement agencies and to prescribe the roles and responsibilities of the school liaison(s). Such assignment shall be in accordance with the district's collective bargaining agreement, if applicable.

Undercover Operations

The Board hereby recognizes that the Superintendent of Schools may request that law enforcement authorities conduct an undercover operation in the school if he/she has reason to believe that drug use and/or drug trafficking is occurring in the school and that a less intrusive means of law enforcement intervention would be ineffective. The Board hereby authorizes the Superintendent of Schools to request such intervention under these circumstances. The Board recognizes that the Superintendent of Schools is not permitted to ask the Board's approval for his/her action and is not permitted to discuss any aspect of the undercover operation until authorized to do so by law enforcement authorities.

The Board recognizes that law enforcement authorities may contact the Superintendent of Schools to request that an undercover operation be established in a district school. The Board recognizes that the Superintendent of Schools is prohibited from discussing the request with the Board. The Board hereby authorizes the Superintendent of Schools to act upon any such request in the manner that he/she determines is in conformity with the law and the Attorney General's Executive Directive 1988-1 and that is in the best interests of the students and the school district.

The Board directs the Superintendent of Schools and school Principal to cooperate with law enforcement authorities in the planning and conduct of undercover school operations. The Superintendent of Schools, Principal, or any other school staff or district Board member who may have been informed about the undercover operation is required to immediately communicate information to the county prosecutor or designee if the integrity of the undercover school operation has been compromised in any way.

At the completion of an undercover operation in a school, and with the consent of the appropriate law enforcement authority, the Superintendent of Schools shall report to the Board regarding the nature of the operation, the result of the operation, and any serious problems encountered during the operation.

Summoning Law Enforcement Authorities onto School Property for the Purpose of Conducting Investigations, Searches, Seizures & Arrests

Any school employee who has reason to believe a student(s) or a staff member(s) is using or distributing controlled dangerous substances, including anabolic steroids, or drug paraphernalia on school premises shall bring that information to the school Principal who, in turn, shall report same to the Superintendent of Schools. The Superintendent of Schools shall immediately report that information to the appropriate law enforcement agency. If, after consultation with the law enforcement official, it is determined that further investigation is necessary, the Superintendent of Schools will cooperate with the law enforcement authorities in accordance with the law and administrative code. He/she will provide the officials with a room in an area away from the general student population in which to conduct their law enforcement duties. If law enforcement officials do not choose to investigate the incident, the Superintendent of Schools may continue the investigation to determine if any school rules have been broken and whether any school discipline is appropriate.

If an arrest is necessary, and no exigent circumstances exist, the Superintendent of Schools and staff will cooperate with the law enforcement officials and provide them access to the office of a school administrator or some other area away from the general student population. Every effort shall be made to enable law enforcement personnel to carry out the arrest in a manner that is least disruptive to the educational environment. The Superintendent of Schools or the Principal shall immediately notify the student's parent/guardian whenever a pupil is arrested for violating any laws prohibiting the possession, use, sale, or distribution of any controlled substance or drug paraphernalia.

Whenever the police have been summoned to a school building by the Superintendent of Schools, the Superintendent of Schools shall report the reason the police were summoned and any pertinent information to the Board at its next regular meeting. If confidentiality is required, the report shall be made in executive session.

Student Searches and Securing Physical Evidence

The Principal or his/her designee may conduct a search of a student's person or belongings if the search is necessary to maintain discipline and order in the school, and the school official has a reasonable suspicion that the student is concealing contraband. All searches and seizures conducted by designated school staff shall comply with the standards prescribed by the United States Supreme Court in New Jersey v. T.L.O., U.S. 325 (1985), and the New Jersey School Search Policy Manual.

If, as a result of the search, a controlled dangerous substance or drug paraphernalia is found, or if a controlled dangerous substance or drug paraphernalia is by any means found on school property, the individual discovering the item or substance shall immediately notify the building Principal; the Principal shall immediately notify the Superintendent of Schools who shall immediately, in turn, notify the appropriate law enforcement agency. The Principal shall ensure that the controlled or dangerous substance and/or drug paraphernalia is labeled and secured in a locked cabinet or desk until law enforcement officials pick it up. The Principal shall then contact the student's parents/guardians to inform them of the occurrence.

Whenever law enforcement officials have been called into the school, and a search of a student's person or belongings is necessary, or an interrogation is to be conducted, the Superintendent of Schools shall request that the law enforcement officials conduct the search, seizure, or interrogation.

Police Presence at Extracurricular Activities

The Superintendent of Schools is hereby authorized to contact the appropriate law enforcement agency and arrange for the presence of an officer(s) in the event of an emergency or when the Superintendent of Schools believes that uniformed police presence is necessary to deter illegal drug use or trafficking or to maintain order or crowd or traffic control at a school function.

Resolving Disputes Concerning Law Enforcement Activities

The Board authorizes the Superintendent of Schools to contact the chief executive officer of the law enforcement agency involved with any dispute or objection to any proposed or ongoing law enforcement operation or activity on school property. If for any reason the dispute or objection is not satisfactorily resolved with the chief executive officer of the agency, the Superintendent of Schools shall work in conjunction with the county prosecutor and, where appropriate, the division of criminal justice to take appropriate steps to resolve the matter. Any dispute that cannot be resolved at the county level shall be reported to the Board and shall be resolved by the attorney general whose decision will be binding.

Confidentiality of Pupil Involvement in Intervention & Treatment Programs

Nothing in this policy shall be construed in any way to authorize or require the transmittal of any information or records that are in the possession of a substance-abuse counseling or treatment program including, but not limited to, the school district's own substance abuse

Inservice Training

The Superintendent of Schools will ensure that all district employees receive annual inservice training to make them aware of their responsibilities in accordance with Board policies and NJAC 6A:16-3.1.

Annual Review

The Board will review annually the effectiveness of these policies and the Memorandum of Agreement entered into with the appropriate law enforcement agency. As part of this review, the Board will consult with the county Superintendent of Schools, local community members, and the county prosecutor's office.

- E. The student, who is awaiting a medical examination shall be supervised by the Principal or Principal's designee through the entire testing process, this includes:
- while waiting for a parent to take the student to the physician selected by the parent
 - while the student is waiting for and receiving the medical examination by the school physician or an emergency room
 - provisions shall be made for the appropriate care of the student while awaiting the results of the medical examination.

The approved examination may be performed by the student's own physician licensed to practice medicine or osteopathy. If this is not possible, the examination shall be conducted by the school physician. If the school physician is not available, the student shall be accompanied by a member of the school staff (a female should accompany female students), designated by the principal, to the emergency room of the nearest hospital for examination.

If available, a parent or legal guardian should accompany the student, but this is not necessary if the parents/ legal guardians cannot be reached.

Such verification shall include, at a minimum, the signature, printed name, address and phone number of the examining physician indicating the report required is pending, and the date by which the report will be provided. (N.J.S.A. 18A:40A-12)

Refusal or failure by a parent to comply with this requirement shall be treated as a policy violation and handled in accordance with the provisions of N.J.S.A. 18A:38-25 and 31 (Compulsory Education Act), and child neglect laws, pursuant to N.J.S.A. 9:6-1 et. seq.

- K. If there is a positive determination from the medical examination, indicating that the student's alcohol or other drug use interferes with his or her physical or mental ability to perform in school:
 - The student shall be returned to the care of a parent as soon as possible.
 - Attendance at school shall not resume until a written report has been submitted to the parent, the Principal and the Superintendent of Schools from a physician licensed to practice medicine or osteopathy who has examined the student to determine whether alcohol or other drug use interferes with his or her physical or mental ability to perform in school (The school physician may perform the examination, if the parent/legal guardian is unable to afford the cost of the medical examination).
 - The report shall verify that the student's alcohol or other drug use no longer interferes with his or her physical or mental ability to perform in school; and

- If a student refuses to comply with the medical examination and urine drug screen, he/she shall be returned to the care of a parent /legal guardian as soon as possible. The policy violation shall be handled according to the district discipline policy. If the urine drug screen was not obtained prior to disciplinary actions, the student must have a chain of custody urine drug at the school physician's office or an approved chain of custody drug testing laboratory. A medical examination must also be completed.
 - Attendance at school shall not resume until a written report has been submitted to the parent, the Principal and the Superintendent of Schools from a physician licensed to practice medicine or osteopathy who has examined the student to determine whether alcohol or other drug abuse interferes with his or her physical or mental ability to perform in school (The school physician may perform the examination, if the parent/legal guardian is unable to afford the cost of the medical examination).
 - The results of the urine drug screen must accompany the medical examination report.
- L. In no case will the discipline of a student result in the loss of the educational program, except in the case of an expulsion. In all other disciplinary situations, the student will be allowed to maintain his/her educational program. In the case of suspension, in or out of school, homework will be provided by the student's teacher(s) within a reasonable time following the suspension. Should the student's educational process be threatened, the student will be placed on home instruction until the case is resolved and he/she is allowed to re-enter school, be otherwise placed or expelled.
- M. While the student is at home because of the medical examination or after the student returns to school, a substance awareness coordinator or individual who hold school nurse, school psychologist, school social worker, or student personnel services endorsements on the Educational Services Certificate and are trained to assess alcohol and other drug abuse shall:
- Conduct an alcohol and other drug assessment of the student and a reasonable investigation of the situation for the purpose of making a preliminary determination of the student's need for educational programs, supportive services or treatment which extend beyond the general school program by virtue of the use of alcohol or other drugs by the student. The findings of these additional evaluations alone shall not be used to prevent a student from attending school; and
 - Prior to the initial meeting with a student, a counselor will provide full disclosure, orally and in writing, of the Federal Confidentiality laws and guidelines (42 CFR Part 2) and have the student sign that he/she has received a copy of the regulations. The counselor will be permitted to maintain confidentiality of conversations with students except when
 - a) the student's life is in imminent danger;

- b) the information makes the counselor an accessory to an illegal action which has taken place on school premises or against school district personnel
- c) the information indicates that the life of another individual is in imminent danger.

The student's age, quantity, frequency of drug/alcohol use, and the length of time a student continues to use substances should be given consideration when a decision to initiate a referral to a school-based program, inpatient treatment, a community agency, or parent/guardian contact is being determined.

The Student Assistance Counselor (SAC) shall meet regularly with the Intervention and Referral Service Team (I&RS) making them aware of the status of all active cases. Any individual team member may continue to work with a student seeking help voluntarily for an extended period of time. However, when the I&RS team agrees that no progress is apparent and professional enabling becomes a factor, the I&RS Team will review the case to determine the next most appropriate course of action.

- Cooperate with community agencies as defined in N.J.A.C. 6A:16-4.1(b) and juvenile justice officials in providing evaluation, referral and continuity of care for substance abuse treatment. The Board will provide guidance and resource information for treatment facilities where parents/guardians might obtain admission for their child.

The student must present written documentation to the Principal that the first available appointment for assessment has been made and what that date is as well as who will be performing the assessment. If the assessment signifies that the student requires treatment for his/her abuse of drugs /alcohol, the student must be enrolled in a treatment program in a timely manner, or be subject to further disciplinary action and/or Board review.

The Board of Education reserves the option of requiring an evaluation for treatment changes or further treatment at an outside treatment agency at a later date, if substance abuse continues, increases, questionable behavior occurs or a deteriorating condition is noted. Those students who are non-compliant will be subject to dismissal or referral to the New Jersey Division of Child Protection & Permanency (DCP&P) and/ or a Board of Education Disciplinary hearing.

- N. Students enrolled in a approved outpatient treatment program may continue to attend school only as long as participation in the outpatient treatment program can be documented. Documentation must be presented weekly to the Substance Awareness Coordinator. The Substance Awareness Coordinator will monitor compliance, and provide a weekly written update of these students to the Principal/Vice Principal of Discipline.

Parents/Guardians and the student shall be required to sign a Release of Confidential Information Form to allow the school and the treatment program to communicate about the student's progress.

Parents/Guardians of compulsory school age children who, upon the school's recommendation, fails to enroll their child in a treatment program shall have a report of alleged neglect filed with the New Jersey Division of Child Protection & Permanency (DCP&P), pursuant to N.J.S.A. 9:6-1 et seq.

- Should a parent/guardian arrange either inpatient or outpatient treatment for their child and the child refuses care, legal avenues must be pursued to allow the legal system to mandate treatment.
 - If the parent/guardian refuses to pursue legal options to establish treatment, a report shall be filed with the New Jersey Division of Child Protection & Permanency (DCP&P) for alleged neglect, pursuant to N.J.S.A. 9:6-1, et seq. A referral will be made to the Child Study Team to determine the student's eligibility for home instruction or for a Section 504 Plan of Accommodation and/or related services.
- O. When a student returns to school after in-patient treatment, a conference will be held with the student, the Student Assistance Coordinator and the parents. At this conference all after-care requirements will be discussed with special emphasis on the role of the school to support the student in his/her recovery.

Anabolic Steroids

Also, if a student is found to be selling drugs, law enforcement officials will be notified and a formal complaint filed. Law Enforcement Liaison

In order to ensure that such cooperation continues, the Board directs the Superintendent of Schools to designate a school district liaison to law enforcement agencies and to prescribe the rules and responsibilities of the school liaisons. Such assignment shall be in accordance with the district's collective bargaining agreement, if applicable.

Undercover Operations

The Board hereby recognizes that the Superintendent of Schools may request that law enforcement authorities conduct an undercover operation in the school if he/she has reason to believe that anabolic steroid, alcohol, or other drug use and/or trafficking of the same is occurring in the school and that a less intrusive means of law enforcement intervention would be ineffective. The Board hereby authorizes the Superintendent of Schools to request such intervention under these circumstances. The Board recognizes that the Superintendent of Schools is not permitted to discuss any aspect of the undercover operation until authorized to do so by law enforcement authorities.

The Board recognizes that law enforcement authorities may contact the Superintendent of Schools to request that an undercover operation be established in a district school. The Board recognizes that the Superintendent of Schools is prohibited from discussing the request with the Board. The Board hereby authorizes the Superintendent of Schools to act upon any such request in the manner that he/she determines is in conformity with the law and the Attorney General's Executive Directive 1988-1 and that is in the best interest of the students and the school district.

The Board directs the Superintendent of Schools to cooperate with the law enforcement authorities in the planning and conduct of undercover school operations. The Superintendent of Schools or any other school staff or district Board member who may have been informed about the undercover operation is required to immediately communicate information to the County Prosecutor or designee if the integrity of the undercover school operation has been compromised in any way.

At the completion of an undercover operation in a school, and with the consent of the appropriate law enforcement authority, the Superintendent of Schools shall report to the Board regarding the nature of the operation, the result of the operation, and any serious problems encountered during the operation.

The Board shall be advised regarding the nature of the operation, the result of the operation, and any serious problems encountered during the operation.

Any school employee who has a reason to believe a student or staff member is using or distributing anabolic steroids, controlled dangerous substances or drug paraphernalia on school premises shall bring that information to the Superintendent of Schools and the Superintendent of Schools shall immediately report that information to the appropriate law enforcement agency. If, after consultation with the law enforcement official, it is determined that further investigation is necessary, the Superintendent of Schools will cooperate with the law enforcement authorities in accordance with the law and Administrative Code. He/she will provide the officials with a room in an area away from the general student population in which to conduct their law enforcement duties. If law enforcement officials do not choose to investigate the incident, the Superintendent of Schools may continue the investigation to determine if any school rules have been broken and whether any school discipline is appropriate.

If an arrest is necessary, and no exigent circumstances exist, the Superintendent of Schools and staff will cooperate with the law enforcement officials and provide them access to the office of a school administrator or some other area away from general student population. Every effort shall be made to enable law enforcement personnel to carry out the arrest in a manner that is least disruptive to the educational environment, the Superintendent of Schools shall immediately notify the student's parent or guardian whenever a pupil is arrested for violating any laws prohibiting the possession, use, sale or distribution of any controlled substance, drug paraphernalia, alcoholic beverages, or anabolic steroids.

If confidentiality is required, the report shall be made in executive session.

Whenever law enforcement officials have been called into the school, and a search of a student's person or belongings is necessary, or interrogation is to be conducted, the Superintendent of Schools/designee shall request that the law enforcement officials conduct the search, seizure or interrogation.

Police Presence at Extracurricular Activities

The Superintendent of Schools/designee is hereby authorized to contact the appropriate law enforcement agency and arrange for the presence of officers in the event of an emergency or when the Superintendent of Schools believes that uniformed police presence is necessary to determine illegal drug use or trafficking or to maintain order or crowd or traffic control at a school function.

Resolving Disputes Concerning Law Enforcement Activities

The Board authorizes the Superintendent of Schools to contact the Chief Executive Officer of the law enforcement agency involved with any dispute or objection to any proposed or ongoing law enforcement operation or activity on school property. If, for any reason, the dispute or objection is not satisfactorily resolved with the Chief Executive Officer of the agency, the Superintendent

of Schools shall work in conjunction with the County Prosecutor and, where appropriate, the Division of Criminal Justice to take appropriate steps to resolve the matter.

Any dispute that cannot be resolved at the county level shall be reported to the Board and shall be resolved by the Attorney General whose decision will be binding.

Confidentiality of Pupil Involvement in Intervention and Treatment Programs

Nothing in this policy shall be construed in any way to authorize or require the transmittal of any information or records that are in the possession of a substance-abuse counseling or treatment program including, but not limited to, the school districts own substance abuse programs. The Board of Education prohibits the possession and/or use of weapons or other instruments that can be used as a weapon or perceived as a weapon on school property, at any school function or while en-route to or from school or any school function. A violation of this policy will result in disciplinary action.

The Superintendent of Schools shall make the final determination that a particular object is a dangerous instrument in any case where there is a question of its possessor uses posing a threat to students, staff or property.

A student found or observed on school property or at a school event or en-route to and/or from school or a school event in possession of a weapon or dangerous instrument shall be reported to the Superintendent of Schools immediately. The Superintendent of Schools shall immediately contact the NJ State Police and provide all known information concerning the matter, including the identity of the pupil involved.

Possession or use of laser pointers is also strictly forbidden.

Disciplinary action shall be taken against who possess, handle, transmit or use weapons, imitation weapons or dangerous instruments. As in disciplinary cases, due process will be provided.

Students cannot learn and teachers cannot teach when danger of violence is present. Accordingly, P.L. 127 and P.L. 128 were developed in order to prevent assaults with weapons from being committed upon students and teachers and to remove students from school who are found to be in possession of firearms because both of these laws carry severe mandatory penalties, it is very important that we all understand what acts are prohibited and the penalties that will be imposed on those who violate the laws.

P.L. 127, also known as the “Zero Tolerance for Guns Act” mandates that any pupil who is convicted or adjudicated delinquent for the possession of a firearms or a crime while armed with a firearm, or who is knowingly in possession of a firearms on any school property; on a school bus, or at any school sponsored function shall be immediately removed from the school’s regular education program, pending a hearing before the local Board of Education, for a period of not less than one calendar year. In addition, any pupil so removed shall be reported to the police for a possible violation of a criminal statute. It is important to note that items such as pellet guns and air guns are considered as a firearm for the purpose of this law.

P.L. 128 provides that any pupil who commits an assault upon a teacher, administrator or other employee of a school Board or another student with a weapon, on a school bus or on school property, or at any school sponsored function shall be immediately removed from the school's regular education program, pending a hearing before the local Board of Education for a period not to exceed one calendar year. It is important to note that the word weapon as it is used in this law, includes numerous items such as knives, sling- shots, throwing starts, blackjacks, tear gas or even a common kitchen knife, if it is used during an assault.

The Board is committed to maintaining a safe and orderly learning environment for our students and staff. It is important that our school community clearly understand the laws and that they will, when necessary, be enforced.

Fireworks

Fireworks are illegal in the State of New Jersey. Therefore, no fireworks will be allowed at school or on school properties. Fireworks are considered dangerous and will be treated in the same manner as weapons.

Physical Restraint of Students by Staff Members

Policy 5131.75

Date Adopted: January 9, 2012

Date Revised:

Page 1 of 3

The goal of Millville School district is to provide a safe, caring atmosphere that supports all learners in the least restrictive environment. The Millville School District recognizes that on occasion, a situation may arise in which some students attending our district will exhibit behaviors that are disruptive to the social and educational environment of the school; and thus, are a danger to themselves and others and reduce the student's potential for learning. This policy applies to all, including general education students and students with disabilities. It should also be noted that nothing in the policy precludes a teacher or other staff member using reasonable force to protect students, themselves, or other persons from assault or imminent, serious physical harm.

Restraints are only to be used in an emergency. For the purpose of this policy, emergency is defined as a situation in which a student's behavior poses a threat of imminent, serious physical harm to the student or others or eminent serious property destruction.

The restraint procedure falls within a continuum of behavior management techniques that are designed to address potentially unsafe student behavior. This continuum begins with minimally intrusive or restrictive strategies that can be implemented within the classroom setting. The continuum then progresses to more restrictive strategies that may involve the physical separation or restraint of a student. The goal is minimal separation for his/her classmates in order to enable the student to regroup and return to the classroom setting.

The primary intervention options used by staff when a student exhibits escalating, disruptive behavior should focus on assisting the student in regaining behavioral control. These options include:

- verbally redirecting student in a low, nonthreatening voice;
- setting reasonable limits;
- offering alternatives;
- allowing time so that the student can regain control.

Restraint does include momentary periods of physical restriction by direct person-to-person contact without the aid of material or mechanical devices that is accomplished with limited force and designed to prevent a student from completing an act that would result in potential physical harm to himself/herself or another or damage property or to remove a disruptive student who is unwilling to leave an area voluntarily. Physical prompting to assist a student in task completion, such as holding a student's hand, positioning a student's body, securing a student on the bus, or using prescribed adaptive equipment to prevent ongoing, repetitive, self injurious behavior are not considered to be restraint. Restraint shall only be used with the following limitations:

Millville Board of Education District Policy Manual

Students

Physical Restraint of Students by Staff Members

Series 5000

Policy 5131.75

Page 2 of 3

1. Limited to the use of only the reasonable force needed;
2. Discontinued immediately when the emergency no longer exists;
3. Implemented in such a way as to protect the health and safety of the students and others; and,
4. Does not deprive the student of basic human necessities.

The use of physical restraints is prohibited in the following circumstances:

1. As a means of punishment;
2. As an intervention to property destruction, unless the potential property destruction may result in possible harm to self and/or others;
3. As a response to verbal threats, disruptive behavior or a student's refusal to comply with a school rule or staff directive, unless the student's behavior poses an immediate or serious danger to self and/or others.

In accordance with NJSA 18 A:6-1, no person employed or engaged in school or educational instruction, whether public or private, shall inflict or cause to be inflicted corporal punishment upon a pupil attending such school or institution; but any such person may, within the scope of his/her employment, use and apply such amount of force as is reasonable and necessary:

The use of physical restraint is subject to the following requirements:

1. The student must possess a physical risk to himself/herself or others or to quell a disturbance, with the intent of threatening physical injury to others;
2. To obtain possession of weapons or other dangerous objects upon the person or within the control of a pupil, or to prevent significant property damage which ultimately may present harmful to the student or others;
3. For the purpose of self-defense;
4. Restraint techniques will take into account medical conditions and shall be modified as necessary;
5. Students will not be subject to physical restraint for using profanity or other verbal displays or disrespect or for noncompliance. A verbal threat will not be considered as constituting a physical danger unless a student also demonstrates a means of, or intent to, carry out the threat;
6. In determining whether a student who is being physically restrained should be removed from the area where the restraint was initiated, the supervising staff member should consider the potential for injury to the student, the student's need for privacy and the educational and emotional well-being of the other students in the vicinity;

Millville Board of Education District Policy Manual

Students

Physical Restraint of Students by Staff Members

Series 5000

Policy 5131.75

Page 3 of 3

7. A student shall be released from physical restraint immediately upon a determination by the staff member administering the restraint that the student is no longer in imminent danger of causing harm to himself/herself or others;
8. The student shall be examined by school personnel (i.e. nurse, counselor, administrator, etc.) after any restraint;
9. The school principal, or acting school administrator will be notified immediately when a student is being restrained, or immediately following the conclusion of the restraint.
10. A written incident report will be completed by school personnel (teacher, nurse, counselor, administrator, etc.) after a physical restraint is implemented. Parents are to be notified by telephone and provided with a copy of the report. The report must also be maintained in the student's permanent record.

Annually, the Superintendent of Schools/designee shall provide training for all staff members dealing with the appropriate use of physical restraint of students.

Copies of this policy will be included in staff and student handbooks.

The Board of Education prohibits acts of harassment, intimidation or bullying against any pupil.

A safe and civil environment in school is necessary for pupils to learn and achieve. High academic standards; harassment, intimidation or bullying, like other disruptive or violent behaviors, is conduct that disrupts both a pupil's ability to learn and a school's ability to educate its pupils in a safe environment; and since pupils learn by example, school administrators, faculty, staff and volunteers should be commended for demonstrating appropriate behavior, treating others with civility and respect, and refusing to tolerate harassment, intimidation or bullying.

For the purposes of this policy, "harassment, intimidation or bullying" means any gesture or written, verbal or physical act or any use of an electronic communication device directed at a student that takes place on or off school grounds, at any school-sponsored function, or on a school bus as provided for in section 16 of P.L.2010, c.122 (C.18A:37-15.3 that:

- A. Targets a student and which may affect his/her educational program;
- B. Substantially disrupts, infringes or interferes with the orderly operation of the school or the rights of other students;
- C. Creates a hostile educational environment for a student(s) by infringing and/or interfering with a student(s)' education;
- D. Severely or pervasively causes physical or emotional harm to a student(s);
- E. Is motivated by any actual or perceived characteristic, such as race, color, religion, ancestry, national origin, gender, sexual orientation, gender identity and expression, or a mental, physical or sensory disability; or,
- F. By any other distinguishing characteristic; and
- G. A reasonable person should know, under the circumstances, that the act(s) will have the effect of harming a pupil or damaging the pupil's property, or placing a pupil in reasonable fear of harm to his person or damage to his property; or
- H. Has the effect of insulting or demeaning any pupil or group of pupils in such a way as to cause substantial disruption in, or substantial interference with, the orderly operation of the school.

For the purposes of this policy and as defined in NJSA 18A:37-15.1, an electronic communication device is, "A communication transmitted by means of an electronic device, including, but not limited to, a telephone, cellular phone, computer or pager."

- E. Biker shorts, (spandex material, etc.) tights, leggings/stretch nylon, may only be worn if tops cover the hip area. Boxer shorts will not be permitted as outer garments.
- F. Students may not wear headgear in school unless approved for medical or religious reasons, except for special school events.
- G. All pants are to be properly worn at the waist with no "slacking."
- H. Straps on bib overalls are to remain buckled.

In addition, the School Nurse will instruct those teachers from whose classrooms a pupil has been excluded about the symptoms of the disease for which the pupil was excluded.

No teacher shall attempt to diagnose any illness of a pupil but shall refer suspected cases to the nurse.

Any pupil who appears to be ill or who is suspected of having a communicable disease shall be excluded from school or isolated at school to await instructions from or the arrival of an adult member of the pupil's family, the School Physician, and/or the School Nurse.

Where there is evidence of departure from normal health of any pupil, or if a pupil has been exposed to a communicable disease, or if the presence of the pupil in the school is detrimental to the health or cleanliness of the pupils or staff members in the school:

- A. The Superintendent of Schools, upon the recommendation of the School Nurse or School Physician, may exclude the pupil from school.
- B. In the absence of the School Nurse or School Physician, the Administrator, may exclude the pupil from the school. In this event, the person making the exclusion must immediately notify the Superintendent of Schools.
- C. The Administrator shall notify the pupil's parent of the reason for the exclusion.

A pupil retained at home or excluded from school shall not be readmitted to school until written evidence is presented of being free of the reason for the exclusion. Such evidence may be by a qualified physician, or School Physician who has examined the pupil.

The rules of the local Board of Health or State Department of Health, State Board of Education, or in the absence of these, the rules of the School Physician pertaining to communicable disease shall apply in determining periods of incubation, communicability, quarantine, and reporting.

Date Adopted: June 17, 2013

Page 1 of 2

No one other than the Building Principal or the Superintendent of Schools shall exercise the authority to direct a student to return or to be returned home during the school day.

In cases of illness, the nurse should recommend the necessary action to the appropriate Administrator. In the absence of the Administrator, the nurse shall exercise his/her own judgment but notify the central office of his/her action immediately.

In cases of gross misbehavior, inappropriate dress or other alleged rule infractions, teachers, counselors and other professional personnel are obligated to report to the Administrator. They shall not initiate punitive action such as exclusion or suspension from class.

Under no circumstances shall non-professional personnel recommend or execute a particular course of action in the handling of pupils.

If the Administrator determines that a pupil must, for any reason, be returned home during the school day, he/she shall first contact the parent and request that the pupil be picked up. If this is not possible, the student should be transported home by school personnel (i.e. illness, accident, disciplinary action, emergencies.) Under no circumstances shall a student be left at home unless the parent, guardian, or some other adult is home to assume full responsibility for the child.

Personnel available to transport students home include:

- Superintendent of Schools
- Principal
- Director of Special Education
- School Nurse

In the absence of the Principal, secretarial and custodial personnel shall proceed in the following manner:

- Call the Superintendent of Schools or Building Principal for direction or for authority to act.
- Call the school nurse for illness and accident cases; then notify the Superintendent of Schools or Building Principal immediately.
- In discipline cases, or cases involving inappropriate school attire, keep the child in the classrooms or close by, under the supervision of the teacher until the Administrator arrives. If the problem of misbehavior is sufficiently severe to warrant exclusion from the class, the child should be retained in the office until the Administrator arrives.

The importance of professionals at all levels acting in emergencies and doing so with only their experience, intelligence and good judgment to guide them is recognized. Further, prompt and responsible action is encouraged. It is extremely important however, that sound procedures be followed and that proper administrative personnel be notified when problems arise. This will enhance the chances of the right thing being done for children and insure adequate support for action taken if and when disputes arise.

Suicide or Sudden Death

The Board of Education recognizes that the rate of self-destructive behavior is increasing among children and adolescents in this country. Pupils who experience depression are unable to benefit fully from the educational program of the school. Moreover, a pupil who attempts suicide poses a danger both to self and possibly to others.

Therefore, the Board of Education directs that all school personnel should be alert to the warning signs of childhood and adolescent suicide and the procedures to follow in the event of an actual attempt or completion. Such signs and behavior shall be taken seriously and reported to the school administration and Child Study Team who shall determine what further action is required. Other district employees may be used to intervene or assist with such situations. If emergency intervention is required, the pupil shall be taken to the appropriate medical facility.

In incidents of such potential self-destructive behavior, the pupil's parents shall be notified immediately and their cooperation shall be sought for immediate intervention. If the parent is unwilling to cooperate, the school administration and/or Child Study Team shall contact appropriate agencies to request intervention on the pupil's behalf. In cases of child abuse or neglect, school personnel are required to contact the New Jersey Division of Child Protection & Permanency (DCP&P).

The Board directs the Superintendent of Schools to develop procedures to implement this policy.

Fund-Raising Activities

Policy 5136

Date Adopted: June 18, 1962

Page 1 of 1

The Board of Education recognizes the need for fund raising activities in the schools to support various educational activities that are of benefit to pupils. The Board also acknowledges that the solicitation of funds from pupils must be limited since compulsory attendance laws make the pupil a captive donor and since such solicitation may disrupt the program of the schools.

Fund-raising activities should be reasonable in number and type and should not place excessive demands on pupils, parents and community members.

For purposes of this policy, “pupil fund raising” shall include the solicitation and collection of money by pupils for any purpose and shall include the collection of money in exchange for tickets, papers or any other goods or services.

The Board prohibits the collection of money in school or on school property or at any school-sponsored event by a pupil for personal benefit.

Collection of money by approved school organizations shall be approved by the Superintendent of Schools. Money needs to be deposited as per existing procedures.

The Superintendent of Schools and building administrators shall establish rules and regulations for the solicitation of funds and see to the distribution of both policy and implementing regulations to each student organization granted permission to solicit funds.

Students with Diabetes

As used in this policy, an “individualized health care plan” means a document setting out the health services needed by the student at school, and an “individualized emergency health care plan” outlines a set of procedural guidelines that provide specific directions about what to do in a particular emergency situation. Both are to be developed by the school nurse, in consultation with the parent or guardian of a student with diabetes and other medical professionals who may be providing diabetes care to the student, and signed by the parent or guardian.

The Board believes that diabetes is a serious chronic disease that impairs the body’s ability to use food, and must be managed 24 hours a day in order to avoid the potentially life-threatening short-term consequences of blood sugar levels that are either too high or too low. In order to manage their disease, students with diabetes must have access to the means to balance food, medications, and physical activity level while at school and at school-related activities.

Accordingly, a parent or guardian of a student with diabetes shall inform the school nurse, who shall develop an individualized health care plan and an individualized emergency health care plan for the student. Further, the parent or guardian must annually provide to the board of education written authorization for the provision of diabetes care as outlined in the plans, including authorization for the emergency administration of glucagon.

Both plans shall be updated by the school nurse prior to the beginning of each school year and as necessary if there is a change in the student’s health status. The plans may include elements specified in NJSA 18A:40-12.13 including, but not limited to:

1. The symptoms of hypoglycemia for that particular student and the recommended treatment;
2. The symptoms of hyperglycemia for that particular student and the recommended treatment;
3. The frequency of blood glucose testing;
4. Written orders from the student’s physician or advanced practice nurse outlining the dosage and indications for insulin administration and the administration of glucagon, if needed;

The Board of Education directs the Superintendent of Schools to develop, review and approve a program of accident prevention. When unforeseen situations arise, and an accident occurs, the School Nurse or another assigned staff member shall be responsible for providing emergency services to a child or staff member.

Guidelines for Dealing with Accidents or Injuries

- A. The School Nurse or another trained person shall be responsible for administering first aid. Universal precautions shall be taken in the handling of blood and body fluids to ensure the containment of bloodborne pathogens.
- B. In all cases where the nature of an injury appears in any way serious, every effort shall be made to contact the parent/guardian and/or family physician immediately.
- C. Parent/guardian shall be requested to pick up their child. If a parent/guardian is unable to provide such transportation, no pupil who is injured shall be sent home alone. A pupil who is injured shall not be taken home unless it is known that someone is there to receive him/her.
- D. In extreme emergencies, the School Nurse, School Doctor, or Administrator may make arrangements for immediate transportation and possible hospitalization of injured pupils, contacting parents/guardians in advance if at all possible.
- E. The teacher, School Nurse, or other staff member who is responsible for a child at the time an accident occurs shall prepare a report within 24 hours on an official form providing details about the accident. This shall be required for every accident, needing first aid.
- F. Any injuries or accidents to pupils shall be reported as soon as possible to the Building Principal.

Staff shall be informed at the beginning of each school year of the accident prevention program and procedures to be followed in case of an accident/injury.

Emergency Medical Procedures for Sports/Athletics

The Board of Education recognizes its responsibility for pupil safety encompassing all aspects of sports and athletic events in both intramural and interscholastic programs. The Board directs the Superintendent of Schools to develop and implement emergency medical procedures to ensure delivery of appropriate emergency medical services for all practice sessions, competitive contests, games, events or exhibitions with individual pupils or teams of the school whether among themselves or with pupils of other districts.

When pupils become ill while at school, they shall be sent to or escorted to the School Nurse. If the Nurse is not in the medical office, the pupil shall be sent or taken to the main office. In general, the same procedures that apply to accidents shall apply to sudden pupil illness. The Superintendent of Schools, in cooperation with the Medical Inspector and the Nurse shall implement this policy.

Control of Contagious Diseases or Conditions

In order to protect the health of the pupils in our school district, all regulations of the NJ State Department of Education and the Cumberland County Board of Health shall be scrupulously observed, particularly those dealing with contagious or infectious diseases or conditions. Pupils who have been absent because of contagious or infectious diseases or conditions must present a certificate of recovery from a licensed physician to the School Nurse or be examined by the Medical Inspector.

The School Nurse shall observe pupils who show evidence of an infectious and/or communicable disease and recommend their exclusion to the Principal. Such pupils shall be isolated in the Nurse's office until a parent/guardian picks them up, and any necessary measures taken to prevent spread of the infection. The School Nurse, under the direction of the Medical Inspector, shall instruct all teachers in the symptoms of the most common diseases or conditions at least once a year.

Any student with HIV infection or AIDS or who lives with or is related to someone with HIV or AIDS shall not be excluded from general education, transportation services, extracurricular activities, athletic activities, assigned to home instruction or classified as eligible for special education because of the HIV infection. The School Nurse shall recommend the exclusion of any individual with weeping skin lesions that cannot be covered to the Principal.

In addition to the review of health and safety measure required by law, the School Nurse shall individually instruct teachers from whose classroom a pupil has been excluded in the symptoms of the disease for which the pupil was excluded. No teacher shall attempt to diagnose any illness of a pupil, but shall refer suspected cases to the School Nurse immediately.

Handling Blood and Body Fluids

The Superintendent of Schools, Medical Inspector and School Nurse shall develop detailed routine procedures based on NJ Administrative Code and Guidelines from the Centers for Disease Control for the proper handling of blood and body fluids resulting from illness/accidents in the school. These procedures shall be disseminated to all district staff.

Administering Medication

Policy 5141.21

Date Adopted: June 18, 2007

Date Revised: April 21, 2008, August 31, 2009

Page 1 of 6

The Board of Education disclaims any and all responsibility for the diagnosis and treatment of illness of any pupil. At the same time, the Board recognizes that a pupil's attendance may be contingent upon the timely administration of medication prescribed by a physician or advanced practice nurse. The board will permit the dispensation of medication in school only when the pupil's health and continuing attendance in school so require and when the medication is administered in accordance with this policy.

Definitions

For the purposes of this policy, "medication" shall include all medicines prescribed by a physician or advanced practice nurse for the particular pupil, including emergency medication in the event of anaphylaxis, etc., prescribed medicine or over-the-counter medicine or nutritional supplement.

For the purposes of this policy, "administration" means the taking of any medication by ingestion, injection, inhalation, or application to any part of the body or the giving of direct physical assistance to the person who is ingesting, injecting, inhaling or applying medication.

For the purposes of this policy, "self-administration" means the taking of any medication without the intervention of the school nurse, approved through the school district policy and restricted to students with asthma and other life-threatening illnesses and/or allergic reaction.

For the purposes of this policy, "life-threatening illness and/or allergic reaction" means an illness or allergic reaction that requires an immediate response to specific symptoms or sequelae (an after-effect of disease or injury) that, if left untreated, may lead to potential loss of life, i.e. epinephrine injection in anaphylaxis, asthma medication, insulin, pancreatic enzymes.

For the purposes of this policy, "a pre-filled, auto-injector mechanism containing epinephrine" means a disposable drug-delivery system with a spring-activated, concealed needle. It is designed for emergency self-administration of Epinephrine to provide rapid, convenient first aid for individuals sensitive to potentially fatal allergic reactions.

No medication will be administered to pupils in school except by the school nurse, another registered nurse, or the pupil's parent/guardian acting on a written and signed order from the pupil's private physician, advanced practice nurse or the school medical inspector. In reviewing the completeness of the written order, it is recommended that the school nurse seek clarification if there is missing information regarding the following:

- A. Pupil's name;
- B. Pupil's diagnosis;
- C. The name of the medication, the dosage and time of administration, the duration of the administration and may potential side effects;

Policy 5141.21

Page 2 of 6

- D. An outline of any restriction the medication might have on the student's daily activities (e.g. driver's education, labs, physical education, etc.);
- E. If the medication is to be used on a "prn" or as needed basis, the order should clearly describe the conditions under which the medication is to be used;
- F. Other medications the pupil receives which might enhance, alter or impact the effects of the ordered medication.

Written orders submitted by fax should be verified by the school nurse. In addition, it is recommended that the written order should also outline any restriction. All original documents shall be kept on file in the school nurse's office.

The district medical inspector should review medication orders on a regular basis or at the request of the school nurse. If there is a question about a medication order prescribed by the child's private healthcare practitioner, the school physician or the school nurse under his/her direction, should confer with the prescribing healthcare provider for clarification of the order.

An individual medication record should be kept for every student requiring medication. The record should be dated and signed after each administration. The medication record should remain part of the student's permanent health record.

Medical orders should be renewed, in writing, by both parent/guardian and healthcare provider at the beginning of each school year.

Medication must be delivered to the school. The medication must be brought to the school nurse in the original container labeled by the pharmacy. The medication shall be securely stored and kept in the original labeled container.

All controlled substances (Schedule II medications) must be counted and logged whenever a new supply is brought in, picked up by a parent/guardian or destroyed.

All medication shall be stored in a secure, locked space including those medications that require refrigeration. The medication must not be visible to others.

The school medical inspector may also issue standing orders to the school nurse regarding the administration of medication.

Self-administration of medication by pupils is permitted in accordance with NJSA 18A:40-12.3. A pupil is only permitted to self-administer medication for asthma or other potentially life-threatening illnesses as defined by the New Jersey Department of Education, New Jersey Statutes Annotated and the New Jersey Administrative Code. Permission for self administration must comply with the conditions set forth in this policy.

The school nurse shall have the primary responsibility for the administration of the pre-filled auto-injector mechanism containing epinephrine. However, the school nurse may designate, in consultation with the Board of Education, another employee of the school district to administer epinephrine via an auto-injector to a pupil for anaphylaxis when the school nurse is not physically present at the scene. The designees must be properly trained by the school nurse in the administration of a pre-filled, single dose, auto-injector mechanism containing epinephrine using the standardized training protocol designated by the New Jersey State Department of Education. Each designee shall receive individual training for each pupil for whom he/she is designated. The pupil's parent/guardian must consent in writing to the designated person if applicable. In addition, the parent/guardian must be informed that the school district has no liability as a result of any injury arising from the proper administration of the epinephrine via an auto-injector, and the parent/guardian must sign a statement that shall indemnify and hold the district and its employees harmless against any claims arising from the epinephrine via auto-injector administration. The permission for the emergency administration of epinephrine via auto-injector to pupils for anaphylaxis is effective for the school year it is granted and must be renewed for each subsequent school year.

Any pupil who self-administers epinephrine via an auto-injector for anaphylaxis, shall report the incident to the individual designated by the school district to be in charge of the pupil during school activities. This individual will immediately call 9-1-1 and remain with the pupil until Emergency Medical Services arrives.

All pupil medications shall be appropriately maintained and secured by the school nurse, except those medications to be self-administered by pupils. In those instances the medication may be retained by the pupil with the prior knowledge of the school nurse.

The school nurse shall provide the Principal and other teaching staff members concerned with the pupil's educational progress with such information about the medication and its administration as may be in the pupil's best educational interests. The school nurse may report to the school medical inspector and the pupil's private healthcare provider or advanced practice nurse, any pupil who appears to be affected adversely by the self-administration of medication and may recommend that the request for self-administration be rescinded.

Each instance of self-administration of medication shall be reported to a teacher, coach or other individual designated by the school district to be in charge of the pupil during school activities. The school nurse shall document each instance of the administration of medication by a pupil allowed to self-administer.

The school nurse shall preserve records and documentation regarding the self-administration of medication in the pupil's medication record which is part of the pupil's permanent health record.

Each school in the district shall have and maintain at least one nebulizer in the office of the school nurse or at a similar accessible location. The Superintendent of School shall prepare and

the Board shall adopt regulations on the administration of asthma medication through the use of a nebulizer and shall include, but be limited to, the following:

- A. Requirement that each school nurse shall be authorized to administer asthma medication through the use of a nebulizer;
- B. Requirement that each school nurse receive training in airway management and in the use of nebulizers and inhalers consistent with nationally recognized standards;
- C. Requirement that each student authorized to use asthma medication or a nebulizer, have an asthma treatment plan prepared by the student's healthcare provider that identifies, at a minimum, asthma triggers and individualized health care plan for meeting the medical needs of the student while attending school or a school-sponsored event.

Emergency Administration of Epinephrine

Some pupils attending school suffer from a severe, life threatening allergic reaction called anaphylaxis. Pupils with a history of anaphylaxis (as documented by a physician or advanced practice nurse) may require the emergency administration of epinephrine for anaphylaxis and may not have the capacity for self administration of the medication.

The Board of Education shall permit the school nurse to administer epinephrine via a pre-filled single dose auto-injector mechanism in emergency situations. The school nurse shall have the primary responsibility for the administration of the pre-filled auto-injector mechanism containing epinephrine. However, the school nurse may designate, in consultation with the Board of Education, another employee of the school district to administer epinephrine via an auto-injector to a pupil for known anaphylaxis with the inability to self-administer when the school nurse is not physically present at the scene. The designees must be properly trained by the school nurse in the administration of a pre-filled, single dose auto-injector containing epinephrine using the standardized training protocol designated by the New Jersey State Department of Education. Each designee shall receive individual training for each pupil for whom he/she is designated.

"Anaphylaxis" is rapid severe allergic response that occurs when a person is exposed to an allergen, an allergy-causing substance, to which he/she has been previously sensitized. It is brought on when the allergen enters the bloodstream, causing the release of chemicals throughout the body that try to protect it from the foreign substance. Common triggers for anaphylaxis are:

- A. Stings of bees, wasps, hornets, yellow jackets and fire ants.
- B. Foods including peanuts and other nuts, milk, eggs, shellfish, whitefish, as well as some food additives;
- C. Medication, including certain antibiotics, as well as seizure medications, muscle relaxants, and even aspirin and non-steroidal anti-inflammatory agents; and/or,
- D. Exercise

Signs and symptoms of anaphylaxis include hives or rash, swelling of face and/or extremities, tingling of lips and mouth, flushing of face or body, coughing, wheezing, dyspnea (shortness of breath), nausea, vomiting, abdominal cramps, diarrhea, tachycardia (increased heart rate), postural hypotension (low blood pressure), and syncope (fainting).

Self-Administration of Medication

Permission for self-administration of medication for a pupil with asthma or another potentially life threatening illness and/or allergic reaction may be granted under the following conditions:

- A. Parents/guardians of the pupil must provide the school nurse with a written, dated and signed authorization statement for the self-administration of medication.
- B. The parents/guardians of the pupil must provide the school with a signed written certification from the physician or advanced practice nurse of the pupil that the pupil has asthma or another potentially life-threatening illness or allergic reaction and is capable of, and has been instructed in, the proper method of self-administration of medication. The statement must include:
 1. The pupil's name,
 2. The name of the medication,
 3. The purpose of its administration to the pupil for whom the medication is intended,
 4. The proper timing and dosage of medication,
 5. Any possible side effects of the medication,
 6. The time when the medication will be discontinued.
- C. The Board shall inform the parents/guardians of the pupil or the adult students, in writing that the school district, the Board, and its employees or agents shall incur no liability as a result of any injury arising from the self-administration of medication by the pupil.
- D. The parents/guardians of the pupils have signed a statement acknowledging that the school district shall incur no liability as a result of any injury arising from the self-administration of medication by the pupil and that the parents/guardians shall indemnify and hold harmless the school district, the Board, and its employees or agents from any and all claims arising out of the self-administration of medication.
- E. The request for the administration must be made to the school nurse prior to any self-administration of medication. The school nurse will consult with the pupil's physician or advanced practice nurse and the school medical inspector as well as with the Principal when making the final determination to allow or deny the request;
 1. An approved request will be signed by the Principal and the school nurse. The original request will remain with the nurse. Copies will be given to the Principal and the pupil's parents/guardians.
 2. The parents/guardians will be informed of the reason for a denied request.
- F. A written order must be reviewed by the school medical inspector prior to school approval for self-administration of any medication.
- G. Permission to self-administer one medication shall not be construed as permission to self-administer other medications.
- H. Permission shall be effective only for the school year for which it is granted. The conditions in subsection A-G must be fulfilled in order for the permission to be renewed.

Custodianship of Medication

- A. Medications to be administered by the school nurse or a registered nurse:
 - 1. All medications must be delivered to the school.
 - 2. All medications must be in the original container, with the prescription information affixed.
 - 3. The school nurse shall be custodian of pupil's medication, which will be secured under lock and key under appropriate conditions.
 - 4. Any unused medication must be picked up by the pupil's parent/guardian.
 - 5. After reasonable efforts to have the parent/guardian retrieve the medication have failed, any unused medication that remains in the school at the end of the school year or two weeks after the pupil stops taking the medication, whichever occurs first, must be destroyed or discarded by the school nurse in accordance with proper medical controls.
- B. Medications to be self-administered by a pupil:
 - 1. Time being of the essence in cases of asthma and other potentially life-threatening illness, all medications to be self-administered by a pupil must be kept in the pupil's possession.
 - 2. No pupil may possess medication for self-administration unless the proper permission has been granted by the school nurse and a record of the medication and documentation of the process is on file in the office of the school nurse.

Pupils who enter the district schools for the first time shall have a medical examination conducted at the medical home of the student, and a full report sent to the school. If a student does not have a medical home, the district shall provide this examination at the school physician's office or other appropriately equipped facility. "Medical home" means a health care provider and that provider's practice site chosen by the student's parent/guardian for the provision of health care. As the school physician is also a health care provider, the parent/guardian may request that the school physician provide the medical examination.

Religious Exemptions

In accordance with NJSA 26:1A-1, if the parent/guardian of the pupil objects in a written statement signed by the parent/guardian on the grounds that the proposed immunization interferes with the free exercise of the pupil's religious rights, an exemption to the requirements as set forth in this policy shall be granted by the administration.

If a parent/guardian submits such a written request for an exemption to an immunization on the grounds of religious convictions, district employees receiving the request should not question whether the professed religious statement or stated belief is reasonable, acceptable, sincere and/or bona fide. If the written statement contains the word "religion" or "religious" or some reference thereto, then the statement and the request should be accepted and the religious exemption of mandatory immunization(s) granted.

A copy of the written statement, signed by the parent or guardian shall become a part of the health records of the pupil.

Medical Exemptions

In accordance with NJAC 8:57-4.3, parents/guardians seeking an exemption to a mandatory immunization on the grounds that the immunization is medically contraindicated, shall submit a written statement to the school district from a physician licensed to practice medicine or osteopathy or an advanced practice nurse (certified registered nurse practitioner or clinical nurse specialist) indicating that the required immunization(s) is medically contraindicated for a specific period of time and the reason(s) for the medical contraindication, based upon valid medical reasons as enumerated by the Advisory Committee on Immunization Practices (ACIP) or the American Academy of Pediatrics (AAP) guidelines.

A copy of the written statement, signed by the physician or nurse as described above shall become a part of the health records of the pupil.

Objections to vaccination based on grounds that are not medical or religious in nature and that are of a philosophical, moral, secular or more general nature are unacceptable.

Every pupil who enters the district schools for the first time shall present an immunization record as required by law.

In order to protect the health of the children and staff in district schools, all regulations of the New Jersey State Department of Education, the New Jersey State Department of Health and Senior Services and the Cumberland County Board of Health shall be scrupulously observed, particularly those dealing with contagious/infectious diseases or conditions. Pupils seeking to enter school who have been identified as having a communicable/infectious disease or condition shall not be enrolled unless they qualify under the above agencies' rules pertaining to periods of incubation, communicability, quarantine and reporting.

The Superintendent of Schools or his/her designee shall formulate regulations that ensure immunization records are reviewed and updated annually pursuant to NJAC 8:57-4.1 through 4.16. The Superintendent of Schools shall enforce NJAC 6:16 Programs to Support Student Services which include regular pupil health examinations at appropriate grade levels; before participation in sports programs; and for testing for tuberculosis, scoliosis, and other physical examinations required by law. The Board of Education believes that the physical and mental well being of all children in its charge must be maintained as prerequisite to learning through the formal educational process. The Board of Education is cognizant of the importance of early identification of child abuse. The school district personnel will cooperate with the New Jersey Division of Child Protection & Permanency (DCP&P) in the identification, immediate reporting, and investigation of allegations of child abuse.

The Board of Education directs the Superintendent of Schools to develop and implement procedures for compliance with the law and code requirements pertaining to allegations of child abuse. The Board of Education has designated a liaison to DCP&P. Abuse referrals are not screened or referred through the liaison. The function of the liaison is to:

Facilitate communication and cooperation between the district and DCP&P; and act as the primary contact person between the schools and DCP&P with regard to general information sharing and the development of mutual training and other cooperative efforts.

The Superintendent of Schools shall require all the employees and volunteers to receive in-service training concerning child abuse, instructional methods and techniques relative to issues of child abuse in the local curriculum, and personnel responsibilities pursuant to NJSA 9:6-8.10 et seq. This training shall include information regarding the identification and reporting of allegations of child abuse to DCP&P, as well as the investigative process conducted by DCP&P. Additionally, the employees shall be made aware of their rights and responsibilities according to law and code. A person making the report in good faith is immune.

“Anyone acting pursuant to this act in the making of a report under this act shall have immunity from any liability, civil or criminal, that might otherwise be incurred or imposed. Any such person shall have the same immunity with respect to testimony given in any judicial proceeding resulting from such report” (NJSA 9:6-8.13).

Failure to make a report is a violation, and the person is subject to a penalty as describe by law.

“Any person knowingly violating the provisions of this act, including the failure to report an act of child abuse, having reasonable cause to believe that an act of child abuse has been committed, is a disorderly person” (NJSA 9:6-8.14). “No school personnel will be discharged from employment or in any manner be discriminated against as a result of making, in good faith, a report or causing to be reported an allegation of child abuse (NJSA 9:8.13). “Due process rights will be provided to school personnel who have been reassigned or suspended in accordance with NJSA 18A:6-10 et seq., 18A:25-1, 18A:25-6, and NJSA 9:6-3.1. Temporary reassignment or suspension of school personnel alleged to have committed an act of child abuse shall occur if there is reasonable cause

Early Detection of Missing Children

Date Adopted: August 19, 1985

Date Revised: November 20, 1989, April 21, 2008,
December 3, 2012

The Board of Education is deeply concerned with early detection of any missing or abused children. Attendance at school can be a means of identifying such children. Accordingly, the Superintendent of Schools shall implement procedures designed to provide for reporting to appropriate law enforcement and child welfare authorities when a potential missing or abused child is detected.

Furthermore, though limits are set on certain numbers of days for certain kinds of action, these limits are maximums, not minimums, and the Administrators are encouraged to take bolder steps and to act sooner than the limits established in every category. Additionally, it is recognized that the Administrator's daily procedures may demand more stringent accounting from parents than provided for herein; it is most appropriate that these practices should be continued and form a sound base for the implementation of this policy:

1. Attendance

- A. Any child absent from our schools for five consecutive days without the administration being aware that the absence is for a known cause shall be considered "at risk" as a potentially abused or missing child.
- B. Any absent child for whom there are grounds for the reasonable suspicion of the potential for abuse or abduction shall be considered an "at risk" child.
- C. A student who never appears on the school's register because he/she has the status of a "did not enter" student shall be considered an "at risk" child and every effort shall be made to account for his/her welfare and safety, as indicated below.
- D. The schools shall attempt to contact the home of each "at risk" child by phone on a daily basis or by mail. An attempt should also be made to locate the child through the emergency notification information that the parents have provided the school, and any other information that is available to the school.
- E. If, after three days, there is no response affirming the safety of the child, the attendance officer shall make an on-site investigation at the child's home.
- F. If the attendance officer is unable to confirm the safety of the child, the school shall consider the child to be missing and shall notify the New Jersey Division of Child Protection & Permanency (DCP&P), the proper police authorities, and other appropriate agencies and organizations. The school shall provide these agencies all information from the school records that could help in search for the child.

2. Release from School

During the school session, a child may be excused only into the custody of his/her custodial parent/guardian. The school may release a child into the care of another person with written permission from the parent/guardian. The persons who are listed on a properly completed emergency notification form may be treated by the school as in loco parentis.

3. Students Transferring to Another School

When issuing a transfer card, the school shall attempt to ascertain all possible information about the destination of the child's family, including the future address, job site, names of relatives or friends in the area, and the anticipated date of the student's arrival at the new school.

If the school has not received confirmation of the student's arrival at the new district within one week of the anticipated date of arrival, the new school district should be called and attempts made to locate the child through school districts and the other information that the school has available. If these attempts prove to be fruitless, reports shall be made to DCP&P and the appropriate police authorities indicating that the school is unable to confirm that the child has reached his/her destination. The proper police authorities, DCP&P, and other appropriate agencies and organizations shall be provided any information from the school records that could help in a search for the child.

4. Students Transferring from Another School

A. When a student transfers in from another school, the guardianship of the child will be verified from the transfer card, through contact with the previous district, by court records, the child's school records, or other appropriate means. If the child is residing with someone other than the apparent legal guardian, the school must report this discrepancy to DCP&P, the proper police authorities, and other appropriate agencies and organizations. In the meantime, the school must verify the student's entitlement to a free public education in this school district in a reasonable amount of time. A week of free public education in this school district is a reasonable amount of time. A week, except in unusual circumstances, through all of the following means, as prescribed by law:

- (1) A sworn statement by the person with whom the child resides that he/she:
 - is domiciled in the district,
 - is supporting the child gratis,
 - will assume all personal obligations of the child relative to school requirements,
 - intends to keep and support the child gratuitously for a longer time than merely through the school term.
- (2) A copy of the lease of the person with whom the child resides, if the person is a tenant, or a sworn statement of the landlord acknowledging that such person is residing as a tenant without written lease.
- (3) A sworn statement by the child's legal parent that he/she is not supporting the child.
- (4) A satisfactory documentation as to the validity of the sworn statement.

5. Student Registration

- A. A child may be registered into school while documentation of guardianship is being resolved, provided however, that proper health records have been verified and there is adequate information on which to make an educational placement.
- B. If the school is not able to verify the student's entitlement to a free public education in this district through the means listed in 4A above, in a reasonable amount of time, the student shall be excluded from school.
- C. If the non-parent with whom the child resides chooses to contest the school's decision before the Commissioner of Education, the school shall admit and register the child during the pendency of such proceedings.

6. Registered Students Not in the Custody of a Person with Legal Parental Status

If a registered student should reside out of the custody of a legal guardian, all of the procedures of document custody and residence which are listed in part 4 above, shall be instituted, as if the child were transferring in from another school.

Policy 5141.6

Date Adopted: April 21, 2008

Page 1 of 2

The Board of Education recognizes that many difficult issues are raised when pupils are infected with Human Immunodeficiency Virus (HIV). The right of such pupils to a thorough and efficient education and the benefit to them of an education in the school setting must be balanced against the interests of the school community to a safe environment.

The Board will, in compliance with the rules of the NJ State Board of Education and the New Jersey State Department of Health, permit the exclusion from the regular school setting of a pupil infected with HIV only when the pupil is not toilet trained or is incontinent or cannot control drooling or is unusually physically aggressive with a documented history or harming or biting others. A pupil infected with HIV may not be excluded in the absence of one or more of these exceptional characteristics and may not be excluded to protect the pupil against infection by others.

A pupil of school age infected with HIV, who does not demonstrate one or more of the characteristics that warrants exclusion, will be admitted to the regular school setting. His or her medical condition will be held in strict confidence, and his or her infection with HIV will be withheld from public records of this district.

When a pupil in this district or a pupil who seeks admission to this district is identified as infected with HIV, the school physician shall confer with the pupil's physician to determine whether the pupils should be excluded from school in accordance with this policy. The school physician shall promptly report his or her determination to the Board; the Board shall, within ten (10) days of the request to admit the pupil, decide to exclude or admit the pupil in accordance with the state Board rules and the following guidelines:

1. If the school physician approves the admission of the pupil, the pupil will be permitted to attend the regular school session. In the event the pupil subsequently develops any of the characteristics that warrant exclusion, the school physician shall be notified.
2. If the school physician, the pupil's physician, and the pupil's parent or guardian agree that the pupil should be excluded from school, and appropriate alternative education shall be planned and implemented.
3. If the physician inspector determines that the pupil should be excluded from the school and the pupil's physician disagrees, the pupil's admissibility shall be determined by the Commissioner of Education on the recommendation of a medical advisory panel appointed by the Commissioner of Health.

The Board will promptly submit to the County Superintendent of Schools the pupil's entire medical record including all medical information relied on the Board in its exclusion decision; all information supplied by the pupil's parent or guardian and physician; a written statement of the school medical inspector's reasons for exclusion; the qualifications and credentials of all experts relied on by the Board and the school physician; and, in the case of a classified pupil, child study team evaluation reports recommendations and the pupil's Individual Educational Plan (IEP).

The names of the pupil and his or her parents or guardian will be removed from the records submitted to the County Superintendent of Schools; future district references to the pupil will be by the code number supplied by the department of education.

Pending the determination of the Commissioner, the pupil shall be temporarily excluded from school and given an alternative program of home instruction appropriate to the pupil's needs and in accordance with the rules of the NJ State Board of Education. The professional staff members teaching the pupil will be appropriately certified and trained in proper precautions against the possible transmission of disease.

No pupil, staff member, or visitor may attend or visit school if he or she has an uncoverable weeping lesion, whether or not the person has been screened for HIV.

The Board of Education is committed to conforming to all applicable laws regarding students who are HIV positive, have AIDS or are suspected of being HIV positive or having AIDS. Toward this end, the Board adopts the following policy and directs the Superintendent of Schools to develop the procedures necessary to ensure compliance with it:

1. **Confidential Information:** Confidential information regarding a current or prospective pupil's HIV/AIDS status is not required to be furnished to the school or district, or any representative thereof. HIV/AIDS status is therefore an exception to records required pursuant to students' physical examinations. No inquiry shall be made regarding the HIV status of a current or prospective pupil. All records containing identifying information regarding same shall be kept strictly confidential. No information relating to the HIV/AIDS status of a student shall be disclosed except in accordance with the provisions of NJSA 26:5C-5 et seq. Information concerning the HIV status of a pupil may be shared only with the written consent of the pupil's parent, guardian, or other individuals authorized under state law to act on the pupil's behalf, and then only with those who need to know the status to determine the appropriate educational program for the pupil.
2. **Enrollment/Attendance of Pupils:** No pupil, including individuals entitled to school attendance in grades K-12, and pre-kindergarten children who are entitled to school attendance, shall be excluded from attending school due to HIV infection, nor shall any pupil be excluded to protect himself/herself against exposure to the infectious diseases of others. The presence of HIV infection also may not be used, in and of itself, to exclude any pupil by way of classification as eligible for home instruction. Additionally, pupils who have HIV and are symptomatic and/or diagnosed with AIDS are not to be excluded from school by virtue of the diagnosis, but may only be excluded for the medical or health conditions which would lead to exclusion of any other pupil. This policy applies to all pupils, whether currently enrolled or seeking enrollment. AIDS or HIV infection shall not be considered a communicable disease for purposes of admission to or attendance in an education facility or eligibility for the pupil.

No pupil may be excluded from school solely by virtue of their being related to an HIV-infected individual.

3. **Exclusion Required:** Any pupil, regardless of his/her HIV status, is to be removed if he/she has weeping skin lesions that cannot be covered.
4. **Procedures for Handling Blood or Body Fluids:** Training and supplies for the handling of blood and body fluids shall be made available to school personnel, whether or not pupils HIV are present, and nurses, custodians and teachers in particular are to have knowledge of the proper techniques in the handling and disposal of such materials. It shall be the responsibility of the Superintendent of Schools to secure appropriate supplies and training for school employees.

Automated External Defibrillator

Policy 5141.9

Date Adopted: April 14, 2003

Date Revised: April 21, 2008

Page 1 of 3

The Board of Education recognizes that cardiovascular disease is the leading cause of death in the United States. In an effort to ensure the safety of students, visitors and staff, the Board establishes this policy for the use of an Automated External Defibrillator (AED).

For the purposes of this policy, Automated External Defibrillator means a medical device heart monitor and defibrillator that:

1. Has received approval of its pre-market notification filed pursuant to 21 U.S.C. s.360(k) from the United States Food and Drug Administration;
2. Is capable of recognizing the presence or absence of ventricular fibrillation or rapid ventricular tachycardia, and is capable of determining, without intervention by an operator, whether defibrillation should be performed; and,
3. Upon determining that defibrillation should be performed, automatically charges and requests delivery of an electrical impulse to an individual's heart.

An AED will be located in the school building and will be used by qualified responders in response to cardiac medical emergencies. The AED will not be used by anyone without proper training. The AED will be maintained and tested in accordance with the operational guidelines of the manufacturer. The AED will be kept on school property and may accompany Emergency Medical Services (EMS) personnel to a hospital emergency room or other medical facility as deemed appropriate by the EMS. It will be returned to the school as soon as the emergency has been adequately addressed.

Neither the properly trained care provider, the Board of Education, nor the trainers of responders in the use of the AED will be held civilly liable for their acts or omissions in rendering good faith emergency care to someone who appears to be in cardiac arrest.

In accordance with P.L. Chapter 34 and under the direction of the school physician, a Board of Education employee may use the AED under the following circumstances:

1. The employee has successfully completed and holds a current certification from the American Heart Association, American Red Cross or other training program recognized by the Department of Health and Senior Services in cardio-pulmonary resuscitation and use of a defibrillator. Copies of the certificates will be kept on file in the school office and the Nurse's office. Re-certifications will be submitted for filing annually.
2. The victim is in cardiopulmonary arrest as determined by unconsciousness, absent pulse, and no spontaneous breathing.
3. "9-1-1" is activated.
4. Cardiopulmonary Resuscitation (CPR) is performed until the AED is brought to the scene.

After assessing unresponsiveness, the responder will call for help and for someone to contact 9-1-1 to summon EMS. The responder will also request that the AED be retrieved. The responder

Students

Automated External Defibrillator

Series 5000

Policy 5141.9

Page 2 of 3

will then begin to administer CPR until the AED arrives. Once the responder determines that the use of the AED is indicated, he/she will do so in accordance with the training he/she has received and the instructions of the manufacturer.

Once the EMS arrives the EMS will assume responsibility for the care of the victim, using the AED and transport the patient to the hospital. After the victim has been transferred to the care of the EMS, the School Nurse will notify the School Physician. The AED Incident Response Report is to be completed by the rescuer and given to the School Nurse who will send a copy to the School Physician. The School Nurse will conduct a post-event debriefing with the responder to review actions that went well and the collection of opportunities for improvement, as well as critical incident de-briefing.

The use of an AED is contraindicated under the following circumstances:

1. The victim is conscious,
2. The victim is breathing,
3. There is a presence of a detectable pulse of the victim,
4. The victim is a child under the age of 1, in accordance with the guidelines established by the American Heart Association,
5. The victim is lying in water, or
6. The victim is lying on a metal surface

Any person or entity who, in good faith, acquires or provides a defibrillator, renders emergency care or treatment and, who has complied with the requirements of P.L. Chapter 34, shall be immune from civil liability for any personal injury as a result of such care or treatment, or as a result of any acts or omissions by the person or entity in providing, rendering, or supervising the emergency care or treatment. The immunity provided shall include the prescribing licensed physician and the person or entity that provided the training in cardio-pulmonary resuscitation and the use of the defibrillator.

Revision and updating of these guidelines will be the responsibility of the Millville Board of Education.

The curriculum shall include courses in safety as required by state law. The Superintendent of Schools shall oversee development and implementation of a vocational education safety program correlated with coursework. In development of courses, the safety of participating pupils shall be a primary consideration.

Employers of work/study pupils are required to report to the Superintendent of Schools/designee if a pupil has not reported for work within one hour of the expected arrival time. Other pupils leaving before regular dismissal must be met in the school office and signed out by a parent/guardian or a person authorized to act in his/her behalf.

A record shall be kept indicating the legal custodian of each pupil. Such custodian shall be responsible for informing the Superintendent of Schools of any change in the pupil's custody. If one parent/guardian has been awarded custody of the pupil in a divorce, the other parent/guardian shall present to the Superintendent of Schools/designee a letter authorizing him/her to accompany the child from school before the child may be released. The Superintendent of Schools/designee may take reasonable steps to verify the letter. It is the responsibility of the person or agency having custody to inform the school that such authorization will be required.

Supervision of Pupils During Dismissal

Dismissal will be supervised. District staff will be assigned to specific locations and given defined responsibilities to supervise pupil dismissal in each district school facility. Regular and early dismissal will be supervised according to the same protocol unless otherwise specified. The Superintendent of Schools is responsible for overseeing the development of protocols that are tailored to the age and needs of the pupils at each school facility. At a minimum these protocols shall include:

- A. Staff assigned to supervise dismissal, and their locations and responsibilities
- B. Where pupils will be retained awaiting appropriate escort and/or designated transportation
- C. Provisions for supervision when a parent/escort is unable to pick up their child at the appropriate dismissal time.
- D. Location and presence of municipal crossing guards

The Board of Education will review the dismissal procedures annually.

Supervision of Non-bused Pupils at Dismissal

The Board of Education shall require that the parent/guardian notify the school in advance of any arrangements for pupils requiring appropriate escort or designated transportation. The Board of Education requires signed permission for a pupil to be dismissed to walk home unescorted.

All documented arrangements will be considered permanent for the entire school year. Parents/Guardians may alter arrangements upon prior written notification to the Superintendent of Schools/designee.

The Superintendent of Schools is directed to provide an orientation program for those pupils for whom fingerprinting has been authorized, and to develop appropriate administrative regulations for the implementation of the voluntary fingerprinting program in the district.

Potentially Missing Children

Attendance practices, the dismissal precautions addressed in this policy and voluntary fingerprinting are part of the district's effort toward early identification of potentially missing children.

The Superintendent of Schools will develop procedures that ensure cooperation with law enforcement for substances, weapons and safety. This may include cooperation with law enforcement in the activation of an "Amber Alert" which provides for the rapid dissemination of information, including a description of the missing child through broadcast media.

Release to an Individual Impaired by Drugs/Alcohol Prohibited

The Board believes that allowing a child to be released into the custody of a parent/guardian or other authorized individual who appears to be impaired by drugs or alcohol can have tragic consequences. Therefore, the Board prohibits release of a pupil into the custody of any person who appears to be physically and/or emotionally impaired to the extent that harm could come to the pupil if released to such a person. The Superintendent of Schools/designee shall make the final determination as to whether an individual is impaired.

Possessions

Parents/guardians are requested not to permit their children to bring expensive or fragile objects to school and to label or otherwise identify clothing, books and personal items. The Board is not responsible for items destroyed or stolen from lockers.

Megan's Law

Only law enforcement agencies in the community receive notification of the presence of Tier One offenders. The Superintendent of Schools and his/her designees in affected schools shall receive notification from the county prosecutor's office or local law enforcement officials when Tier Two or Tier Three sex offenders move into the district. The Superintendent of Schools/designee shall inform those employees/ volunteers whose duties regularly put them in a position to observe unauthorized persons on or near the property of the school. Superintendent of Schools/designee shall determine who to notify on the basis of this definition, as well as on specific job duties carried out in their schools. If private vendors perform any of these functions, the Superintendent of Schools/designee shall inform the vendor. Notification may include, but is not limited to:

Any school employee who does so may be disciplined. If a school employee has reason to believe that an offender who has been the subject of a notification is a danger to someone outside the school environs, he/she shall immediately contact the local law enforcement agency or the county prosecutor.

District personnel shall not notify the following of the presence of Tier Two or Tier Three offenders:

- A. Members of PTO, PTA, HSA, etc.

The Superintendent of Schools/designee shall provide registration forms to any organization that uses the school facilities, including a parent-teacher organization that wishes to be notified by the county prosecutor's office of the presence of a Tier Two or Tier Three offender in the community.

In addition to the school personnel identified by the Superintendent of Schools/designee, students and parents/guardians shall be notified of the presence of Tier Three offenders. The prosecutor's office and local law enforcement shall supply the school with notices for them when a school is located in the area where a vulnerable population is likely to encounter a Tier Three offender. Dissemination of these notices shall be in accord with law and accomplished in cooperation with the county prosecutor's office.

Newly hired staff and newly enrolled students and their parents/guardians shall be trained and informed of the presence of Tier Two and Tier Three offenders, unless the county prosecutor has notified the Superintendent of Schools that notice cannot be given.

Students and district employees shall not be liable in any civil or criminal action for providing or failing to provide information relevant to notification. The Superintendent of Schools shall prepare regulations to implement this policy and all directives of the county prosecutor's office to ensure careful adherence to Megan's Law.

Rights of Parents

The Board of Education recognizes that the parents of each child are ultimately responsible for the care and custody of that child, and that both parents share that responsibility equally. The Board recognizes as well that, where only one parent has legal custody of a child, the custodial rights and responsibilities of the other parent may be limited. The Board believes that the interests of each child are best served by the continuing involvement of both parents in the child's life and well-being.

The Board will presume that each natural or adoptive parent or legal guardian of a pupil enrolled in this district possesses full parental rights of access to the pupil and to information about the pupil, notwithstanding any separation of the parents or dissolution of their marriage. Accordingly and in the absence of notice to the contrary, the Board directs that school administrators accommodate the needs of both parents for access to their child, to their child's teachers, and to information about their child.

The Board's presumption of the equal rights and responsibilities of parents may be set aside only upon the presentation to the Superintendent of Schools of proper notice that custody of a pupil resides in only one parent and that the custodial rights of the other parent have been limited. When such notice is duly presented, the Superintendent of Schools will be directed by the terms of that notice to limit the access of the non-custodial parent to the child or to information about the child. Proper notice consists of the custodial parent's sworn affidavit or certification supported by a copy of the pertinent portion of a legal agreement or court order that awards custody and establishes the rights and limitations of the non-custodial parent or terminates the parental rights of the non-custodial parent.

Nothing in this policy shall be construed as limiting in any way the rights of the non-custodial parent whose parental rights have not been terminated to full access to his/her child's records and to full participation, in accordance with law, in the decisions regarding his/her handicapped child's evaluation, classification and placement.

Personal Property

Parents are requested not to permit their children to bring expensive or fragile objects to school and to label or otherwise identify clothing, books and personal items. The Board is not responsible for items destroyed or stolen.

The Board of Education acknowledges that the law compelling school attendance vests in the Board a custodial responsibility for the pupils in its charge and a duty to protect those children from persons not associated with the school district.

The Board further recognizes that its interest in helping pupils understand and respect the law is best served by a close and cooperative relationship with local law enforcement agencies and directs the Superintendent of Schools to institute a program of such communication and cooperation.

In order to protect pupils' rights during the time they are under school control, the Principal/designee shall interview every person who wishes to question a pupil on school property during the school day. The Superintendent of Schools shall be informed of such incidents.

Law Enforcement Officers

- A. If the officer has an arrest warrant, the Principal/designee shall ensure that all procedural safeguards as prescribed by law are observed. No pupil shall be taken from the school without the knowledge of the Principal/designee. The Principal/designee shall make every reasonable effort to notify parent/guardians. The Superintendent of Schools shall be informed whenever such apprehensions take place.
- B. If the officer has a juvenile complaint or wants to question a pupil on school property, the Principal/designee shall request that the questioning be delayed if possible until the parents/guardians can be present. If the officer refuses and the Principal/designee is convinced that the situation justifies questioning, he/she must attempt to have the parents/guardians informed immediately and shall remain with the pupil during the questioning.
- C. If the officer is an agent of the New Jersey Division of Child Protection & Permanency (DCP&P), the agent shall determine whether the presence of a parent/guardian or school employee is appropriate.

Private Persons

If a private person wishes to question a pupil on school property during the school day, generally parents/guardians shall be notified of the request and give their permission before the Principal/designee will permit the private person to question the pupil. In cases involving possible harm to another pupil that might be prevented by early information, the Principal/designee may permit such questioning if the parent/guardian cannot be reached. The Principal/designee shall be present during the questioning.

Substance Abuse Questioning by Staff

When questioning any pupil about possible possession, use or distribution of proscribed substances, drug paraphernalia, alcohol, firearms or other deadly weapons, staff shall follow the procedures adopted by the Board in compliance with administrative code.

Generally

The Superintendent of Schools shall notify the Board president when the police have sought to question a pupil in school, and the outcome of the incident. The district shall make every effort to establish close and cordial relationships with local law enforcement and other agencies, while ensuring that the parents/guardians are informed and pupil rights protected.

School lockers remain the property of the district even when used by pupils. Lockers are subject to administrative search in the interests of school safety, sanitation, discipline, enforcement of school regulations and to search by law enforcement officials on presentation of a proper warrant. Pupils and their parents/guardians shall be informed of this policy when lockers are assigned.

A pupil's person and possessions may be searched by a school official provided that the official has reasonable grounds to suspect that the search will turn up evidence that the pupil has violated or is violating either the law or the rules of the school. Under no circumstances shall a search be conducted based solely upon an anonymous tip and/or rumor that contraband is present. The extent or scope of the search shall be reasonable related to the objectives of the search and not excessively intrusive in light of the age and sex of the pupil and the nature of the infraction. A physical search may only be conducted by a staff member of the same sex as the pupil. Before instituting such a search, except in cases of emergency, the Superintendent of Schools shall try to inform the parents/guardians and request their presence.

School personnel shall not conduct strip searches or body cavity searches of any pupils under any circumstances.

Searches for Controlled Dangerous Substances/Drug Paraphernalia /Alcohol/ Firearms/ Other Deadly Weapons

Searches conducted by staff when there is suspicion that laws and policies on safe and drug free schools are being violated shall be based on the reasonable grounds required by this policy. When law enforcement officials conduct the search, then more stringent grounds required by law must be applied.

The district shall provide an equal opportunity for all enrolled children to achieve their maximum potential through the programs offered in these schools regardless of race, color, creed, religion, sex, sexual orientation, marital status, liability for service in the Armed Forces of the United States, ancestry, national origin, place of residence within the district, social or economic condition or disability. Enforcement of other district affirmative action policies (2224 and 6121) contribute to this legally required equality of educational opportunity.

Staff members shall maintain professional relationships with pupils at all times and develop wholesome and constructive relationships with them. Staff members shall be expected to regard each pupil as an individual and to accord each pupil the rights and respect that is due him/her.

Staff members shall promote a learning environment that encourages fulfillment of each pupil's potential in regard to his/her program, consistent with the district goals and with optimal opportunities for pupils. This goal may be reached by adapting instruction to individual needs, by:

- A. Insisting on reasonable standards of scholastic accomplishment for all pupils;
- B. Creating a positive atmosphere in and out of the classroom;
- C. Extending the same courtesy and respect that is expected of pupils;
- D. Treating all pupils with consistent fairness.

The Board of Education guarantees to all pupils equal access to all academic programs within the learning environment.

Pupils shall respect the rights of other pupils to receive an education in an environment that is conducive to learning and personal growth. No pupils shall have the right to abridge another pupil's right to privacy or right to hold personal beliefs that are different from those of the mainstream.

Harassment

The district's affirmative action program is part of each academic program regarding all pupils. No one – including pupils, staff members, vendors, volunteers, or visitors – shall commit an act of harassment/discrimination of any kind against any member of the school community on any grounds prohibited by law.

Harassment is defined as a repeated pattern of unprovoked aggressive behaviors of a physical and/or psychological nature carried out by individual or a group against an individual or group with the effect of causing harm or hurt. Harassing behaviors are all those behaviors that are unwelcome, unwanted and uncomfortable in the view of the recipient. They all have the effect of creating a hostile environment.

Policy 5145.4

Page 2 of 3

Harassment may be claimed by a third party. That is, individual who are not directly involved in the behavior may experience a hostile environment. They shall have the same legal rights to act under this policy as those directly victimized.

Sexual Harassment

Particularly, the Board of Education shall maintain an academic environment that is free from sexual harassment.

Sexual harassment shall consist of unwanted and unwelcome sexual advances, requests for sexual favors, and other inappropriate conduct or communication of a sexual nature when made by any staff member to a pupil, by any pupil to another pupil, or by any pupil to a staff member when:

- A. Submission to such conduct is made either explicitly or implicitly a term or condition of a pupil's evaluation, promotion, opportunities, privileges and other benefits of education;
- B. Submission to or rejection of such conduct by a pupil is used as a basis for decisions affecting the pupil;
- C. Such conduct has the purpose or effect of interfering with a pupil's academic performance or creating an intimidating or hostile educational environment.

The Administration will inform all pupils that sexual harassment is prohibited in the educational setting. Specifically, no person employed by the district or by a vendor, or acting in a voluntary capacity, shall threaten or insinuate, either directly or indirectly, that a pupil's refusal to submit to sexual advances will adversely affect the pupil's standing in the school setting. Pupils are forbidden to harass other pupils or staff members or vendors or volunteers through conduct or communications of a sexual nature within the school setting.

Any member of the student body may file a formal grievance related to sexual harassment. The Affirmative Action Officer will receive all complaints and initiate a thorough investigation and will protect the rights of both the pupil making the complaint and the alleged harasser. Filing of a grievance or otherwise reporting sexual harassment will not reflect upon the individual's status, not affect future grades and/or class assignments.

Findings of discrimination in the form of sexual harassment will result in appropriate disciplinary action.

Procedures shall be made available for pupils and/or parents/guardians who wish to file a grievance protesting alleged discriminatory or sexually (or other) harassing action. An immediate report of the allegation should be made to the Affirmative Action Officer and/or Superintendent of Schools.

Violations of this policy shall or its related procedures shall be cause for disciplinary action.

Service Animals

Individuals with disabilities shall be permitted to be accompanied by their service animals in all areas of the school facilities where members of the community, participants in services, programs or activities, or invitees, as relevant, are allowed to go.

The Superintendent of Schools shall ensure that, annually, all staff and pupils (in means and terms that are age-appropriate) be thoroughly informed of this policy, their rights to file grievances under this policy and the law and procedures relative to filing. Further, all staff and pupils shall be informed annually of the identity of the district's Affirmative Action Officer and how he/she may be contacted.

As a school district that receives Title I funds, the Board of Education shall implement programs, activities and procedures for the involvement of parents/guardians in programs assisted by Title I funding. The district will reserve not less than one percent of its allocation under Subpart 2 to carry out these requirements, (unless the district's allocation is \$5,000 or less), which shall include promoting family literacy and parenting skills. Parents/guardians of pupils receiving Title I services shall be involved in the decisions regarding how funds will be allotted for parental involvement activities.

The district shall distribute this parental involvement policy that describes the means for carrying out the requirements of No Child Left Behind Act (NCLB) of 2001, §1119(a) through (f). Parents/guardians will be notified of this policy in an understandable and uniform format and, to the extent practical, provided in a language the parents/guardians can understand. This policy shall be made available to the local community and updated periodically to meet the changing needs of parents/guardians and schools within the district.

"Parent", for the purposes of this policy, means a parent and/or legal guardian. "School", for the purposes of this policy, is a specific school in a Target Assistance Title I program or schools within the district in a school-wide Title I program.

Provide parents of participating pupils:

- Timely information about programs required by NCLB, §1118;
- A description and explanation of the curriculum in use at the school, the forms of academic assessment used to measure student progress, and the proficiency levels students are expected to meet; and

- If requested by parents, opportunities for regular meetings to formulate suggestions and to participate, as appropriate, in decisions relating to the education of their children, and respond to any such suggestions as soon as practicably possible; and,
- Submit any parent comments on the plan when the school makes the plan available to the Board of Education, if the school-wide program plan under §1114(b)(2) of NCLB is not satisfactory to the parents of participating pupils,

Shared Responsibilities For High Student Academic Achievement

Each school served by Title I funds shall jointly develop with parents of all pupils served with Title I funds, a school-parent compact that outlines how parents, the entire school staff, and students will share the responsibility for improved student academic achievement and the means by which the school and parents will build and develop a partnership to help children achieve the state's high standards. The compact will:

1. Describe the school's responsibility to provide high-quality curriculum and instruction in a supportive and effective learning environment that enables the pupils served by Title I funds to meet the state's student academic achievement standards, and the ways in which each parent will be responsible for supporting their children's learning, such as monitoring attendance, homework completion, and television watching; volunteering in their child's classroom; and participating, as appropriate, in decisions relating to the education of their children and positive use of extracurricular time; and
2. Address the importance of communication between teachers and parents on an ongoing basis through, at a minimum:
 - a) parent-teacher conferences in elementary schools, at least annually, during which the compact shall be discussed as the compact relates to the individual pupil's achievement;
 - b) frequent reports to parents on their children's progress; and
 - c) reasonable access to staff, opportunities to volunteer and participate in their child's class, and observation of classroom activities.

Building Capacity For Involvement

To ensure effective involvement of parents and to support a partnership among the school(s) involved, parents, and the community to improve student academic achievement, each school and school district assisted with Title I funds:

1. Shall provide assistance to parents of pupils served by the school in understanding such topics as the state's academic content standards and state student academic achievement standards, state and local academic assessments, the requirements of this policy, and how to monitor a child's progress and work with educators to improve the achievement of their children;

Date Adopted: September 25, 2006

Date Revised: November 6, 2006, June 2, 2008 ,

The Superintendent of Schools shall direct the development of plans, procedures and mechanisms for responding to emergencies and crises in the schools that threaten human life and property. He/she shall consult with law enforcement agencies, health and social services agencies and emergency management planners in developing these plans and shall ensure that they provide for the protection of the health, safety and welfare of the school population as well as supportive services for staff, students and their families.

Plans and procedures shall include these elements:

- A. Cooperation with local government agencies in developing and carrying out a school/community disaster plan that includes procedures for building lockdowns when necessary;
- B. Mechanisms for the orderly evacuation of buildings in case of fire or other emergencies;
- C. Means to provide as much protection as possible for children at school and on their way to and from school;
- D. Communicating specific instructions to pupils and staff so that the school emergency plan may be carried out with the greatest possible speed and safety.
- E. Communicating to parents/guardians about the plan and the procedures they need to follow to support the plan.
- F. An overall Communications Plan for interfacing and providing information to the media and to parents/guardians.

Emergencies & Disaster Preparedness

Plans and procedures

The Superintendent shall develop and provide an inservice training program for school staff to enable them to recognize and appropriately respond to a crisis, consistent with the district's plans and procedures for managing a crisis. Communicating specific instructions to pupils and staff so that the school emergency plan may be carried out with the greatest possible speed and safety helps ensure its effective execution. The inservice shall be revised and updated annually.

*The purpose of the inservice is to provide staff with an overview of the district's "Crisis Response Manual". The district's flip-chart is a quick procedural guideline that deals with a number of crises that could occur within the district. A pre-planned and organized approach is more effective in responding to a crisis, and will help to reduce psychological and social problems following a crisis in school.

Periodic drills will be scheduled to ensure that both staff and pupils can effectively execute the plan. Learning from these drills can help improve the overall plan.

Fire Drills & Homeland Security Drills

Fire drills shall be held at least once each month for all pupils. There shall also be at least one homeland security drill per month.

The Superintendent of Schools may order a modification of the fire drills so that they may take the form of indoor drills or of rapid dismissals with outdoor clothing when low temperatures prevail.

A written statement of procedures and instructions for fire drills and homeland security drills shall be formulated by the Superintendent of Schools and disseminated to all staff.

Instruction in fire prevention shall be given and emphasized in appropriate courses in the curriculum of the school. The homeland security drill will be an exercise to respond to an emergency situation such as a non-fire evacuation, lockdown, bomb threat or active shooter situation that is similar in duration to a fire drill.

Emergency Closings; Delayed Openings

The Superintendent of Schools is authorized by the board to close the schools, open them late or dismiss them early in hazardous weather or in other extraordinary circumstances which might endanger the health or safety of pupils or school employees.

Each year, parents/guardians, pupils and staff members shall be informed in advance of how they shall be notified in event of emergency closings. Parents/guardians shall be required to make alternative arrangements for their children in case no one is home to receive a child after an unscheduled early closing.

Refer to Crisis Manual for other emergencies and instructions.

Bomb Scares

Building or buildings may be evacuated following code yellow/orange procedures established by the superintendent and approved by the school board, consistent with the crisis manual.

Date Adopted: June 15, 1998

Date Revised: October 19, 1998, June 2, 2008

The Board shall provide English as a second language (ESL) and/or bilingual programs of instruction for pupils who:

- A. Are not proficient in English and need instruction toward mastery of the English language;
- B. Speak a language other than English, are more capable of performing schoolwork in that language, and need their basic educational program taught in that language.

The Superintendent of Schools shall develop procedures in accordance with administrative code to determine which pupils would benefit from ESL and/or bilingual programs and to involve school staff, parents/guardians and community members in reviewing programs to determine which would best meet these pupils' needs.

The goal of ESL programs is to assist pupils to achieve fluency (including listening, comprehension, speaking, reading, and writing skills) in English. The goal of the bilingual program is to use both the native language and English to help pupils progress in the academic subject areas while developing their English language skills.

Parents/guardians of pupils of limited English speaking ability shall be notified by mail of the fact that their child has been identified as eligible for enrollment in a bilingual, ESL or English language services education program. This written notice shall include the information that the parents may choose to decline to enroll their child into the bilingual program. Communication with parents/guardians of pupils in these programs shall be in writing and in both English and their primary speaking language, whenever possible. Reports of pupil progress shall be made to parents/guardians on the same schedule as reports of pupils in the regular program.

The Superintendent of Schools shall direct development of an annual plan for ESL and/or bilingual education that is in compliance with state guidelines. The Board will review and approve the plan at a public meeting. The Board must adopt the courses of study for ESL and bilingual programs in the same manner in which it adopts the curriculum for the regular program.

Pupils enrolled in district bilingual or ESL programs shall be assessed annually for exit from such programs, using indicators described in the administrative code. Whenever it is determined that a pupil should exit from the bilingual program, parents/guardians shall be notified by mail.

Parents/guardians may remove a pupil who is enrolled in a bilingual education program at any time.

The County Superintendent of Schools shall approve removal prior to the end of the school year. If the County Superintendent of Schools determines that the pupil should remain in the bilingual education program until the end of the school year, the parents/guardians may appeal that

Date Adopted: June 17, 2007

Date Revised: June 2, 2008

Page 1 of 1

The Board of Education recognizes the importance of exposing pupils to a wide and varied curriculum in the study of sciences and biology. The Board also supports the rights of parents/guardians to make decisions about certain aspects of that curriculum for their children. Therefore, it is the policy of the Board of Education that pupils may choose not to participate in certain experiments involving animals.

Pupils will be excused from performing, participating in, or observing the dissection, vivisection, incubation, capture, harm or destruction of animals and/or organisms upon the receipt of a written request from his/her parent/guardian.

Alternative Education

In all such cases, the pupil will be assigned an alternative education project that may include the use of video tapes, models, films, books, computers, or any other tools that provide an alternative method for obtaining and testing the knowledge, information, or experience required by the course of study the pupil was excused from. Alternative education programs and classroom attendance shall be arranged by the classroom teacher, with the approval of the appropriate administrator, for such pupils.

A pupil may refuse to participate in an alternative education project which involves or necessitates any harmful use of an animal or animal parts.

In no case, will a pupil's grade be adversely affected by his/her decision not to participate in the regular lab experience, nor will he/she be discriminated against in any other manner as a result of his/her decision to exercise the rights afforded pursuant to this policy.

Notification of Parents/Guardians

Pupils and parents/guardians will be notified at the beginning of the school year of the rights of pupils not to participate in the dissection, vivisection, incubation, capture, harm or destruction of animals and/or organisms. Parents/guardians will be advised that in order for a pupil to be excused from the regular lab experience, a written request must be received by the school within two weeks of the receipt of this notification.

Students, staff and administration of the school district have the opportunity to access the Internet to facilitate the need to prepare students, staff and administrators to become computer literate in an increasingly technological world, to foster educational and personal growth in technology, information gathering, and communication skills. It is understood that the school district does not have sufficient staff to monitor every aspect of the use of the

Internet. However, the district will foster the independent use of the school's network, subject to compliance with procedures and standards for appropriate network behavior and communication. The following responsible guidelines apply to all users when accessing any school district network connection (NET):

1. It is understood that cooperation is critical in the use of the Internet. It is the goal of the use of the Internet to prepare students to become computer literate in an increasingly technological world. It is understood that a minor's independent use of the school's network is necessary to attain such a goal, subject to the procedures and standards for appropriate network behavior.
2. Violations of these responsible use guidelines may result in student discipline, subject to the Student Disciplinary Code, and/or staff and administrative discipline, subject to guidelines adopted by the administration.

The primary use of the NET shall be reserved to those individuals who utilize the materials that are of "educational value" to students of the district. For purposes of these guidelines, "educational value" shall mean those areas of network access that have a direct or indirect impact on the students' educational program in the school district. The use of the system for defamatory, inaccurate, abusive, obscene, profane, sexually oriented, threatening, and racially offensive, and illegal material or other prohibited activities shall not be permitted, and the school district will use any and all means available to it, within the confines of the law to prevent such material from entering the NET. Individuals are encouraged to report such entry of material into the system to the building administrator.

3. No personnel or student information that is protected by the Family Educational Rights and Privacy Acts shall be disseminated through the NET.
4. All users of the NET must comply with the Electronic Communications Privacy Act of 1986, as amended, and the Communications Decency Act. These Acts prohibit the unauthorized interception or disclosure of e-mail messages by third parties as well as the appropriateness of certain material being remitted on the Internet. The Acts do not permit interception or disclosure unless both the sender and the receiver of the communication consent. Further, the Acts recognize that

- the school district may monitor an employee's e-mail messages, as long as the interception device is included in the e-mail equipment.
5. Users of the NET must recognize that the District Administration does have the authority to intercept e-mail messages of all users and that there will be no privacy right construed by the District to exist in the statements made in the NET. Users of the NET are encouraged not to store extensive e-mail messages in the NET and that messages should be stored for a period of no longer than 14 calendar days.
 6. When issued individual passwords and accounts, NET users may not allow any other person(s) to use or share those passwords and/or accounts.
 7. Any attempt to circumvent system security, guess passwords, or in any way gain unauthorized access to local or NET resources is forbidden.
 8. Use of the Internet for political and/or commercial gain or profit is not allowed from an educational site.
 9. Users may not move, repair, reconfigure, modify or attach external devices to the system.
 10. Additional rules and restrictions may be added and users will be notified of these changes in a timely manner. Users are responsible for reading and following these rules.
 11. Time restrictions on the use of the Internet may be imposed to ensure equity of use.
 12. From time to time, the District will encourage students and employees to use certain informational sources in order to control Internet costs.
 13. The District Administration reserves the right to use electronic devices, cards, or any other media to determine whether or not the students or employees are using the NET for items of true educational value.
 14. Professional employees of the school will monitor student use of the Internet.
 15. Students or employees who violate the Internet guidelines of the school may be denied future Internet privileges for a defined period of time or other disciplinary measures set forth in the Student Code of Conduct or in any other rules of the District that may be applicable.

The Board of Education believes HIV/AIDS education should be integrated into the comprehensive health education curriculum, but may also be applied to other curriculum areas.

The district HIV/AIDS education program must address, at a minimum, the nature, transmission, prevention and effects of the disease. The program shall be provided through a coordinated sequential elementary and secondary curriculum, taking into consideration the age, growth, development and maturity of the pupils and the subject matter of the course. Development of the program should take into account the instructional needs of all pupils in the district.

The Superintendent of Schools shall ensure that the information presented as a part of the HIV/AIDS prevention education program is articulated in such a way that transition from grade to grade in the elementary schools and from elementary to secondary approaches to the material will be appropriate for all pupils.

The Superintendent of Schools shall be responsible for the preparation and development of an HIV/AIDS prevention education program, with active consultation and participation of an advisory committee consisting of teachers, administrators, parents/guardians, pupils (as appropriate), physicians, members of social and health service agencies, members of the clergy and representative members of the community. The Board shall appoint the members of the committee upon the recommendation of the Superintendent of Schools. The advisory committee shall be responsible for reviewing the instructional program and all materials to be used and, through the Superintendent of Schools, of recommending it for Board adoption.

The Superintendent of Schools shall ensure that all staff members involved in teaching the HIV/AIDS prevention education program are properly certified for the subject area in which they are teaching and adequately prepared to teach the material. As necessary, appropriate staff training shall be provided.

Upon the request of parents or guardians, the HIV/AIDS education curriculum shall be made available for their review. The Superintendent of Schools shall establish procedures whereby pupils whose parent/guardian presents to the school Superintendent of Schools a signed statement that a designated part of the instruction is in conflict with his/her conscience, or moral or religious belief, shall be excused from that part of the curriculum. Independent study shall be directed during the time a pupil is excused from part of the program. The independent study shall include alternative topics that do not conflict with the parent/guardian's beliefs but fall within the same subject area (i.e., comprehensive health education) as the program from which the pupil is excused. No penalties to credit or graduation shall result from such an exemption.

Free discussion of controversial issues-political, economic, social - shall be encouraged in the classroom whenever appropriate for the level of the group.

Issues may be considered controversial which arouse strong reactions, based either on personal conviction or allegiance to a group. School treatment of controversial issues shall be designed to instruct pupils in fair and objective study techniques. The decision on whether a particular controversial issue shall become a matter for school study shall be based on the timelines of the question, the maturity and needs of the pupils and the purposes of the school. Classroom discussions on controversial questions that arise unexpectedly shall be the responsibility of the teacher, who shall provide relevant information on both sides of the question. Such discussions shall be kept free from the assumption that there is one correct answer that should emerge from the discussion and be taught authoritatively to the pupils.

The Board believes that the educational goals and objectives of the district are best achieved by a diversity of learning experiences, some of which are more appropriately conducted outside the regular classroom program.

The purpose of extracurricular activities shall be:

- A. To develop useful new capabilities in pupils that can lead to extension of career opportunities;
- B. To develop pupil initiative and provide for the exercise of responsibility;
- C. To develop leadership capabilities and good organizational skills;
- D. To aid pupils in the social skills;
- E. To enable pupils to explore a wider range of individual interests than might be available in the regular program.

For purposes of this policy, “extracurricular activities” shall be those activities which are sponsored or approved by the board but are not offered for credit toward graduation. Such activities shall generally be conducted outside the regular school day, available to pupils who voluntarily elect to participate, marked by pupil participation in the processes of initiation, planning, organizing, and execution and shall ordinarily include band, clubs, dramatic or musical presentations, and intramural and interscholastic sports.

Equal access to school facilities shall be granted to all activities that meet this definition.

The Superintendent of Schools shall prepare procedures to implement an extracurricular program which shall:

- A. Assess the needs and interests of the pupils of this district;
- B. Ensure the provision of competent guidance and supervision by staff;
- C. Guard against the exploitation of pupils;
- D. Provide for a variety of experiences and a diversity of organizational models;
- E. Provide for the continuing evaluation of the extracurricular program and staff;
- F. Ensure that all extracurricular activities are open to all eligible pupils and that all pupils are fully informed of the opportunities open to them.

The guidance goal for each pupil shall be a balanced program of appropriate academic studies and activities to be determined by the school, the parents/guardians and the pupil. Guidance is necessary to encourage non-participants, and to prevent the overenthusiastic from emphasizing activities at the cost of their academic performance.

Only persons in the employ of the Board of Education shall be permitted to organize district pupils during school time or during any recess in the school day for purposes of instruction or coaching or for conducting games, events, or contests in physical education or athletics.

The Superintendent of Schools shall establish uniform procedures that will ensure a fair evaluation of pupils reprimanded for infractions to determine whether they shall be removed from any or all extracurricular activities.

- A. When a pupil already participating in an extracurricular activity is reported for an infraction of the rules for pupil conduct, the principal shall appoint a staff committed to consider whether the pupil shall be removed from any or all extracurricular activities.
- B. If a pupil was in bad disciplinary standing the previous term, the principal shall refer the matter to a staff committee to determine whether the pupil shall be permitted to participate during the current term.

Good Academic Standing

In addition to the grade or course requirements of the NJSIAA and local attendance regulations, the Board of Education establishes the following academic eligibility standards:

The eligibility of the pupil is to be determined by the advisor/coach of an activity/sport and the pupil is to be placed on probation for an indeterminate period at the discretion of the advisor/coach.
- B. Two course failures, two incomplete grades or a combination thereof.
The pupil is automatically ineligible for one marking period until his/her grades become available, or incomplete grades are made up satisfactorily. The student's status for practicing with the team will be determined by the head coach in each sport with advice, consent, and support of the athletic department and school administration.
- C. 50% of total courses failed. 50% of total grades incomplete or a combination thereof.
- D. All transfer pupils shall be subject to the above guidelines based on the transcript which is used to determine NJSIAA eligibility.
- E. An appeal process for students involved in interscholastic athletics is provided within the NJSIAA guidelines. For students involved in other co-curricular activities, a local appeal process shall be carried out by the Eligibility Committee (see item B).

After written medical clearance is given by a physician trained in the evaluation and management of concussions stating that the student athlete is asymptomatic at rest, the student athlete may begin a graduated individualized return-to-play protocol supervised by a licensed athletic trainer, school/team physician or in cases where the aforementioned are not available a physician or licensed health care provider trained in the evaluation and management of sports-related concussions. The following steps should be followed:
 - A. Completion of a full day of normal cognitive activities (school day, studying for tests, watching practice, interacting with peers) without re-emergence of any signs or symptoms. If no return of symptoms, next day advance to:
 - B. Light aerobic exercise, which includes walking, swimming, or stationary cycling, keeping the intensity < 70% maximum percentage heart rate: no resistance training. The objective of this step is increased heart rate. If no return of symptoms, next day advance to:
 - C. Sport-specific exercise including skating, and/or running; no head impact activities. The objective of this step is to add movement and continue to increase heart rate. If no return of symptoms, next day advance to:

- D. Non-contact training drills (e.g., passing drills). The student athlete may initiate progressive resistance training. If no return of symptoms, next day advance to:
- E. Following medical clearance (consultation between school health care personnel, i.e., licensed athletic trainer, school / team physician, school nurse and student athlete's physician), participation in normal training activities. The objective of this step is to restore confidence and to assess functional skills by the coaching staff. If no return of symptoms, next day advance to the return to play involving normal exertion or game activity.
- In the absence of daily testing by knowledgeable school district staff (i.e. licensed athletic trainer, school / team physician) to clear a student athlete to begin the graduated return-to-play protocol a student –athlete should observe a 7 day rest/recovery period before commencing the protocol. Younger students (K-8) should observe the 7-day rest/recovery period (after they are symptom free at rest) prior to initiating the graduated-return-to play protocol. A physician trained in the evaluation and management of concussion as well as the parents/guardians of the student athlete shall monitor the student athlete in the absence of knowledgeable school district staff (i.e., athletic trainer, school / team physician). School nurses may serve as an advocate for student athletes in communicating signs and symptoms to physicians and parents/guardians.
 - Utilization of available tools such as symptom checklists, baseline and balance testing are suggested.
 - If the student athlete exhibits a re-emergence of any concussion signs or symptoms once they return to physical activity, he/she will be removed from further exertional activities and returned to his/her school/team physician or primary care physician.
 - If concussion symptoms reoccur during the graduated return-to-play protocol, the student athlete will return to the previous level of activity that caused no symptoms.

Temporary Accommodations for Student athletes with Sports-Related Head Injuries

1. Rest is the best “medicine” for healing concussions or other head injuries. The concussed brain is affected in many functional aspects as a result of the injury. Memory, attention span, concentration and speed of processing significantly impacts learning. Further, exposing the concussed student athlete to the stimulating school environment may delay the resolution of symptoms needed for recovery.
2. Accordingly, consideration of the cognitive effects in returning to the classroom is also an important part of the treatment of sports-related concussions and head injuries.
3. Mental exertion increases the symptoms from concussions and affects recovery. To recover, cognitive rest is just as important as physical rest. Reading, studying, computer usage, testing, texting – even watching movies if a student is sensitive to light/sound – can slow a student's recovery. In accordance with the Centers for Disease Control's toolkit on managing concussions boards of education may look to address the student's cognitive needs in the following ways.
4. Students who return to school after a concussion may need to:
 - Take rest breaks as needed.
 - Spend fewer hours at school.
 - Be given more time to take tests or complete assignments. (All courses should be considered)
 - Receive help with schoolwork.
 - Reduce time spent on the computer, reading, and writing.
 - Be granted early dismissal to avoid crowded hallways.

- A. Meet both state and district proficiency standards in reading, writing, and mathematics;
- B. Complete successfully the course requirements stated in the administrative code, unless those of the district are greater, in which case the districts standard must be met. The proficiencies required must include the core course proficiencies approved by the State Board of Education.

Successful completion means that the pupil has demonstrated the degree of proficiency required by the district to indicate achievement of the district goals for the particular course, and has attended the required number of course sessions.

A pupil shall not be deemed to have successfully mastered the objectives assigned to a course of study when he/she has been absent more than 30 days in any school year.

Transfer pupils must meet all state and local requirements in order to receive an elementary school diploma.

The Superintendent of Schools shall put into effect the procedures necessary to assess each pupil upon entry into the system, and, annually thereafter, to identify those pupils not meeting the state or district proficiency requirements in reading, writing and mathematics. He/she shall develop the programs necessary to remedy these deficiencies at the lowest possible grade level.

Basic Skills

Pupils who do not pass the eighth-grade test shall be provided appropriate remediation.

Pupils with Limited English Proficiency

Pupils with limited English proficiency must be provided with the program opportunities required by law, and must fulfill the regular state and district requirements for graduation.

Special Education Pupils

A disabled pupil must meet all state and local graduation requirements in order to receive a diploma unless exempted in his/her IEP with the written approval of the Superintendent of Schools. An exemption shall be granted if a pupil would be adversely affected by taking the test; an exemption from the proficiencies shall be granted if the pupil's IEP does not include the proficiencies measured by the test.

The Superintendent of Schools, in consultation with teaching staff, shall develop criteria for evaluation, indicators of achievement of the criteria, and acceptable standards of achievement for all grade levels, courses and programs offered by the district. The criteria, indicators and standards must be related to district goals and objectives. Parents/guardians shall be informed in a timely manner whenever their child appears in danger of failing to meet required proficiency levels. Parents/guardians shall be strongly encouraged to participate in designing remedial plans for their children.

These standards of proficiency shall include but not be limited to those Core Curriculum Content Standards identified by the State Department of Education and shall form the basis for the district's grading system. The Superintendent of Schools, in consultation with the teaching staff, shall develop a marking system to be used uniformly in the same grade level throughout the schools. The system should be clear, easily understood by parents/guardians and pupils, and able to be applied with consistency of interpretation. Computation of grade point average and rank in class shall be uniform throughout the district. Evaluation and grading symbols shall be intended to appraise the pupil's progress toward established goals, and shall be a factor in promotion/graduation decisions.

The Board of Education encourages the certified staff, under the direction of the Superintendent of Schools, to employ a comprehensive approach to the use of appraisal and evaluative techniques in monitoring pupil progress, including, but not limited to, recognized standardized achievement testing programs, written and oral teacher-made tests, performance observation, parent/guardian interviews, formal and informal evaluation techniques, use of cumulative pupil records, and medical examinations.

The Superintendent of Schools shall have the right to review disputed grades and with the Board approval to adjust them.

Testing

In addition to testing procedures established in policy 5120 Assessment of Individual Needs, the school district shall establish and maintain a general testing program to:

- A. Improve the instructional program to assist pupils in achieving the Core Curriculum Content Standards;
- B. Measure the needs and progress of individual pupils;
- C. Measure the achievement of grade levels;
- D. Allow comparison of district pupils with national or other norms;
- E. Aid in evaluation of programs.

The district-testing program shall embody at least the tests required by state law. The administration shall continually scrutinize the applicability and effectiveness of tests being used in the district.

School personnel shall not use tests, procedures or other guidance and counseling materials which are differentiated or stereotyped on the basis of race, color, creed, religion, sex, ancestry, national origin or social or economic status.

Any requests for surveys, pupil observations, or pupil questionnaires must be forwarded through the office of the Superintendent of Schools for approval before any survey or observation can be conducted.

New Jersey Interdistrict Public School Choice Program

Policy 6147.2

Date Adopted: March 7, 2011

Date Revised:

Page 1 of 2

The New Jersey Interdistrict Public School Choice Program was created by the New Jersey Legislature in January 2000 and made permanent in June 2010. This program was designed to increase educational opportunities for students and their families by providing students with the option of attending a public school outside their district of residence without tuition.

Beginning in the 2011-2012 school year, students will be able to choose to go to a school outside of this district if the selected school is participating in the choice program. Transportation of up to 20 miles will be provided to a student going to a choice school. If the school is outside of the 20-mile radius, transportation will be the responsibility of the student or his/her parents/guardians.

The choice school will set the number of openings per grade level and if there are more students requesting admission to the school than there are available openings, the choice school will choose the students using a lottery system.

The Millville School District shall not prevent or discourage its students from participating in the School Choice Program, however, a maximum of 10 percent of the number of students per grade per year and/or a maximum of 15 percent of the total number of students enrolled in this district in total shall be permitted to participate in the School Choice Program.

Procedures

In accordance with NJAC 6A:12-4.3(c)1, upon receipt of a Notification of Intent to Enroll in a Choice District from a student residing in this district, the Superintendent of Schools/designee shall verify that the student is enrolled in a school of the district and that the student has been counted as a student in the district in the October ASSA of the current school year.

Pursuant to NJAC 6A:12-3.1(a)4i, in the event that student requests for participation exceed the enrollment percentages listed above, the district will conduct a lottery. The lottery must be held in enough time to meet the deadline established by law for notification to the parent/guardian of the student.

As stipulated in NJAC 6A:12-3.1(a)4i and 4ii, in the first application cycle, the results of the lottery must be used to determine which students will be eligible to participate in the School Choice Program and to develop a waiting list of the remaining students to be used in the second application cycle. Each participant in the lottery must be assigned a number reflecting the student's place on the list of eligible students or on the waiting list.

Series 6000

Policy 6147.2

Page 2 of 2

In the event that some or all of the students in this district who received permission to apply to a choice school district in the first application process do not enroll in a choice school district, this district will first go to its waiting list to ascertain which student will be eligible to apply to a

choice school district in the second application cycle. Should it become evident that there are more openings than may be filled by the students on the waiting list, this district will allow additional students who express an interest in applying to a choice school district to do so. If there are more interested students than would be permitted by this district's enrollment limitation percentage as noted above, this district must conduct a lottery of all newly interested students to determine which students may apply to a choice school district. This lottery should not include students on the first application cycle waiting list who must be offered the opportunity to apply to a choice school district before the newly interested students.

During the second application cycle, it is not necessary to develop a waiting list.

In accordance with NJAC 6A:12-4.39(c), parents/guardians of all students who have submitted a notice of intent to enroll in a choice district by the due date, shall be provided written notification that he student may or may not participate in the School Choice Program.

In cases where the parent/guardian is notified that that student may not participate in the School Choice Program, such notification shall include an explanation as to the reason(s) for not being permitted to participate. In the first application cycle, if the student has been placed on the waiting list, the notification will include that information and provide the waiting list number assigned to the student.

The Board of Education recognizes that field trips, used as a device for teaching and learning integral to the curriculum, are an educationally sound and important ingredient in the instructional program of the school.

For purposes of this policy, a field trip shall be defined as any journey by a group of pupils away from the school premises, under the supervision of a teacher, which is an integral part of an approved course of study and conducted for the purpose of affording a firsthand educational experience not available in the classroom.

Times and locations of field trips shall not be posted on any district web sites.

Educational field trips shall be planned and conducted in accordance with the following guidelines:

1. All trips, and the arrangements/specific itineraries for them, must have advanced approval. The Superintendent of Schools shall review and approve all trips prior to submitting the request to the Board of Education for final approval.
2. A parental permission slip is required for each child participating in the field trip, including walking excursions. Permission slips shall be forwarded to the school office along with a list of chaperones at least one (1) week prior to the field trip. A final student list and chaperone list must be provided to the school office.
3. The teacher will provide the parents with information concerning the purpose and destination of the trip, transportation and eating arrangements, date and time of departure, estimated time of return and if the trip will extend beyond the school day, a detailed itinerary.

Homework / Makeup Work

Policy 6154

Date Adopted: June 2, 2008

Date Revised:

Page 1 of 1

The Board of Education believes that homework relevant to material presented in class provides an opportunity to broaden, deepen or reinforce the pupil's knowledge. Teachers must use discretion in deciding the number and length of assignments. The Board encourages the use of interrelated major homework assignments such as term papers, themes and, creative art projects.

Homework shall not be used for punitive reasons.

Incompletes

When a pupil does not complete work missed for absence or other reasons, he/she will receive an "incomplete" for the marking period. Pupils will be given seven school days following the end of the marking period to make up the missed work.

If work critical to the pupil's understanding of the subject is not made up by the end of the next marking period, the grade for that subject area may be an "F".

If work is missing during the final marking period of the school year, the grade will be left to the discretion of the teacher. The teacher who has given an incomplete is responsible for reporting to the pupil the work he/she has missed and citing the consequences mentioned above.

The Board recognizes the desirability of homework assignments and encourages teachers to assign homework as an aid in their development.

The type, frequency and quantity of homework assignments should be determined by the needs of the individual student and should not require additional instruction beyond class period, thereby requiring parents to supplement instruction. Homework should be an application, interpretation or adaptation of a classroom experience.

The Board believes that personnel and materials appropriate to the needs of the school program must be available to each pupil and teacher.

To be in compliance with the requirements of federal law, the Board of Education directs the Superintendent of Schools to distribute curriculum materials and instructional supplies to the school in such a way that equivalence of such materials is ensured among the grade levels. Staff assignments shall comply with this directive.

When a school fails to achieve adequate yearly progress as defined by the state for two consecutive years, all provisions in federal law shall be followed.

The Board will endeavor to provide the supportive resources and personnel necessary for teachers to implement the approved curriculum in their classrooms and work effectively with children.

It will be the administration's responsibility to set up and maintain such central services for curriculum materials, including audiovisual materials, as are needed, and appropriate channels through which teachers and pupils will be supplied with these resources.

In addition, there will be a media resource center and media specialist to offer children instruction and teachers assistance in selecting and using learning resources.

The instructional materials selected for the School district shall be in accordance with the following resources:

1. Instructional materials (print or software, including videos) shall be chosen for the values of interest and enlightenment of all students in the community. Instructional materials shall not be excluded because of the race, nationality, or the political or religious views of the writer.
2. Every effort will be made to provide materials that present all points of view concerning the problems and issues of our time, international, national, and local. Current and proposed curriculum guides, textbooks and materials will be reviewed to detect any bias based on race, sex, religion, national origin, ancestry, or culture. It must also be ascertained whether instructional materials, singularly or taken as a whole, fairly depict the contributions of both sexes and the various races, ethnic groups, and the like towards the development of human society. (Books or other reading material of sound factual authority shall not be prescribed or removed from library shelves or classrooms because of partisan doctrinal approval or disapproval.)
3. Censorship of instructional materials may be challenged in order to maintain the school responsibility to provide information and enlightenment.

The Board of Education believes that instructional materials should support and enrich the curriculum and make possible the achievement of the district's instructional goals. To ensure that the materials used in this district are up-to-date in the factual matter they present and also reflect the district's underlying philosophy of education, the Superintendent of Schools shall develop procedures for continual review of new materials being offered and evaluation of those materials already in use. The Board of Education shall provide the services of Child Study Team personnel in numbers sufficient to ensure implementation of pertinent law and regulation. The Superintendent of Schools shall present to the Board for approval, job descriptions, qualifications and evaluation criteria for positions required, and shall present to the Board for hiring the best-qualified applicant.

When complete evaluations of pupils are necessary, the Superintendent of Schools shall secure the services of qualified persons or agencies to supplement the district team. Appropriate staff members, such as the nurse and teachers assigned to the pupil, shall also be involved.

Pupils who have been identified by any professional staff member, the parents/guardians of the child, a child welfare agency or by the health services staff as possibly educationally handicapped shall be considered for evaluation.

Teachers and administrators shall provide intervention resources (e.g. adaptive teaching methods and materials, schedule changes, modified workloads, corrective or remedial instruction, etc.) in order to discover whether an observed difficulty is the result of problems within the educational delivery system. Parents/guardians shall be notified of such interventions. The members of the Child Study Team shall be available to discuss problems informally with teachers and parents/guardians.

If the problems persist despite these intervention techniques, a formal referral, requiring due process procedures, shall be initiated. The examination of each such pupil shall proceed promptly in strict accordance with law. The Board shall review and adopt the regulations governing the referral process.

Examination of each identified child shall consist of a physical examination, a psychological examination, an educational examination, a social case study, and such other examinations as may be deemed necessary by the Child Study Team.

Disaffected Pupils:

In addition to the educationally handicapped, the Child Study Team shall consider and recommend appropriate remedies and/or programs for pupils exhibiting disaffected behavior patterns. A survey of needs shall be conducted for each such pupil. If the survey indicates the advisability of a complete evaluation, a referral shall be initiated and due process followed. If the survey indicates a change in program, the Child Study Team shall cooperate with the teaching staff in developing an appropriate program, including, if necessary, alternative programs.

Disruptive Pupils:

All staff members shall be familiar with and implement the discipline policies and procedures adopted by this Board. This implementation will identify the pupil who is disruptive. Staff members shall report the names of pupils who disrupt the educational program to the appropriate administrator who shall initiate actions which will ensure the involvement of the pupil's family and the provision of counseling and assessment services, so as to determine the causes of the pupil's disruptive behavior. A request for pre-referral intervention or for referral for evaluation may be made to the Child Study Team. Throughout this process, administrators, support staff, teachers, parents/guardians, and if prudent, the pupil are to be involved. If all strategies prove unsuccessful, referral to the appropriate outside agency may be made.

In accordance with state law and Board policy, disruptive pupils whose continuing attendance interrupts the educational program and/or threatens harm to themselves and others may be suspended and considered for expulsion.

Research (Student Surveys)

Policy 6162.5

Date Adopted: June 2, 2008

Date Revised:

Page 1 of 2

The Board of Education recognizes that educational research can be a valuable tool in identifying and applying strategies to enhance student achievement and in identifying factors that could prevent students from becoming contributing members of society. Surveys among student populations can be an important part of this research.

Students and parents/guardians retain certain rights, however, in the administration of surveys. The Board shall ensure that prior written consent is obtained from parents/guardians or emancipated students before any survey is administered if the survey (analysis or evaluation) is designed to reveal information on any of the following:

- A. Political affiliations or beliefs of the student or the student's parents/guardians;
- B. Mental and psychological problems of the student or the student's family;
- C. Sex behavior or attitudes;
- D. Illegal, anti-social, self-incriminating, or demeaning behavior;
- E. Critical appraisals of other individuals with whom respondents have close family relationships;
- F. Legally recognized privileged or analogous relationships, such as those of lawyers, physicians, or ministers;
- G. Religious practices, affiliations, or beliefs of the student or the student's parent/guardian; or,
- H. Income (other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such program).

Written informed consent shall also be obtained from parents/guardians or emancipated students prior to the administration of any academic or nonacademic survey, assessment, analysis or evaluation that would reveal the student's social security number.

Parents/guardians shall be given the opportunity to inspect any survey, analysis or evaluation that solicits information in any of the above areas. If parents/guardians object to their child(ren)'s participation in the survey, the child(ren) shall be allowed to opt out.

Prior approval of the Superintendent of Schools is required for all other surveys on topics not listed. Anyone seeking approval of a proposed survey must provide the Superintendent of Schools with details of the survey methodology, its specific educational purpose and a description of how results will be disseminated and applied.

For all surveys the identity of the respondent shall remain confidential.

The Superintendent of Schools shall develop regulations to implement this policy that include reasonable timelines for parents/guardians to access and review surveys as prescribed by law, and arrangements to protect student privacy in the administration of a survey.

This policy and the regulations shall be made available to the public at least annually at the beginning of the school year, especially to parents/guardians and to district staff. The public shall be informed within a reasonable period of time if substantive change is made to policy and regulations. The public shall also be informed of specific or approximate dates, if known, when surveys may be administered.

The district shall provide a program of study for exceptionally able (gifted and/or talented) students in grades Kindergarten through 8 who display outstanding intellectual abilities, academic aptitudes, unique creativity, productive thinking, leadership traits or exceptional talent in the visual and performing arts and in psychomotor skills. Students will have opportunities to enhance/expand their basic education and gain further knowledge and proficiency in areas of special interest and ability. The Board of Education recognizes its responsibility to provide continuous, differentiated, and appropriate educational programs for those exceptionally able students, from the standpoint of sound educational practice and in terms of the intent of State and Federal Law.

Programs will be developed to respond to the range of needs and abilities among gifted and talented students. A variety of instructional methods, grouping and schedules shall be used to provide programs designed to encourage creative thinking, problem solving, and research skills in an effort to further develop higher order thinking skills, abilities, interests, and independent learning.

Acknowledging that special abilities and skills appear at different times in the development of many children the district will carry out a broad-based screening of all students at all grade levels (K-8). Recognizing there is a range of abilities among these identified students, this screening will identify exceptionally able students using multiple indicators of academic and creative potential, including but not limited to tests of academic achievement, aptitude and creativity, samples of student work, nominations obtained from teachers, parents, community members and the students themselves. The screening process will take place each Spring in preparation for the following academic year.

Students moving into the district during the year will be reviewed for participation based on the program criteria from their previous district. As with all Hopewell students, students new to the district may be recommended to participate in the Spring for the following school year.

The Superintendent of Schools shall coordinate development of criteria to identify gifted and /or talented students and present them to the Board for approval.

The Board directs the Superintendent of Schools to develop educational programs for the gifted and talented that both discover and develop special skills but also provide the opportunity for all students to express their special skills and talents. Such programs shall be developed in consultation with the teaching staff members and involve, whenever possible, parents and the students. All programs shall conform to the guidelines developed by the NJ Department of Education.

In compliance with state department of education interpretation of the administrative code on special education, the Board adopts the following revision/amendment of its existing policies on providing educational and related services to pupils identified as having educationally disabling conditions as defined in federal and state law.

- A. Exemption of educationally disabled pupils from the high school graduation requirements according to NJAC 6A:14-4.11 through -4.12

A disabled pupil must meet all state and local high school graduation requirements in order to receive a state-endorsed high school diploma unless exempted in his/her IEP. When a pupil has been exempted from any graduation requirement, his/her IEP shall address alternate requirements to be met. By the year specified in code, the Board shall ensure that all pupils with disabilities participate in statewide assessments with appropriate accommodations or modifications, as determined by the pupil's IEP. If the nature of the pupil's disability is so severe that the pupil is not receiving instruction in any of the knowledge and skills measured by the statewide assessment and the pupil cannot complete any of the questions on the assessment in a subject area with or without accommodations, the pupil shall participate in a locally determined assessment of pupil progress.

By June 30th of a disabled pupil's last year in the elementary program, the pupil's case manager, parent/guardian and teacher(s) shall meet to review the instructional guide and basic plan of the pupil's IEP in view of the transition to the secondary program. Input from appropriate staff from the secondary school shall be part of the review.

The basic plan of the IEP for the pupil entering the secondary program will address all the elements required in the administrative code, including specifically addressing graduation requirements. Required reviews of the IEP shall continue to address graduation requirements.

A disabled pupil who has not been exempted from the proficiencies or has performed below the state minimum level of pupil proficiency on one or more areas of the state-mandated high school proficiency test may participate in the special review assessment (SRA).

Educationally disabled pupils meeting the standards for graduation according to NJAC 6A:14-4.12 shall have the opportunity to participate in graduation exercises and related activities on a nondiscriminatory basis.

- B. Prevention of needless public labeling of educationally disabled pupils

Page 2 of 24

The Board directs that the names and other personally identifiable data concerning educationally disabled children shall be kept confidential and shall not be included in the public acts and public records of this district. Such names and data shall be reduced to code for inclusion in the public record. A special confidential file shall be maintained listing the names of educationally disabled pupils on whose behalf the Board of Education must take public action. Motions concerning disabled pupils made at public meetings shall be anonymous and referred to this confidential file. This file shall be maintained in accordance with NJAC 6A:32-7.1.

Further, the Board, administrators, faculty and other personnel shall avoid unnecessary and needless public labeling of such pupils. This shall include the avoidance of public address announcements so designating pupils, any open identification of classrooms with signs so designating, or any item of open or general circulation, such as photographs, audio/videotapes, etc., that so designates an individual pupil or class. Pupil records shall be maintained in accordance with NJAC 6A:32-7.4.

- C. Compilation, maintenance, access to and confidentiality of pupil records according to NJAC 6A:32-7.4 through -7.6.

To ensure proper accessibility and confidentiality, the records of educationally disabled pupils shall be gathered, updated, maintained, stored, transferred, made accessible and finally disposed of in accordance with the district policy 5125 on pupil records in general. To assure the security of special education records:

1. Provision shall be made for access and security of computer-stored records of educationally disabled pupils;
2. Clerical and secretarial tasks related to such records shall be performed only under the supervision of appropriately certified staff.

As with all pupil records, access shall be guaranteed to persons authorized according to NJAC 6A:32-7.5 within 10 days of the request, but prior to any review or hearing conducted in accordance with state Board of Education regulations.

For the district's general policy and regulation on pupil records see 5125, which deals with all requirements common to disabled and general pupil records including enumeration and description of records, provisions for access, notice to parents/guardians of their rights in regard to the child's records, etc.

- D. Identification, location and evaluation of potentially educationally disabled pupils, according to NJAC 6A:14-3.3

The Superintendent of Schools shall prepare written procedures for identifying those pupils ages three through 21, including pupils attending nonpublic schools, who reside within the district and may be educationally disabled, who are not receiving special

education and/or related services as required. Procedures shall include provision for the referral of pupils who may be experiencing physical, sensory, emotional, communication, cognitive or social difficulties. In order to ensure program placement by a disabled child's third birthday, a written request for initial evaluation shall be forwarded to the district at least 120 days prior to the preschooler attaining age three.

The Board shall ensure that all preschool pupils with disabilities shall have their IEPs implemented no later than their third birthdays. To provide a smooth transition between a child's preschool program and his/her school age program (public or private), particular attention shall be paid to articulation between those programs.

These procedures and arrangements shall be adopted by the Board after review and possible revision. The procedures shall include criteria by which to identify the potentially disabled, and require the participation of staff, parents/guardians and appropriate agencies.

Evaluation and Determination of Eligibility

The evaluation process to determine a pupil's eligibility for educational and related services beyond those available within the regular public school program shall be conducted in strict compliance with the provisions of NJAC 6A:14-2.3, 2.5, 3.4 and 3.5 dealing with:

- Parental notice, notification, consent and involvement, including determination of the parents/guardians' dominant language and necessary accommodations if the language is other than English or if the parents/guardians are deaf;
- An initial evaluation that consists of a multi-disciplinary assessment in all areas of suspected disability and a written report of the results of each assessment;
- Determination that a pupil is eligible for special education and related services when he/she has been identified as having one or more of the thirteen categories of disability described in the administrative code, and the disability adversely affects the pupil's educational performance.

The Superintendent of Schools shall oversee development of detailed procedures to govern the evaluation process, and shall implement them after they have been reviewed and adopted by the Board.

The Board shall ensure that a variety of assessment tools and strategies shall be applied to gather information to develop and monitor the IEP, including cooperation and input from the parents/guardians. Relevant information shall also be related to enabling the pupil to be involved in and progress in the general education curriculum or, for preschool children with disabilities to participate in appropriate activities.

- E. Provision of full educational opportunity to educationally disabled pupils
The Board of Education is responsible for providing education for all children resident in the district. All reasonable efforts will be made to resolve an enrolled child's learning and

adjustment difficulties prior to his/her referral to the child study team for screening and/or evaluation. When a pupil is found eligible for special education and related services and the Board of Education cannot provide required instruction and related services from its own resources and facilities, the Board will seek appropriate placement outside the district, and will assume such costs of that placement as are required by law.

The goal of the Board's special education program is to provide full educational opportunity to all educationally disabled resident pupils ages three through 21, as those terms are defined in federal and state law. The Board will make available to parents/guardians of educationally disabled children below the age of three information regarding services available through other state, county and local agencies.

The Superintendent of Schools shall ensure that the district's special education programs comply with the law in every respect, including fiscal regulations and reports.

The Superintendent of Schools shall also ensure that the district plan for special education is in compliance with administrative code and the approved state plan for special education, according to NJAC 6A:14-4.1. This plan shall consist of policies, procedures, assurances, a comprehensive system of personnel development, data collection and an application that describes the use of IDEA Part B funds.

The Superintendent of Schools shall ensure that the plan is implemented in this district and shall supervise its operation so that it will accomplish its stated goals and objectives.

- F. Participation of and consultation with the parents of educationally disabled pupils toward the goal of providing full educational opportunity to all educationally disabled pupils ages three through 21

In order to achieve the district's goal of providing full educational opportunity to all educationally disabled pupils in accordance with the administrative code, parent/guardian participation shall be sought in every successive stage of the special education decisional process, pursuant to NJAC 6A:14-2.3 and 2.4. All notifications shall be made and all necessary conferences conducted in the language used for communication by the parent/guardian and the pupil unless it is not feasible to do so, in which case the provisions of administrative code shall be followed.

Written notice to parents/guardians and/or adult pupils shall be provided as follows:

- The Board shall provide written notice no later than 15 calendar days after making a determination;
- The Board shall provide written notice at least 15 calendar days prior to the implementation of a proposed action so that the parents/guardians and/or adult pupil may consider the proposal.

The Superintendent of Schools shall develop and present to the Board for review and adoption procedures for:

1. Giving notice to parents/guardians when an initial request is being made for consent to evaluate or when a proposal has been made to initiate or change a classification, evaluation or educational placement of the pupil, or the provision of a free, appropriate education. For each instance, all required information and documentation shall be supplied to the parents/guardians within the timelines set by the administrative code. Particular care must be taken to inform parents/guardians of their right to appeal and their rights in regard to low-cost legal counsel and fees;
2. Seeking consent of parents/guardians to the actions in 1, when such consent is required;
3. Seeking parent/guardian participation in conferences and determinations as specified in 1, and in evaluation of the success of the educational plan for their child. When necessary, conference schedules shall be altered to accommodate working parents/guardians;
4. Mediation when disputes arise during any stage of the special education process which cannot be settled between the original parties.
5. Particularly, parental consent shall be obtained prior to implementation of the initial IEP resulting from evaluation; prior to reevaluation except in the circumstances outlined in code; and prior to the release of pupil records according to NJAC 6:3-6.

Procedures set out in the administrative code shall be followed when parent/guardian cooperation and/or participation cannot be obtained. When necessary, a surrogate parent shall be appointed to ensure the protection of a pupil's rights when the parents/guardians cannot be identified or located or the child is a ward of the State of New Jersey. The district shall select and train such surrogate parents in compliance with the administrative code.

No more than 90 calendar days after parental consent has been received shall be allowed for the evaluation, determination of eligibility and, if the pupil is eligible, the development and implementation of the IEP.

- G. Provision of special services to enable educationally disabled pupils to participate in regular educational programs to the maximum extent appropriate.

The Board of Education will provide the kind and quality of those special education-related services prescribed in the IEP to enable educationally disabled pupils to participate in regular educational programs to the maximum extent appropriate. Such education-related services shall include transportation, ensuring that hearing aids worn by deaf and/or hard of hearing children in school are functioning properly, etc.

When instruction in health, industrial arts, fine arts, music, home economics, and other education programs is provided to groups consisting solely of pupils with disabilities, the size of the groups and age range shall conform to the requirements for special class programs described in the administrative code.

When pupils with disabilities participate in physical education, intramural and interscholastic sports, on-academic and extracurricular activities in groups consisting solely of pupils with disabilities, the age range and group size shall be based on the nature of the activity, needs of the pupils participating in the activity and the level of supervision required.

The evaluation process to determine a pupil's eligibility for educational and related services beyond those available within the regular public school program shall be conducted in strict compliance with the provisions of the administrative code.

H. Determination of eligibility according to NJAC 6A:14-2.3(i)1 and 3.5 through -3.6

Eligibility for special education and related services shall be determined collaboratively by the parents/guardians; a teacher who is knowledgeable about the pupil's educational performance or district's programs; the pupil, where appropriate; at least one child study team member who participated in the evaluation; the case manager; other appropriate individuals at the discretion of the parent or district; and for an initial eligibility meeting, certified school personnel referring the pupil as potentially disabled, or the school principal or designee if they choose to participate.

A pupil shall be determined eligible and classified for special education and related services when it is determined that the pupil has one or more of the disabilities defined in the administrative code. A pupil shall be determined eligible for speech-language services when he/she exhibits a speech or language disorder as outlined in the administrative code.

I. The individualized education program for each educationally disabled pupil shall be developed in accordance with the provisions of the administrative code, at NJAC 6A:14-2.3(i) and NJAC 6A:14-3.7.

The Board shall ensure that an IEP is in effect for every pupil in the district who is receiving special education and related services.

A written individualized education program shall be developed and implemented for each classified pupil and, in accordance with New Jersey law, a review shall be conducted by the appropriate staff members annually or more often, if necessary, to evaluate the disabled pupil's progress and to revise the individualized education program.

Meetings shall be conducted to determine eligibility and to develop, review and revise a pupil's individualized education program. Such meetings shall be scheduled at a mutually agreed upon time and place, and notice of the meetings shall indicate the purpose, time, location and participants. If the parents/guardians cannot attend the meetings, the Superintendent of Schools/designee shall attempt to ensure parental participation, including the use of individual or conference telephone calls.

Documentation shall be maintained of all attempts to secure parent/guardian participation.

Parents/guardians shall receive a copy of the pupil's IEP and of any revisions made to it.

All communication with parents/guardians, including written notice, notifications and required meetings, shall be conducted in the language used for communication by the parent/guardian and pupil unless it is not feasible to do so. This shall include providing foreign language interpreters or translators and sign language interpreters for the deaf at no cost to the parents.

The IEP shall be developed and monitored with the cooperation and input of parents/guardians. In addition to educational programming, the IEP shall provide for necessary disciplinary action and specify graduation requirements when appropriate. Any accommodations and/or modifications for the administration of statewide assessments shall be specified in the IEP.

1. No more than 90 calendar days after parental consent has been received shall be allowed for the evaluation, determination of eligibility and, if the pupil is eligible, the development and implementation of the IEP. The IEP shall be implemented as soon as possible following the IEP meeting.
 2. The Board of Education will provide the kind and quality of those special education-related services prescribed in the IEP to enable educationally disabled pupils to participate in regular educational programs to the maximum extent appropriate. Such education-related services shall include transportation, ensuring that hearing aids worn by deaf and/or hard of hearing children in school are functioning properly, etc.
- J. Protection of pupils rights in regard to evaluation and reevaluation procedures according to NJAC 6A:14-3.4 and 3.8.

Procedures shall provide all due process protection for the rights of the pupil and his/her parents/guardians whether the pupil is already enrolled in the schools or has been located through the process for identification in the section D of this policy.

In order to achieve the district's goal of providing full educational opportunity to all educationally disabled pupils in accordance with the administrative code, parent/guardian

participation shall be sought in every successive stage of the special education decisional process. All notifications shall be made and all necessary conferences conducted in the language used for communication by the parent/guardian and the pupil unless it is not feasible to do so, in which case the provisions of administrative code shall be followed. The Superintendent of Schools shall develop and present to the Board for review and adoption procedures for:

1. Giving notice to parents/guardians and adult pupils in accordance with NJAC 6A:14-2.3 when an initial request is being made for consent to evaluate or when a proposal has been made to initiate or change a classification, evaluation or educational placement of the pupil, or the provision of a free, appropriate education. For each instance, all required information and documentation shall be supplied to the parents/guardians within the timelines set by the administrative code. Particular care must be taken to inform parents/guardians and adult pupils of their right to review all educational records with respect to the identification, evaluation and educational placement of the pupil; to appeal these by requesting a due process hearing; and their rights in regard to free and low cost legal services and legal fees;
 2. An independent evaluation at the request of the parent/guardian or adult pupil in accordance with NJAC 6A:14-2.5(c). Such independent evaluation shall be at no cost to the parent/guardian if it is conducted in compliance with administrative code, unless the district Board of Education initiates a due process hearing to show that its evaluation is appropriate and a final determination to that effect is made following the hearing. The IEP team shall consider any independent evaluation submitted to it when making decisions regarding special education and/or related services;
 3. Mediation when disputes arise during any stage of the special education process which cannot be settled between the original parties. A due process hearing may be initiated by the Board of Education, a parent/guardian or adult pupil;
 4. Ensuring what all evaluation procedures, including but not limited to observations, tests and interviews used to determine eligibility and placement of disabled pupils, shall comply with the requirements of NJAC 6A:14-3.4, 3.5 and 3.7.
- K. Placement of educationally disabled pupils in the least restrictive environment according to NJAC 6A:14-4.2.
- Educational placement decisions made for each disabled pupil shall always be, insofar as possible, in the least restrictive environment commensurate with the pupil's educational needs. This means that to the maximum extent appropriate, educationally disabled pupils shall be educated with children who are not educationally disabled. These decisions should be designed to produce a positive effect on the pupil and to ensure the quality of services which he/she requires.

The Superintendent of Schools shall encourage positive attitudes toward the educationally disabled in all district pupils and personnel.

Page 9 of 24

Special classes, separate schooling or other removal of educationally disabled pupils from the regular educational environment shall occur only when the nature or severity of the disability is such that education in regular classes with the use of supplementary aids and services cannot be achieved satisfactorily.

In order to ensure a continuum of alternative placements, when the Board cannot provide required instruction and related services from its own resources and facilities, it will seek appropriate placement outside the district and will assume such costs of that placement as are required by law.

Placement of a disabled pupil in the least restrictive environment shall be determined annually. Placement shall be provided in appropriate educational settings as close to home as possible. When the IEP does not describe specific restrictions, the pupil shall be educated in the school he/she would attend if not disabled.

- L. Establishment and implementation of procedural safeguards according to NJAC 6A:14-2.3 through -2.4 and NJAC 1:6A. The Board of Education directs the Superintendent of Schools to establish and implement the required procedural safeguards.

Procedural safeguards shall include:

1. Giving notice to parents/guardians per NJAC 6A:14-2.3 when an initial request is being made for consent to evaluate or when a proposal has been made to initiate or change a classification, evaluation or educational placement of the pupil, or the provision of a free, appropriate education. For each instance, all required information and documentation shall be supplied to the parents/guardians within the timelines set by the administrative code. Particular care must be taken to inform parents/guardians of their right to appeal and their rights in regard to legal fees;
2. Seeking consent of parents/guardians to the actions in 1, when such consent is required;
3. Seeking parent/guardian participation in conferences and determinations as specified in 1, and in evaluation of the success of the educational plan for their child. When necessary, conference schedules shall be altered to accommodate working parents/guardians;
4. Mediation when disputes arise during any stage of the special education process which cannot be settled between the original parties.

The Superintendent of Schools shall ensure that the district's special education programs comply with the law in every respect, including fiscal regulations and reports.

These procedures shall provide all due process protection for the rights of the pupil and his/her parents/guardians. Procedures shall be conducted in strict compliance with the provisions of the administrative code dealing with parental notification, consent and involvement, including determination of the parents/guardians' dominant language and necessary accommodations if the language is other than English or if the parents/guardians are deaf.

To implement achievement of the Board's goal for provision of special education, the Superintendent of Schools shall oversee development of a written plan for special education conforming to the state plan for the educationally disabled. The plan shall consist of policies, procedures, assurances; a comprehensive system of personnel development; data collection and an application that describes the use of IDEA Part B funds.

- M. Complying with other aspects of the district program for special education and/or requirements of NJAC 6A:14

Written Plan

To implement achievement of the Board's goal for provision of special education, the Superintendent of Schools shall oversee development of a written plan for special education conforming to the state plan for the educationally disabled. After the plan has been approved by the Board of Education and the county superintendent, the Superintendent of Schools shall implement it in this district and supervise its operation so that it will accomplish its stated goals and objectives. The plan, any alterations to it, and an evaluation of its effectiveness will be shared annually with the community.

Discipline

In general, educationally disabled pupils are subject to the same disciplinary constraints and sanctions as nondisabled pupils. However, before disciplinary action is taken against an educationally disabled pupil, consideration must be given to whether the behavior is caused by the disabling condition, whether the program that is being provided meets the pupil's needs, whether a component of the pupil's IEP covers the behavior, or whether the pupil is an immediate danger to himself/herself or others.

A disabled pupil may be removed for disciplinary reasons from his/her current educational placement to an interim alternative educational setting, another setting, or a suspension without the provision of educational services for up to 10 consecutive or cumulative school days in a school year. Such suspensions are subject to the same district Board of Education procedures as nondisabled pupils. However, at the time of removal, the principal shall forward written notification and a description of the reasons for such action to the case manager.

Page 11 of 24

Procedures for imposing and implementing disciplinary sanctions on educationally disabled pupils, including removal to an interim alternative educational setting, suspension for more than 10 school days in a school year, or expulsion, shall be in strict compliance with the provisions of state and federal law and the administrative code. (See NJAC 6A:14-2.8, 3.7 and Appendix A)

Early Intervention

The Superintendent of Schools or designee shall gather and make available to parents/guardians of disabled children below the age of three information regarding ameliorative services and programs provided by other state, county and local agencies. The procedures for such dissemination shall be reviewed and adopted by the Board.

Preschool Disabled Program

The Superintendent of Schools shall develop and propose for Board adoption programs and related services for pupils ages three through five who have been identified and classified as preschool disabled. Such programs and services shall be in strict accordance with New Jersey administrative code.

Placement in Nonpublic Schools

The Board shall provide a genuine opportunity for the equitable participation of pupils with disabilities who have been enrolled in nonpublic schools by their parents/guardians, in accordance with federal law and regulations. All special education programs and services shall be provided with the consent of parents/guardians.

Pupils shall receive programs and services as specified in NJAC 6A:14-6.1.

Limited English Proficient

Pupils with limited English proficiency may have educationally disabling conditions that must be addressed in order to provide them the full educational opportunity that is the goal of the district for every child. Evaluation procedures shall be selected so that the pupil's cultural background and language abilities are taken into consideration unless it is clearly unfeasible to do so; and shall accurately reflect the pupil's ability rather than the impairment. All actions under Parent/Guardian Notification, Consent and Participation are to be conducted in the parents/guardians' dominant language, unless that is clearly impossible. In that case, care shall be taken that the facts and procedures are made intelligible to the parents/guardians.

Cooperation with Other Agencies

The Superintendent of Schools shall investigate the possibilities of working with organizations and agencies providing services for the disabled, and shall present feasible programs and relationships to the Board for consideration.

Evaluation of Program

At least annually, the Board shall review in a public meeting evidence of progress toward achievement of the special education plan as a whole, the success of identification procedures specifically, and the effectiveness of implementation of IEPs.

The Superintendent of Schools shall ensure that all requirements for receiving, using and accounting for state and federal funds shall be fulfilled in an accurate and timely manner.

Procurement, control, use and disposition of equipment and supplies purchased with state/federal funds shall be in full compliance with law.

Access

In addition to educational programs, the Board directs that the Superintendent of Schools take into consideration physical access to district facilities for disabled pupils, staff and the community in determining location of programs or planning new facilities per state and federal law.

Special Education Medicaid Initiative Program (SEMI)

Policy 6171.6

Date Adopted: November 3, 2008

Date Revised:

Page 1 of 4

The Board of Education directs the Director of Special Education to oversee and ensure that appropriate steps are taken to maximize its revenue from the Special Education Medicaid Initiative Program (SEMI) by following the policies and procedures as set forth in this policy.

However, the Board of Education also directs that the Director of Special Education may seek, in the prebudget year, a waiver of the requirements of NJAC 6A:23A-5.3 upon demonstration that for the subsequent school year:

- The district projects, based on reliable evidence, that it will have 30 or fewer Medicaid eligible classified students; or
- The district demonstrates that efforts to participate in SEMI would not provide a cost benefit to the district, based on the projection of the district's available SEMI reimbursement for the budget year as set forth in below.

The waiver request must be submitted to the Executive County Superintendent by the date stipulated by law and the Executive County Superintendent shall promptly review the request and render a decision by the date specified by law. If the waiver is not granted, the district shall submit a SEMI action plan to the Executive County Superintendent as required as part of its annual district budget submission or demonstrate to the Executive County Superintendent that the district has achieved maximum participation in the SEMI program in the prebudget year.

As part of the annual budget information, the New Jersey Department of Education shall provide the district with a projection of available SEMI reimbursement for the budget year, as determined by the New Jersey State Department of Treasury's third party administrator for SEMI. The projection shall be based on the following:

- Number of Medicaid eligible students;
- Assumption of 20 services per eligible students per year;
- One IEP meeting per eligible student per year; and,
- Applicable SEMI reimbursement rates.

Beginning with the 2009-10 school year, the district shall recognize as revenue in its annual district budget no less than 90 percent of said projection.

The district may seek approval from the Executive County Superintendent to use its own projection of SEMI reimbursement upon demonstration that the numbers it used in calculating the projection are more accurate than the projection provided.

The district shall strive to achieve maximum participation in the SEMI program. For purposes of this section, "maximum participation" means obtaining a 90 percent return rate of parental/legal guardian consent forms for all SEMI eligible students and the district shall enter all students following their evaluations into the third-party system to identify the district's universe of eligible students. This can be done without parental/legal guardian consent.

When participating in the SEMI reimbursement program, the district shall comply with program requirements as follows:

- Any service submitted to Medicaid for reimbursement shall be rendered by a Medicaid qualified practitioner, or rendered by a provider under the supervision of a Medicaid qualified practitioner. The following outlines the required documentation for each related service provider:
 - A. Nurses – copy of license (DOE certification is not required for SEMI)
 - B. Occupational Therapist – copy of license and DOE certification
 - C. Physical Therapist - copy of license and DOE certification
 - D. Psychologist – copy of DOE certification
 - E. Social Worker - copy of DOE certification
 - F. Speech Therapist – copy of license, DOE certification, and ASHA certification or Masters Degree in Speech Pathology on or after January 1, 1993.
- Practitioners who are not Medicaid qualified can deliver services under the direction of Medicaid qualified practitioners. These include certified occupational therapist assistants (COTAs), physical therapist assistants (PTAs) and speech correctionists.
- Any direct therapy or other related service shall be prescribed in the related services section of the student's IEP prior to submitting a claim to Medicaid for reimbursement. Delivery of nursing services and dispensing of medication must be referenced in the IEP and supported by physicians' orders or prescriptions. These documents must be maintained on file. Supporting documentation to be maintained by the district shall be the cover/signature page, related services section of the IEP, therapy logs, and the evaluations and assessments conducted by the Medicaid-qualified practitioners.
- Entities where the district has placed SEMI eligible students shall take steps to enable districts to maximize participation, including either logging the eligible services provided directly through the vendor or the sending district, as mutually agreed upon with the district, and obtaining SEMI provider qualification certifications. Every out-of-district placement must provide copies of SEMI provider qualifications, certifications and licenses. This rule applies to the following out-of-district placement options:
 - A. Approved Private Schools for Students with Disabilities;
 - B. Educational services commissions;
 - C. Jointure commissions;
 - D. Vocational half-time programs;
 - E. Department of Education Regional Day Schools; and,
 - F. Special Service School Districts.
- All supporting documentation for a Medicaid claim shall be maintained on file and available for audit or State review for at least seven years from the date of service. Supporting documentation shall include provider certification (current and historical for each provider), provider service logs, licenses and certifications, physician authorizations for nursing services, parental/legal guardian consent forms, attendance records, and copies of the student IEP.

If the district has less than 90 percent participation of SEMI eligible students in the 2007-2008 school year or has failed to comply with all program requirements set forth above, the district shall demonstrate a good faith effort to achieve maximum participation and to maximize available SEMI revenue during the 2008-2009 school year by submitting a SEMI action plan to the Executive County Superintendent for review and approval by September 1, 2008. In subsequent years, each district that has less than 90 percent participation of SEMI eligible students in the prebudget year or that has failed to comply with all program requirements set forth above shall submit a SEMI action plan to the Executive County Superintendent for review and approval as part of the district's proposed budget submission.

The SEMI action plan shall include the following components:

- Procedures for obtaining parental/legal guardian consent forms including the Parental/Legal Guardian Consent Best Practices which are available from the Department.
- Establishment of a benchmark for the 2008-09 school year or for the first year that the district does not have an approved waiver pursuant to the provisions of (b) above, whichever is applicable, for obtaining maximum participation of all SEMI eligible students by the start of the subsequent school year.

The benchmarks for the 2008-09 school year or for the first year that the district does not have an approved waiver, whichever is applicable, for achieving maximum participation shall at a minimum close the gap between current participation and maximum participation by 50 percent by the beginning of the subsequent school year.

The benchmarks shall be based on the percentage of parental/legal guardian consent forms collected from eligible students. The number of parental/legal guardian consent forms shall reflect one parental/legal guardian consent form for each eligible student. This should include documentation of parental/legal guardian refusal to give consent.

Procedures to ensure that all IEP meetings are documented in the third-party administrator's system. IEPs are only claimable if a Medicaid qualified practitioner is present.

Procedures to ensure that all SEMI eligible services, including services provided by entities where the district has placed SEMI eligible students, are documented in the third-party administrator's system.

Procedures to ensure that a valid IEP is on file and the IEP date is on file in the third-party administrator's system for each SEMI eligible student for whom parental/legal guardian consent has been obtained.

Procedures to ensure that service providers used by the district and entities where the district has placed SEMI eligible students have valid licenses and certifications documenting SEMI provider qualifications on file in the third-party administrator's system.

If the district did not achieve 90% participation or achieve its approved benchmarks in the SEMI program for a given budget year and cannot demonstrate that they fully implemented their Department approved SEMI action plan required above, the district shall be subject to review for the withholding of State aid by the Commissioner pursuant to NJSA 18A:55-3 in an amount equal to the SEMI revenue projection based on their approved benchmark for the budget year, if applicable, less actual SEMI reimbursements for the budget year. The State aid deduction shall be made in the second subsequent year after the budget year.

The district does not discriminate on the basis of disability with regard to admission, access to services, treatment or employment in its programs or activities based on the requirements outlined in Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act (ADA). The definition of an "individual with a disability" is a person who: has a mental or physical impairment which substantially limits one or more major life activities, such as seeing, hearing, speaking, breathing, learning, or working; or has a record of such impairment; or is regarded as having such an impairment.

The district will evaluate students, identify student eligibility according to 504 law, and provide accommodations so that those eligible receive a free appropriate education. Parents of all students are entitled to and will receive procedural safeguards, including individual notice and an impartial hearing. No discrimination against any person with a disability will be knowingly permitted in any of the programs and practices of the district.

The Board of Education has established the following grievance procedure to resolve complaints of discrimination as mandated by the family education rights and privacy act (FERPA):

Procedural Safeguards Under Section 504 of the Rehabilitation Act of 1973

Section 504 prohibits discrimination against persons with a disability in any program receiving Federal financial assistance. Each parent or guardian of a child being served under 504 or ADA or considered for such service are guaranteed all of the FERPA. These rights include, but are not limited to:

- The right to file a grievance over alleged violation of Section 504;
- The right to be represented by counsel in the impartial hearing process ;
- To receive information in your native language or primary mode;
- The right to have an evaluation that draws information from a variety of sources;
- The right to be notified of any proposed action related to eligibility or 504 plan;
- The right to periodic reevaluations and an evaluation before any significant change in program or eligibility;
- The right for students to be given an equal opportunity to participant in non-academic and extracurricular activities offered by the district

504 Appeals / Grievance Procedure

Appeals of the recommendations of the multi-disciplinary team regarding 504 services will be resolved via mediation wherever possible. The initial level of local mediation will be provided by the Building Principal.

Office of Civil Rights Complaint Procedure

If a person believes that any aspect of Section 504 of the Rehabilitation Act of 1973 has been violated, he/she may initiate a complaint to the Office of Civil Rights (OCR). The person or organization filing the complaint need not be the victim of the alleged discrimination; but may issue a complaint on behalf of another person or group. A complaint must be filed within 180 calendar days of the date of the alleged discrimination, unless the time for filing is extended by OCR for good cause. The complaint should be in the form of a letter, explaining:

- Who was discriminated against? (Name, Address, Phone Number)
- In what way? (On the basis of being a “handicapped person” as defined in Section 504, describe how the major life activity of learning is being impacted by your child’s disabling condition)
- When the discrimination took place. (On what date did the alleged act of discrimination take place?)
- State in full what occurred to lead you to believe that your child was discriminated against. Provide names, dates and other forms of information which are available to you, such as supporting documents. If you do not already have your child’s complete pupil record, this would be an important time to request it of your school district.
- Define the desired outcome(s).
- Who can be contacted for additional information? (List the names, addresses, and phone numbers, if available, of any persons having knowledge of the discriminatory treatment.)
- If you have filed a complaint with any other federal, state or local civil rights agencies, please list these.
- Writer’s name, address and phone number (daytime)

Protection of Pupils' Rights in Regard to Evaluation & Reevaluation

Policy 6171.12

Date Adopted: June 2, 2008

Date Revised:

Page 1 of 2

The Board of Education assures procedures shall provide due process protection for the rights of the pupil and his/her parents/guardians whether the pupil is already enrolled in the schools or has been located through the process for identification.

In order to achieve the district's goal of providing full educational opportunity to all educationally handicapped pupils in accordance with the administrative code, parent/guardian participation shall be sought at every successive stage of the Special Education decision process. All notifications shall be made and all necessary conferences conducted in the language used for communication by the parent/guardian and the pupil unless it is not feasible to do so, in which case the provisions of administrative code shall be followed. The Superintendent of Schools shall develop and present to the Board for review and adoption procedures for:

1. Giving notice to parents/guardians in accordance with NJAC 6:28-2.3 when an initial request is being made for consent to evaluate or when a proposal has been made to initiate or change a classification, evaluation or educational placement of the pupil, or the provision of a free, appropriate education. For each instance, all required information and documentation shall be supplied to the parents/guardians within the timelines set by the administrative code. Particular care must be taken to inform parents/guardians and adult pupils of their right to review all educational records with respect to the identification, evaluation, and educational placement of the pupil; to appeal these by requesting a due process hearing; and their rights in regard to low cost legal services and legal fees;
2. An independent evaluation at the request of the parent/guardian. Such independent evaluation shall be at no cost to the parent/guardian if it is conducted in compliance with administrative code unless the district Board of Education initiates a due process hearing to show that its evaluation is appropriate and a final determination to that effect is made following the hearing. The district Child Study Team shall consider any independent evaluation submitted to it when making decisions regarding Special Education and/or related services;
3. Mediation when disputes arise during any stage of the Special Education process that cannot be settled between the original parties. The Board of Education, a parent/guardian or adult pupil may initiate a due process hearing;
4. Ensuring that all evaluation procedures, including but not limited to observations, tests and interviews used to determine eligibility and placement of handicapped pupils, shall comply with the requirements of NJAC 6:28-2.5

Procedures set out in the administrative code shall be followed when parent/guardian cooperation and/or participation cannot be obtained. When necessary, a surrogate parent shall be appointed to ensure the protection of a pupil's rights when the parents/guardians cannot be located or the

child is a ward of the State of New Jersey. The district shall train such surrogate parents in compliance with the administrative code.

District Special Education Procedures

1. Tests, observations and interviews shall be selected and administered by appropriate member of a multidisciplinary team of professionals consisting of members of the Child Study Team, school physician and other specialists according to NJAC 6:28-3.5, each employing two or more appropriate evaluation procedures.
2. Tests, observations and interviews shall be used by personnel certified and trained in the administration and interpretation of such procedures.
3. Tests shall be validated for the purpose(s) for which they are administered.
4. Tests, observations and interviews shall be selected and administered considering each pupil's cultural background and language abilities and in the pupil's native language.
5. Tests, interviews and observations shall be selected, administered and interpreted so that when a pupil has sensory, manual or communication impairments, the results accurately reflect the ability, which that procedure purports to measure rather than the impairment unless that is the intended purpose of the testing.
6. Tests, observations and interviews shall not be racially or culturally discriminatory.
7. Tests, observations and interviews shall be conducted on an individual basis.
8. Information from group tests shall be used only to supplement individual evaluations.
9. Consideration will be given to the pupil's socio-cultural background and adaptive behavior in the home, school and community.
10. Parents may request an independent evaluation if there is disagreement with the evaluation provided by the district. Such evaluation shall be at no cost to the parents unless a due process hearing has been initiated to show the district's evaluation to be appropriate.
11. At a parent's request, information shall be provided as to where an independent evaluation may be obtained.
12. Any independent evaluation submitted to the Child Study Team shall be considered in making decisions regarding Special Education and/or related services.

The Board endeavors to provide an educational program adjusted to the needs of the individual child within the financial means of the district. Grouping enables a more efficient use of staff in meeting these needs. Program adaptations provide another means of using staff efficiently and effectively to meet the needs of many children.

When the needs of special individuals or groups cannot be met through adaptation or independent study, the Superintendent of Schools shall investigate and propose to the Board for approval alternative programs and facilities.

Each alternative education program shall fulfill the program criteria that are specified in NJAC 6A:16-9.2 including but not limited to:

- A. A maximum student-teacher ratio of 12:1 for high school programs,
- B. A maximum student-teacher ratio of 10:1 for middle school programs,
- C. An Individualized Program Plan (IPP) shall be developed for each general education student enrolled in the program,
- D. For students with disabilities the alternate education program shall be consistent with the student's Individualized Education Plan (IEP).

Home Schooling

The Board acknowledges the right of parents/guardians to educate their children at home. The Board is not required by law to allow a resident child educated elsewhere than at school to participate in the regular school curriculum or in extracurricular or sports activities. The Board of Education may allow a child educated elsewhere than at school to participate in curricular and extracurricular activities or sports activities and/or loan books or materials to a child educated elsewhere than at school.

In the event the Superintendent of Schools determines there is credible evidence that the parent/guardian is not causing the child to receive equivalent instruction elsewhere than at school, the Superintendent of Schools may request a letter of intent from the parent/guardian confirming the child is receiving equivalent instruction elsewhere than at school. The Superintendent of Schools may report to the appropriate municipal authorities children whom he/she has reason to believe are not receiving an education in accordance with NJSA 18A:38-25. The New Jersey Department of Education encourages the parent/guardian of school-aged children to notify the Superintendent of Schools of the intent to educate said school-aged children elsewhere than at school to avoid questions with respect to compliance with the compulsory education laws of this state.

Required Services to Home Schooled Students

When a student of this district is home schooled, the district shall:

- Provide payment for tuition when a student is enrolled in a shared-time vocational school program. Once a resident student is enrolled in a shared-time vocational school program the student becomes a public school student;
- Review any written request for a special education evaluation and if warranted conduct an evaluation as described in Policy 6171.4 Special Education and in accordance with the federal special education law, Individuals with Disabilities Education Act (P.L. 108-446 §612).

If the student is eligible for special education and related services, the district shall make a free, appropriate public education available only if the student enrolls in the district. If the student does not enroll in the district, but the district chooses to provide services, the district will develop a plan for the services to be provided.

A child educated at home shall not receive a State-endorsed high school diploma from the Board of Education.

Disruptive/Disaffected Children

The Board of Education recognizes that the active engagement of each pupil is a primary requisite for sound teaching and learning to take place. When a child is unable to benefit from the educational program because he/she is either disruptive or disaffected, then the educational goals of the district for that child will not be realized and the efforts of other pupils may be impeded. In an effort to optimize the educational experience for each child, the Superintendent of Schools shall develop procedures to identify and work with disruptive/disaffected pupils.

When it is determined by the Child Study Team that a disruptive/disaffected pupil is not classifiable, the Board shall consider some other program as an alternative to regular classroom attendance. When the district does not have a suitable alternative program available, the Superintendent of Schools shall recommend to the Board placement in a program of another district,.

In accordance with state law and Board policy, disruptive pupils whose continuing attendance interrupts the educational program and/or threatens harm to themselves and others may be suspended and considered for expulsion. (See Policy 5114).

Removal for Weapons Offenses or Assault

Any pupil who is convicted or found to be delinquent for the following offenses shall be immediately removed by the Superintendent of Schools from the district's regular education program for a period of not less than one calendar year and placed in an alternative education school or program pending a hearing before the Board of Education to remove the pupil:

- Possessing a firearm on any school property, on a school bus, or at a school sponsored function; or
- Committing a crime while possessing a firearm.

The Superintendent of Schools shall determine at the end of the year whether the pupil is to return to the district's regular education program, in accordance with procedures established by the Commissioner of Education.

Any pupil who assaults a pupil, teacher, administrator, Board member, or other district employee with a weapon other than a firearm on school property, on a school bus, or at a school-sponsored function must be immediately removed from the school's regular education program and placed in an alternative school or program, pending a hearing before the Board. The Superintendent of Schools shall determine when the child shall return to the regular education program.

Potential Dropouts

While statute requires attendance of each pupil only until 16 years of age, it is in the best interests of both pupils and the community that they complete the educational program that will equip them with skills and increase their chances for a successful and fulfilling life beyond the schools.

The Board directs that whenever a pupil wishes to withdraw, or has been identified as a potential withdrawal, effort should be made to determine the underlying reason and the resources of the district should be used to assist the pupil in reaching his/her career goals. No pupil under the age of 18 will be permitted to withdraw without the written consent of a parent/guardian.

The Superintendent of Schools shall develop procedures for withdrawal from school that:

- A. Make counseling services available to any pupil who wishes to withdraw;
- B. Make every effort to satisfy the pupils' future educational needs;
- C. Help the pupil define his/her own educational life goals and help plan the realization of those goals;
- D. Inform the pupil of the high school equivalency program.

The Board of Education recognizes that sound planning based on accurate information is essential to the provision of suitable educational facilities. In order to ensure that future district construction is planned on the basis of need, the Board, in accordance with rules of the State Board of Education, will maintain a long range facilities plan and revise it any time construction plans are sent to the Bureau of Facility Planning Services of the New Jersey Department of Education.

The plan will include a thorough description and analysis of local and regional demographic factors that influence general population growth and public school enrollments. The plan will detail substandard spaces in district facilities and the Board's intent to eliminate their use or to bring such spaces into compliance with rules of the State Board of Education.

In order to apprise the Board of facilities needs, the Superintendent of Schools shall cause the development of the long-range facilities plan, which shall include but not be limited to:

- A. Demographic information and enrollment projections
- B. Changes to the education program including but not limited to:
 - 1. Grade organization;
 - 2. Program revision.
- C. A determination of facilities needs based on:

 - 5. Any improvements to a site;
 - 6. The construction of structures or special facilities on site including:
 - a. Athletic fields,
 - b. Stadium,
 - c. Playgrounds,

8. Additions to built-in equipment or other furniture and equipment acquired through capital outlay funds;
9. Cost estimates for any item included in the plan;
10. A schedule for any item included in the plan.

In planning for the enlargement or modification of its facilities, the Board shall consider not only the number of children whose educational needs must be met, but also the physical requirements of the program it deems best suited to meet those needs. Each school building and site will provide suitable, barrier-free accommodations to carry out the educational program of the school, including provision for the disabled, pursuant to federal and state law and rules of the State Board of Education.

Substandard Facilities

All existing school facilities will be evaluated annually for their suitability to current district needs. Any facilities found to be substandard according to the administrative code shall be corrected as quickly as possible in compliance with law.

The Board recognizes that efficient administration of the district requires the disposition of property no longer necessary for the maintenance of the educational program or the operation of the district. The Board also recognizes its responsibility to provide a thorough and efficient program of free public education and appropriate facilities to house that program. The Board further recognizes that declining enrollments, diminished resources, district reorganization, or other good cause may require that the use of one or more district facilities for educational purposes be retired.

The Board will not commit itself to the closing of any school facility without first having collected and considered appropriate information regarding pupil enrollments, the educational adequacy of school facilities, relevant safety and traffic factors, district revenues, and alternative district organizational plans. The Board will invite citizen participation in the analysis of that information and the formulation of recommendations. Information on any proposed district reorganization will be disseminated to the public, and public response will be invited by all appropriate means.

Real estate property shall be disposed of by sale or otherwise, in accordance with law. To dispose of an operational school building and all or part of the total acreage the Board will submit a written report for approval to the Department of Education, with a copy to the County Superintendent of Schools.

Ultimately the Board alone is responsible for the organization of the school district and the establishment and retirement of school facilities. Formal action to accomplish those ends shall be taken only by the Board duly convened.

Upon written approval by the Bureau, the Board shall dispose of the school building and/or acreage according to law.

Policy 7550

Date Adopted: June 2, 2008

Date Revised:

Page 1 of 1

The right to name schools, rooms, facilities, offices, athletic fields, special purpose areas and/or other district property rests with the Board of Education. Buildings, rooms, facilities and/or other district property may or may not be named at the Board's sole discretion.

Names proposed shall be free from biases, prejudices and political and religious connotations. In selecting a name, the Board shall not discriminate because of gender, race, sexual orientation, creed or national origin.

If named for a person, that person should have been a former school district educator or administrator, local resident, Board Member, county resident, or an employee of the school district who has had significant beneficial effect on the school system and its students. However, names of inspiring national or international persons are also allowable.

Names may be submitted by individuals, organizations, committees or the Board itself. For the purposes of this policy, these individuals or groups shall be referred to as the "sponsor." In order to be considered, the sponsor must identify the importance and relevancy of the name submitted for consideration.

Sponsors shall present their proposal to the Superintendent of Schools, who in turn will present it to the Board of Education for consideration. The Board will consider all names submitted. By majority vote of the full Board of Education at a regularly scheduled meeting, the Board may accept or reject the proposed name.

Once the Board has approved a name submitted for a school, room, facility, office, athletic field, special purpose areas and/or other district property, the Board will determine the advisability of conducting an appropriate public ceremony and/or if a plaque, monument, painting, sign, or engraving of the name selected should be placed on the facility.

The expenses incurred for any plaque, monument, painting, sign, or engraving of the name selected and/or its installation may be borne by the Board of Education or the sponsor, at the sole discretion of the Board.

The New Jersey State Constitution requires the Legislature to “provide for the maintenance and support of a thorough and efficient system of free public schools”. The Legislature, therefore, has sought to maintain in the management of schools an appropriate balance between local authority and initiative on the one hand, and State control and supervision on the other hand.

The State Department of Education, consisting of the State Board of Education and the Commissioner of Education, with his/her staff, has been created by the Legislature to exercise general control and supervision of public education. The school district has similarly been created as a unit for the exercise of local authority and initiative as defined in Title 18A of New Jersey statutes. Other sections of the statutes state or imply that a local Board of Education or school district have full power to operate the public school program in its charge as it deems fit in compliance with state and federal mandates and pertinent laws of the governing entity.

The Board of Education shall be a body corporate and shall be known as the Board of Education.

The Board of Education shall organize and operate in the manner provided by law and shall have all the powers as are now or may hereafter be provided by law.

In the interpretation of the powers and duties of the Board, it is understood that the Board shall act as a governing body in the determination of general policies for the control, operation, maintenance and expansion of the school district. The details of the administration of these policies shall be the responsibility of the Superintendent of Schools and his/her administrative staff. The Board functions only when it is in session.

The Board of Education sees these as its required functions:

A. Legislative or policy-making

The Board is responsible for the development of policy and for the employment of a Superintendent of Schools who shall carry out its policies through the development and implementation of regulations/procedures.

B. Appraisal

The Board is responsible for evaluating the effectiveness of its policies and their implementation.

C. Educational Planning

The Board is responsible for requiring and acquiring reliable information from responsible sources that will enable it and the staff to work toward the continuing improvement of the educational program.

D. Provision of financial resources

The Board has major responsibilities for the adoption of a budget that will provide the wherewithal in terms of buildings, staff, materials, and equipment to enable the school system to carry out its functions.

E. Interpretation

The Board is responsible for providing adequate and direct means for keeping the local community informed about the school and for keeping itself and the school staff informed about the concerns and opinions of the public.

The Board believes that, by diligently exercising these functions, it will be able to provide, within the financial limitations set by the community, the best educational opportunities available for our children.

The Board shall exercise its powers through the legislation of bylaws and policies for the organization and operation of the school district.

The Board shall be responsible for the operation of the school but shall delegate the administration to the Superintendent of Schools, who shall be appointed by a recorded roll call majority vote of the full Board.

The Board may hear appeals and complaints in grievance and disciplinary actions as defined in their policies and by the law.

It is understood that the members of the Board have authority only when acting as a Board legally in session. Individual Board Members lack authority over district affairs.

The Board shall not be bound in any way by any action or statement on the part of any individual Board Member except when such statement or action is in pursuance of specific instructions from the Board.

The Board shall make its members, the district staff, and the public aware that only the Board, acting as a duly constituted quorum at a legal meeting, has authority to take official actions. All other actions, whether individual or collective, have no legal basis.

No Board Member, by virtue of his/her office, shall exercise any administrative responsibility with respect to the daily operation of the school or school district or command the services of any school employee.

The Board shall be responsible for the operation of the schools but shall delegate the administrative function to the Superintendent of Schools, who shall be appointed by a recorded roll call majority vote of the whole number of members of the Board. All policies of the Board will be enforced by the Superintendent of Schools who will be accountable to the Board of Education.

Members of the Board shall adhere to the Code of Ethics for Board Members as specified in Policy 9271.

The Board of Education accepts the responsibility of governing the operation of the district in the best interests of the total community. Individual members shall all subscribe to the philosophy and guidelines for action outlined by Policy #9271 (Code of Ethics for School Board Members). The Board as a body, and the members individually, wish at all times to avoid attitudes and actions that might give rise to public questioning of the integrity of any Board decision.

Therefore:

- A. No Board Member shall hold any form of paid employment with the district while he/she is serving, nor for six months after leaving office;
- B. No spouse, sibling, parent, child, or grandchild of a serving Board Member shall be considered for any paid employment in the district. Pre-existing employment shall not be affected. Where such pre-employment exists, the Board Member shall take no active part in contract negotiations, nor shall he/she discuss the vote on the resulting contract, or any other agreement entered into between the Board and the relative.
- C. When a relative of a Board Member is employed by the Board, that Board Member shall take no active part in contract negotiations, nor any other agreement entered into between the Board and the relative, nor any action concerning that specific employee, unless a majority of the remaining Board Members present requests that he/she vote;
- D. No Board Member will accept gratuities or favors for himself/herself or on behalf of relatives that are offered by a vendor or contractor to the district. Should a Board Member learn that such a situation exists between a relative and a vendor or contractor to the district, he shall recognize that the Board deems this to represent the appearance of conflict of interest. The Board Member shall refrain from voting on matters pertaining to that vendor/contractor, and enter the reason for his/her abstention in the minutes;
- E. No Board Member shall be a contractor for goods or services to the district during the Board Member's term or for six months after leaving office.
- F. In the event a Board Member is employed by a corporation or business or has secondary interest in a corporation or business which furnishes goods or services to the school district, the Board Member shall declare that interest and refrain from debating or voting upon the question of contracting with the company.
- G. Employees of the school district are precluded from serving on the Board by statute which makes it unlawful for a Board member to receive compensation or reward for services to the district.
- H. No Board Member having immediate family members employed by the district shall participate in decisions affecting the terms and/or conditions of employment, salary, benefits, appointment, dismissal, etc., of the Superintendent of Schools.

The members of the Board of Education recognize that they hold authority not as individuals but as members of the Board. In order to make a clear public statement of its philosophy of service to the pupils of the district, the Board adopts this Code of Ethics:

- A. I will uphold and enforce all laws, state Board rules and regulations, and court orders pertaining to schools. Desired changes should be brought about only through legal and ethical procedures.
- B. I will make decisions in terms of the educational welfare of children and will seek to develop and maintain public schools which meet the individual needs of all children regardless of their ability, race, creed, sex or social standing.
- C. I will confine my Board action to policymaking, planning and appraisal and I will help to frame policies and plans only after the Board has consulted those who will be affected by them.
- D. I will behave toward my fellow Board Members with the respect due their office--demonstrating courtesy, decorum and fair play at all public meetings and in all public statements.
- E. I will refrain from inappropriate conduct in public meetings and in making public statements, refraining from any disparagement of my fellow Board Members or others on a personal, social, racial or religious basis.
- F. I will carry out my responsibility, not to administer the schools, but, together with my fellow Board Members, to see that they are well run.
- G. I will recognize that authority rests with the Board of Education and will make no personal promises nor take any private action which may compromise the Board.
- H. I will refuse to surrender my independent judgment to special interest or partisan political groups or to use the schools for personal gain or for the gain of friends.
- I. I will hold confidential all matters pertaining to the schools which, if disclosed, would needlessly injure individuals or the schools. But in all other matters, I will provide accurate information and, in concert with my fellow Board Members, interpret to the staff the aspirations of the community for its schools.
- J. I will vote to appoint the best qualified personnel available after consideration of the recommendation of the Superintendent of Schools.
- K. I will support and protect school personnel in proper performance of their duties.
- L. I will refer all complaints to the Superintendent of Schools and will act on such complaints at public meetings only after failure of an administrative solution.

The Board shall see that all members of the Board receive training in understanding and adhering to this code of ethics and shall discuss it annually at a regularly scheduled public meeting. Each member shall sign documentation that he/she has received a copy of it and has read and understood it.

The Board of Education wishes to maintain honest and ethical relations with vendors and to avoid any appearance of impropriety or favoritism in its contracting practices. Therefore the Board of Education prohibits "pay-to-play."

The Board of Education will not vote upon or otherwise participate in the awarding of any contract in the amount of \$17, 500 to any individual, firm, partnership, corporation, association or other business entity which has contributed funds including campaign contributions to that member of the Board of Education within the previous one-year period pursuant to P.L. 1973, c.83 (NJSA 19:44A-1 et. seq.).

Contributions to any Board Member from any individual, firm, partnership, association, or other business entity doing business with the school district are prohibited during the term of a contract, pursuant to P.L. 1973, c.83 (NJSA 19:44A-1 et. seq.).

When a business entity referred to above is a natural person, a contribution by that person's spouse or child that resides therewith shall be deemed to be a contribution by the business entity. Where a business entity is other than a natural person, a contribution by any person or the business entity having an interest therein shall be deemed to be a contribution by the business entity.

The disclosure requirement set forth in section 2 of P.L. 2005, c. 271 (NJSA 19:44A-20.26) also shall apply when the contract is required by law to be publicly advertised for bids.

Contributions that are prohibited include cash contributions, in-kind contributions, pledges to make contributions of any kind to a candidate for or holder of public office, or any other thing of value pursuant to P.L. 1973, c.83 (NJSA 19:44A-1 et. seq.).

Not later than 10 days prior to entering into any contract having an anticipated value in excess of \$17,500, except for a contract that is required by law to be publicly advertised for bids, any business entity bidding thereon or negotiating therefore, shall submit along with its bid or price quote, a list of political contributions made by the corporation, its principals and employees, or others on its behalf, along with the date and amount of each contribution and the name of the recipient of each contribution. If the required list of contributions is missing, incomplete or untimely, the contract is void *ab initio*, as a material defect that invalidates the contract.

In addition, the business entity may be subject to a fine imposed by the New Jersey Election Law Enforcement Commission.

Provisions of this ban on pay-to-play will not apply to a contract when a public emergency requires the immediate delivery of goods or services.

Three functional activities are recognized in respect to policies of the Board:

1. Legislative

Planning is basic to all activity. It is that function which makes policies, selects an executive, and delegates to the executive the placing of plans and policies into operation, and provides the financial means for their execution.

2. Executive

The executive function is that which is concerned with the placing into operation the plans and policies, keeping the Board of Education informed, and furnishing creative leadership to the Board of Education and to the profession.

3. Appraisal – Appraisal is the function which attempts, through careful examination and study of facts and conditions, to determine the efficiency of operation of the general activities, and the worth and value of results of the activities in relation to the efficiency and value of instruction.

The Board of Education reserves to itself the legislative and appraisal functions, and shall periodically make such appraisal. The executive function shall be completely delegated to the Superintendent of Schools. The Superintendent of Schools shall be completely responsible for devising ways and means for executing efficiently the policies adopted by the Board of Education.

Introduction

In formulating any policy, the Board of Education has pledged to consider the will and needs of the community within the parameters of New Jersey law. The passage of time and changing circumstances may alter the community's point of view. Changes in the law may alter what is allowable or what is required.

Public Input

The Board of Education may, at its discretion, seek input from the public in the development of policies and procedures when appropriate. In such cases, the Board may establish ad hoc committees to study the issue in question and develop policy language. The Board may also seek the advice of pertinent citizen groups in such endeavors.

Except for policy actions to be taken on emergency measures, the adoption of Board policies shall follow this sequence that will take place at two consecutive regular meetings of the Board.

1. Proposed new or revised policies shall be placed in their entirety on the agenda, and formally introduced at both meetings. It shall be noted on the agenda and in the minutes whether it is the first "reading" or second "reading" of the proposal(s). During the first and second "readings" of any new or revised policies, a copy of these new or revised policies shall be available for reference, but it shall not be necessary for the entire text of the policies to be read.
2. Discussion and final action by the Board on a policy shall occur after the second "reading."
3. At least two (2) weeks shall elapse between the meeting at which policy proposals are first placed on the agenda and the meeting at which the final vote to adopt or not to adopt occurs.

Final Action

1. Prior to enactment, all policy proposals shall be titled and coded as appropriate to subject and in conformance with the codification system used in the Board Policy Manual.
2. Insofar as possible, each policy statement shall be limited to one subject.
3. Policies and amendments adopted by the Board shall be part of the minutes of the meeting at which they are adopted and shall also be included in the policy manual of the district as soon as possible.
4. Policies and amendments to policies shall be effective immediately upon adoption unless a specific effective date is provided in the adopted resolution.

Emergency Procedures

On matters of unusual urgency, the Board may waive the two (2) week limitation and take immediate action to adopt new or revised existing policies. When such immediate action is necessary, the Superintendent of Schools shall inform affected groups or individuals of the new or revised policies within three (3) working days after adoption.

In the interest of efficient administration, the Superintendent of Schools shall have the power to decide all matters of detail that may arise for which no specific provision is made in the policies adopted by the Board, but no emergency action shall constitute official Board policy. Whenever possible, the Superintendent of Schools shall consult with the Board President prior to such emergency action. The Superintendent of Schools shall present the matter at the next Board meeting so the Board can consider policy to deal with that situation in the future.

The Board reserves to itself the final determination of what shall be the official policy of the school district.

Continual Review of Board Policies

The Board directs the Superintendent of Schools to develop procedures for continuous orderly review of the policies in the Board policy manual during the time provided for “policy” on the agenda of the regular Board meeting. Each policy shall be reviewed at least once every five years. Any necessary revisions shall be made in conformity with Board policy #9311 – Formulation, Adoption and Amendment of Policy.

If the terms of the policy are not affected by the changes in law, and the policy still reflects the intent of the Board in the matter, then the policy shall be officially readopted as of that date.

The Board directs the Superintendent of Schools to review the rules and regulations implementing any revised or altered policy to ensure that they confirm to the intent of the policy as revised or changed.

The Board of Education shall develop and implement a five year review cycle to ensure that all policies and bylaws of the district are current with present practice and statute.

The Board of Education's bylaws are rules designed to organize and control its internal operations. Some bylaws are set by statute. Others may be formulated and adopted at its option by the Board of Education itself as long as they are in harmony with the intent and specifics of the statutes.

In its deliberations leading to the establishment or amendment of its bylaws, the Board's central concern will be for increased efficiency and effectiveness in carrying out its legally mandated tasks.

The Board will formulate and adopt a bylaw safeguarding the right of Board Members to be informed of and to participate fully in the discussion of each proposed new or amended bylaw.

Proposed new bylaws and suggested amendments to or revisions of existing bylaws shall be adopted by a majority vote of all members of the Board during the second of two regularly scheduled meetings of the Board.

The Board of Education shall delegate to the Superintendent of Schools the function of specifying required actions and designing the detailed arrangements under which the schools will be operated. Such rules and detailed arrangements shall constitute the administrative regulations governing the schools.

The administrative regulations must be in every respect consistent with the policies adopted by the Board. The Board itself will formulate and adopt administrative regulations only when specific state laws require Board adoption, and may do so when the Board so desires or when the Superintendent of Schools recommends Board adoption.

These administrative rules and regulations must be consistent with Board contracts and policies, the law rulings of the Commissioner of Education, and rules of the State Board of Education.

In the development of rules, regulations, and procedures for the operation of the school system, the Superintendent of Schools shall include at the planning stage, whenever appropriate, those employees who will be affected by such provisions.

Such rules and regulations shall be binding on all employees unless or until the Board should vote to change or rescind any such rule or regulation following its presentation at a public meeting of the Board. The Board itself will adopt administrative regulations when specific state laws require Board adoption, and may do so when the Superintendent of Schools recommends Board adoption.

The Board reserves the right to review and request revisions of administrative regulations should they, in the Board's judgment, be inconsistent with the policies adopted by the Board.

The Board of Education has developed a careful and deliberate process of formulating and adopting its policies and bylaws. Requests for suspension of any existing policy or bylaw should receive the same careful consideration.

Therefore:

- A. Any request for a waiver of policy or bylaw shall be considered in light of the policy or bylaw itself, rather than any particular circumstances of the moment.
- B. The Board shall decide whether the policy or bylaw still reflects the considered intent of the Board. If it does, the suspension will be denied and the policy or bylaw reaffirmed in the minutes.
- C. If the policy or bylaw does not reflect the intent of the Board, then the policy shall be waived by a majority vote of the members of the Board present and voting and development of a revised policy or bylaw shall become the Board's prime policy priority.

Development of a new policy shall become the Board's prime policy priority. In the event of an emergency requiring immediate action, the Superintendent of Schools shall have the authority to waive policy or regulation in the single instance. In such cases, the Superintendent of Schools shall report the instance to the Board President immediately, and request reconsideration of the policy at the next regular meeting.

Such sessions shall be closed to the public and press, shall be declared so by a formal motion at a public meeting. Minutes taken at such meetings shall remain confidential only so long as their publication would defeat the purpose of the executive session. That such a meeting will be or was held shall be recorded in the minutes of the preceding or subsequent regular meeting. Board Members and other persons attending the session are honor-bound not to disclose the topic or details of any discussions during the executive session.

The Board may invite staff members or others to attend executive sessions at its discretion.

When public employees make statements pursuant to their official duties: in the classroom, at Board meetings, and at other meetings related to educational issues affecting the district, the employees are not speaking as citizens for First Amendment purposes, and the Constitution does not insulate their communications from employer discipline.

No official action shall be taken during executive sessions, except such as may be sanctioned by law. To take final action on any matter discussed, the Board shall convene or reconvene in open session.

The minutes of all executive sessions must be approved by a majority vote of the full Board of Education at the following, regularly scheduled meeting of the Board of Education.

Public Participation

Meetings of the Board are open to the public and all members of the community should feel free to attend. A time for public discussion of agenda items shall be included in the order of business at an appropriate time. The Board President has the discretion to limit the time an individual may speak based upon the available time on the agenda. Where possible, notice of time limits will be given at the beginning of the meeting. At least one week prior to the meeting, a member of the public may request time on the agenda. This will be granted at the discretion of the Board President.

Brief comments on any matter of interest to the district should be reserved for the time provided in the order of business.

Provision may be made for the introduction by a member of the public of business not on the agenda when the matter is of such urgency or wide interest that delaying consideration of it until the next meeting would not be in the public interest.

No member of the public is permitted to present orally or discuss at an open meeting of the Board complaints against individual employees or students of the district.

Grievances or complaints that have not previously been considered through administrative channels shall not be acted upon by the Board.

Electronic Communications Among Board Members

Policy 9322.1

Date Adopted: May 5, 2008

Date Revised:

Page 1 of 1

The Board of Education believes that electronic communication among its members and the administration is an efficient and convenient way to exchange information, but must not be misused to deliberate issues that are appropriately discussed only in a public meeting. Therefore, Board Members and administrators shall exercise caution when communicating between and among themselves via electronic messaging services including, but not limited to, Internet Web Forums and Internet Chat Rooms. Board Members should understand at all times that these communications represent permanent school district records that can be subject to public disclosure. Electronic messaging communication shall conform to the same standards of judgment, propriety and ethic as other forms of Board-related communication (committee meetings, telephone calls, etc.). Board Members shall adhere to the following guidelines when communicating electronically:

- A. Board Members shall not use or any other electronic messaging service as a substitute for deliberations at Board meetings. The Open Public Meetings Act defines a “meeting” as any gathering attended by, or open to the members of a public body, held with the intent to discuss or act as a unit upon the specific public business of that body.
- B. Board Members shall be aware that any attachments received or prepared for use in Board business are likely to be regarded as public records that may be inspected by any person upon request, unless otherwise made confidential by law.
- C. Board Members shall avoid reference to confidential information about employees, students or others in communications because of the risk of improper disclosure.
- D. Board Members shall adhere to the district “acceptable use” policy in all communications and shall refrain from sending inappropriate, profane, harassing or abusive Emails.
